BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

authorizing highway common carrier)
service to exclude therefrom trans-)
portation of metal cans and can ends.)

Application No. 43858

O P I N I O N

Frank's Trucking requests that its certificated authority as a highway common carrier be amended to exclude therefrom the transportation of cans and can ends.

It is alleged that metal cans and can ends, tops and bottoms involve a type of service which is characteristic of and usually performed by a contract motor carrier; that it requires equipment to be assigned and devoted exclusively to hauling such commodities for a single manufacturer or consignee; that the vehicles used in this operation are frequently of the high-cube, van type with special loading and unloading rollers built into their beds; that applicant presently possesses eighteen of these special units used almost exclusively in the transportation of cans for two can manufacturers; that certain problems have arisen concerning tariff publications due to cans being light and bulky, movements thereof generally being made on a regular and frequent basis, points of destination changing from time to time, and the volume of the shipments being subject to substantial variations; that under a common carrier tariff timely rate

adjustments giving consideration to such factors is not possible and that it can only be accomplished under the regulations governing contract carriage.

After consideration the Commission finds and concludes that the application should be granted. A public hearing is not necessary.

O R D E R

Application having been filed and the Commission being informed in the premises,

IT IS ORDERED that:

1. Appendix A of Decision No. 54203 is hereby amended by substituting Third Revised Pages 1 and 2 attached hereto in place of Second Revised Pages 1 and 2.

2. Within one hundred twenty days after the effective date hereof and on not less than five days' notice to the Commission and to the public, applicant shall amend its tariff presently on file with the Commission to reflect the authority herein granted.

The effective date of this order shall be twenty days after the date hereof.

Dated at San Francisco, California, this 19th day of DECEMBER, 1961.
