Application No. 42259

O R D E R

It appearing that the Commission by Decision No. 60645, dated August 30, 1960, granted applicant certificates of public convenience and necessity to construct and operate a public utility water system and to exercise certain franchise rights within areas therein described, and

It appearing that said decision provided that such certificates were not to become effective until applicant should have made provision for the reasonable continuation of an adequate supply of water in case of failure of its proposed initial single well source, and

It appearing that because of certain circumstances, more particularly alleged in the petition filed herein February 28, 1962, applicant only now is able to satisfy the above condition, and

It appearing that the authority contained in Decision No. 60645 expired August 30, 1961, and

It appearing that applicant was unaware of such expiration until January 1962, and

It appearing that in Decision No. 60645 the Commission found that public convenience and necessity required that certificates

be granted for the construction and operation of a water system and the exercise of the rights and privileges under Ordinance No. 542 of the County of Sacramento in the area concerned, and

It appearing that the Commission finds the public convenience and necessity presently require that certificates be granted for the construction and operation of a water system and the exercise of the rights and privileges granted under Ordinance No. 542 of the County of Sacramento in the area involved, and

It appearing that the Commission has determined that such certificates should be issued subject to the following provision of law:

That the Commission shall have no power to authorize the capitalization of the franchise involved herein or these certificates of public convenience and necessity or the right to own, operate or enjoy such franchise or certificates of public convenience and necessity in excess of the amount (exclusive of any tax or annual charge) actually paid to the State or to a political subdivision thereof as the consideration for the grant of such franchise, certificates of public convenience and necessity, or right.

The Commission may hereafter by appropriate proceeding and order limit the authority herein granted to applicant as to any territory within said county not then being served by it.

IT IS HEREBY FURTHER ORDERED that:

1. The certificates granted in the foregoing paragraphs of this order shall not become effective until applicant shall have provided for the reasonable continuation of an adequate supply of water in case of failure of its proposed initial single well source, all in a manner acceptable to the Commission, and shall have so notified the Commission in writing after the effective date of this order.
