Application No. 44270

ORDER

The verified application of Great Northern Railway Company filed on March 15, 1962 discloses that no passenger or freight business has been transacted at applicant's station of Suty Siding, Modoc County, during the past six years and that continued maintenance thereof is not necessary.

Notice of the application has been given to various parties thought to be interested and no protests have been received. A public hearing does not appear to be necessary.

It is found that public convenience and necessity no longer require the maintenance of such service. Great Northern Railway Company is hereby authorized to abandon its non-agency station of Suty Siding, County of Modoc; to remove a spur track facility at said station; to eliminate said name from its station records; and to cancel all tariffs and time schedules applying at said station on not less than five days' notice to the Commission and the public. Such tariff changes shall quote this decision number as the requisite authority. This order shall not be construed as authorization to increase rates or charges.

Within thirty days after abandonment and removal of the facility as authorized herein, applicant shall so notify the Commission in writing. This authorization shall expire if not exercised within one year, unless time be extended. The effective date of this order shall be twenty days after the date hereof.

Dated at San Francisco, California, this 8th day of MAY, 1962.
