

Decision No. 65177**ORIGINAL**

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

Application for Approval of Agreement)
 Dated January 11, 1963, Between)
 CALIFORNIA ELECTRIC POWER COMPANY and)
 PERMANENTE CEMENT COMPANY.)

Application No. 45165
 (Filed February 6, 1963)

OPINION AND ORDER

California Electric Power Company (applicant) requests an order authorizing it to carry out the terms and conditions of an Electric Extension and Service Agreement, dated January 11, 1963 (January 1963 agreement), with Permanente Cement Company (customer). A copy of this agreement is attached to the application as Exhibit A. Supplemental information received from applicant in a letter dated February 20, 1963, which letter is hereby received as Exhibit 1 herein, states that rights of way not obtainable at the time the January 1963 agreement was signed have now been obtained which enable applicant to reduce the length of the line extension from approximately two and one-half miles to approximately 9,700 feet.

The customer requests electrical service to operate a limestone quarry at a location in San Bernardino County, described as Artic Canyon, South Quarter Corner Section 8, Township 3 North, Range 1 East, S.B.B. & M. Applicant agrees to extend a 34.5 kilovolt electric line for a distance of approximately 9,700 feet and to furnish and install a 450 kva-34.5 kv/4.16 kv substation on said property and there to make an electrical connection and furnish electrical energy and service for customer's initial connected load of approximately 500 hp.

The January 1963 agreement does not provide for a line extension deposit nor a special minimum charge. The length of the

line extension is within applicant's free footage allowance. The application is filed in accordance with applicant's Rule No. 15, Line Extensions, Section E-7, Exceptional Cases, inasmuch as service to the customer involves an extension of line to be operated at a voltage in excess of 12 kilovolts. ✓

The total estimated cost is stated to be \$26,416 of which \$22,411 is estimated to be the cost of line extension excluding transformers and meters. The annual expected revenue is estimated to be approximately \$10,000. Applicant states that the extension will not be burdensome to other customers of applicant.

The January 1963 agreement states that payment for this service will be made in accordance with applicant's filed Schedule No. A-4.1 and that the term of the agreement will be three years.

This agreement further states that it shall not become effective until authorized by this Commission and that it shall be subject to the rules of the applicant and to such changes or modifications as this Commission may direct in the exercise of its jurisdiction.

Applicant and customer are hereby placed on notice that in any future rate proceeding this Commission will not be obligated to consider the opposition of either party to any proposed changes in this agreement predicated on the existence of an agreement which has been authorized by this Commission.

The Commission finds that the proposed agreement is not adverse to the public interest and concludes that the application, as modified in Exhibit 1, should be granted. A public hearing is not necessary.

IT IS ORDERED that:

1. Applicant is authorized to carry out the terms and conditions of the written agreement with Permanente Cement Company, dated January 11, 1963, a copy of which agreement is attached to the application as Exhibit A.

2. Applicant shall file with this Commission, within thirty days after the effective date of this order, four certified copies of the agreement as executed, together with a statement of the date on which said agreement is deemed to have become effective.

3. Applicant shall notify the Commission of the date of termination of the agreement within thirty days after said date of termination.

4. Applicant shall file with this Commission, within thirty days after the effective date of this order and in conformity with General Order No. 96-A, a revised list of contracts and deviations, including the agreement herein authorized. Such list shall become effective upon five days' notice to the Commission and to the public after filing as hereinabove provided.

The effective date of this order shall be twenty days after the date hereof.

Dated at San Francisco, California, this 9th day of APRIL, 1963.
