Case No. 5435
Petition for Modification No. 43
(Filed November 15, 1962)

OPINION AND ORDER

By Decision No. 65312, entered today, the Commission established a less-than-carload exception rating of third class on fluorescent lamp ballasts in Minimum Rate Tariff No. 2. That decision also found that in order to avoid duplication of tariff distribution Minimum Rate Tariff No. 5 should be amended by separate order.

Good cause appearing,

IT IS ORDERED that:

1. Minimum Rate Tariff No. 5 (Appendix A of Decision No. 32504, as amended) is further amended by incorporating therein, to become effective June 22, 1963, Eighth Revised Page 3 and Ninth Revised Page 22, which pages are attached hereto and by this reference made a part hereof.

2. Tariff publications authorized to be made by common carriers as a result of the order herein may be made effective not earlier than the tenth day after the effective date of this order, and may be made effective on not less than ten days' notice to the

Commission and to the public if filed not later than sixty days after the effective date of the minimum rate tariff pages incorporated in this order.

3. Common carriers, in establishing and maintaining the rates authorized hereinabove, are hereby authorized to depart from the provisions of Section 460 of the Public Utilities Code to the extent necessary to adjust long- and short-haul departures now maintained under outstanding authorizations; such outstanding authorizations are hereby modified only to the extent necessary to comply with this order; and schedules containing the rates published under this authority shall make reference to the prior orders authorizing long- and short-haul departures and to this order.

4. In all other respects said Decision No. 32504, as amended, shall remain in full force and effect.

The effective date of this order shall be twenty days after the date hereof.

Dated at San Francisco, California, this 1st day of May, 1963. ✓
