ORIGINAL

Decision No. _____

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application of
 VISTA WATER CO., INC., a California
 corporation, for a certificate of
 public convenience and necessity to
 operate a public utility water system,
 to establish rates therefor and for a
 permit to issue capital stock of said
 applicant corporation.

Application No. 42336
(Amended)

SECOND SUPPLEMENTAL ORDER

Ordering paragraph 2 of Decision No. 62184 in this proceeding prohibits extension of service by applicant outside of its certificated area until an additional well and pumping unit shall have been installed and placed in operation in a manner acceptable to the Commission.

By letter dated April 29, 1963, attorney for applicant advises that suitable facilities have been installed, interconnected with the initial source of supply, and placed in operation. A Commission staff engineer has inspected these facilities and reports that, in his opinion, they satisfy the Commission's requirements.

The Commission finds that Vista Water Co., Inc., has complied with the requirements of said ordering paragraph.

IT IS ORDERED that:

1. The service restriction in ordering paragraph 2 of Decision No. 62184 shall no longer be in effect unless reinstated by further order of this Commission.

2. Except as modified by the supplemental order dated July 17, 1962, and this second supplemental order, Decision No. 62184 shall remain in full force and effect.

The effective date of this order shall be the date hereof.

Dated at San Francisco, California, this 18th day of JUNE, 1963.
