Decision No. \_\_\_\_\_

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

Investigation on the Commission's own  
 motion into the operations of Communi-  
 cation Common Carriers for hire in  
 Domestic Public Land Mobile Radio  
 Service, also known as Miscellaneous  
 Common Carriers, and private mobile  
 carriers which offer such service to  
 the public in general, for the purpose  
 of determining whether or not such  
 carriers should be required to obtain  
 a certificate of public convenience  
 and necessity as public utility  
 telephone corporations and to file  
 tariffs of their rates and charges,  
 and for the further purposes of  
 prescribing rules and classifications  
 governing regulation of such carriers.

Case No. 6945

FOURTH INTERIM ORDER

Pursuant to Decision No. 64809, dated January 22, 1963  
 in the above-entitled proceeding, each of 53 named respondents filed  
 a questionnaire report with this Commission answering the following  
 questions, among others:

"3. Do you rent, lease or otherwise provide to others for  
 compensation in California any mobile radiotelephone  
 equipment which you not only own but also maintain and  
 which others than yourself use for private mobile  
 radiotelephone communication? (Please check one.)

No \_\_\_\_\_ Yes \_\_\_\_\_

"4. Do you now rent, lease or otherwise provide to others  
 for compensation in California any mobile radiotelephone  
 equipment which you own but do not maintain and which  
 others than yourself use for private mobile radio-  
 telephone communication? (Please check one.)

No \_\_\_\_\_ Yes \_\_\_\_\_

Each such filed questionnaire report was signed by an authorized party stating: "I have been authorized to and hereby certify under penalty of perjury that the foregoing report is true and correct."

The 29 respondents set forth in Appendix A attached hereto answered both of the above questions in the negative.

We find that none of the 29 respondents set forth in Appendix A hereof rent, lease or otherwise provide to others for compensation in California any mobile radiotelephone equipment which they either own and also maintain or own but do not maintain and which others than themselves use for private mobile radiotelephone communication.

Based upon the above finding we conclude that none of the 29 respondents set forth in Appendix A hereof are private mobile carriers which offer such service to the public in general or a portion thereof as public utility telephone corporations within the meaning of Section 234 of the Public Utilities Code of the State of California.

We further conclude that the investigation with respect to said 29 respondents set forth in Appendix A hereof should be dismissed but that the investigation should continue with respect to all respondents other than those set forth in Appendix A hereof.

IT IS ORDERED that the investigation under Case No. 6945 is dismissed with respect to the 29 respondents set forth in Appendix A hereof. However, said investigation is continued with respect to all respondents other than those set forth in Appendix A hereof.

The Secretary is directed to cause a copy of this order to be served upon each respondent named in Appendix A to Decision No. 64809.

The effective date of this order shall be twenty days after the date hereof.

Dated at San Francisco, California, this 30th day of July, 1963.
