Application No. 45526
(Filed June 17, 1963)

OPINION AND ORDER

Charles R. Coyner, doing business as Coyner Trucking Co., operates as a highway contract carrier. By Decision No. 64678 dated December 18, 1962, he was authorized to transport groceries and related commodities for Bert McDowell Co. from Sacramento to points within 130 miles of Sacramento at rates computed upon 81 percent of the applicable minimum truckload rates and charges contained in Minimum Rate Tariff No. 2 at time of shipment. This authority is based on the condition that all property to be transported must be loaded by the shipper. The authority is scheduled to expire July 31, 1963. By this application, applicant seeks authority to continue the same rate deviation until January 31, 1964.

Applicant states that the expiration date of the current authority was limited to July 31, 1963, at his request, in anticipation of labor cost increases prior to that date. Applicant now states that the contemplated cost increases have not materialized and that increases in higher costs are not now expected prior to January 31, 1964. He further alleges that there has been no change in circumstances or conditions relating to the transportation services; that the services are being performed as described at the original hearing;

that he will continue to perform the services in the same manner in the future as in the past; that the shipper is satisfied with the present arrangement and has continued to make available to applicant the same tonnage as in the past; and that the service has been performed at a profit for the past year and will continue to be performed at a profit. An income statement for the first four months of 1963, submitted with the application, indicated that applicant received a net income of \$34,117 for the period.

The verified application shows that a copy thereof was served upon the California Trucking Association on or about June 14, 1963. That Association has advised the Commission by letter that it has no objection to the ex parte consideration requested.

In the circumstances, it appears, and the Commission finds, that the proposed rates are reasonable for the transportation involved. A public hearing is not necessary. The application will be granted.

In view of the expiration date of the current authority the order which follows will be made effective July 31, 1963.

Good cause appearing,

IT IS ORDERED that:

1. Charles R. Coyner is hereby authorized to transport property for Bert McDowell Co. from Sacramento at rates less than the established minimum rates but not less than those specified in Appendix A attached hereto and by this reference made a part hereof.

2. The authority herein granted shall, on and after July 31, 1963, supersede the authority granted by Decision No. 64678 and shall expire with January 31, 1964.

The effective date of this order shall be July 31, 1963.

Dated at San Francisco, California, this 30th day of July, 1963.
