Application No. 45520

O P I N I O N

Santa Barbara Transit Company requests authority to extend its Route No. 6 to serve a new area on a 90-day trial basis and to extend service for the transportation of school children.

The proposed extended service over Route No. 6 will result in an abandonment of a portion of the present route and will require the use of an additional bus, which allegedly is presently available. According to the application an average of only 7 passengers a day board or alight within the proposed area to be abandoned. There is no existing service in the proposed extended area.

After consideration the Commission finds that public convenience and necessity require the granting of the application. A public hearing is not necessary.

O R D E R

IT IS ORDERED that:

1. A certificate of public convenience and necessity is hereby granted to Santa Barbara Transit Company, authorizing the

establishment and operation of service as a passenger stage corporation, as that term is defined in Section 226 of the Public Utilities Code, for the transportation of passengers between the points and over the routes set forth in Second Revised Page 9 and Original Page 12 of Appendix A, attached hereto, as an extension and enlargement of, consolidation with and subject to all the limitations and restrictions set forth in the certificate granted by Decision No. 53442.

2. Appendix A of Decision No. 53442 is hereby amended by incorporating Second Revised Page 9 and Original Page 12 in revision of First Revised Page 9.

3. In providing service pursuant to the certificate herein granted, applicant shall comply with and observe the following service regulations:

- (a) Within thirty days after the effective date hereof, applicant shall file a written acceptance of the certificate herein granted.
- (b) Within one hundred twenty days after the effective date hereof, applicant shall establish the service herein authorized and file in the Commission's office in triplicate tariffs and timetables satisfactory to the Commission.
- (c) The tariff and timetable filings shall be made effective not earlier than ten days after the effective date of this order on not less than ten days' notice to the Commission and the public, and the effective date of the tariff and timetable filings shall be concurrent with the establishment of the service herein authorized.
- (d) The tariff and timetable filings made pursuant to this order shall comply with the regulations governing the construction and filing of tariffs and timetables set forth in the Commission's General Orders Nos. 79 and 98.

4. In the event applicant seeks to discontinue service on Route No. 6 (El Encanto Heights Extension) after ninety days of service, it shall, within one hundred five days and not sooner than ninety days after the effective date of tariff and timetable filings required by paragraph 3 hereof, (1) file a notice of intention to discontinue the service upon fifteen days' notice to the Commission and the public, such notice to be posted conspicuously on its buses, (2) file a report of its operations on Route No. 6 (El Encanto Heights Extension) for the ninety-day trial period, and (3) amend its tariff and timetable filings to reflect the discontinuance of service, such filings to be made effective not earlier than the one hundred fifth day after establishment of service on not less than fifteen days' notice to the Commission and the public. The filing of the notice of intention, the report and the tariff and timetable amendments required above shall be made simultaneously. Upon the effective date of the tariff and timetable filings, unless stayed by the Commission, applicant may abandon the extended service and Route No. 6 (El Encanto Heights Extension) on Second Revised Page 9 of Appendix A attached hereto is hereby revoked.

The effective date of this order shall be five days after the date hereof. ✓
