Case No. 5432 (Petitions for Modification Nos. 233 and 235)

In the Matter of application for authority to make effective increases and reductions in certain railroad rates and charges.

Application No. 45042

SUPPLEMENTAL OPINION AND ORDER

Decision No. 66453 dated December 10, 1963, in these proceedings, revised the rates and charges in Minimum Rate Tariff No. 2 to become effective January 18, 1964.

It has come to the Commission's attention that the anyquantity class rates in Item No. 509 of the tariff were inadvertently reduced by that decision, whereas no reduction in these rates was intended.

In the circumstances, it appears and the Commission finds that the increases resulting from the adjustment of these rates are justified and that the resulting minimum rates and charges will be just, reasonable, and nondiscriminatory minimum rates and charges for transportation subject thereto. The tariff rates involved will be adjusted accordingly.
