Decision No. _____

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application)	
of BEKINS WAREHOUSING CORP., a)	
corporation for authority to)	
discontinue warehouse operations)	Application No. 45953
at 91 North Raymond Avenue,)	
Pasadena, California.)	

O P I N I O N

Applicant operates 13,000 square feet of public utility warehouse space in Pasadena. The operating right was created in Case No. 6942 by Order Instituting Investigation and Determining Warehouse Operative Rights dated September 1, 1960. This order was amended by Supplemental Order dated January 4, 1961 which did not change the Pasadena authorization. Eight thousand square feet was operated at 91 North Raymond Avenue and 5,000 square feet at 511 South Fair Oaks Avenue.

Applicant now seeks authority to abandon 8,000 feet of its authorized space at Pasadena. In support of its proposal applicant alleges certain matters hereinafter set forth.

Applicant's lessor at North Raymond Avenue has sold the property there. Neither the new owner nor applicant is desirous of continuing warehouse operations at that point. Applicant further alleges that it has enough general commodity space at South Fair Oaks Avenue to handle all storage of this type offered it. There has been no request or demand for storage at North Raymond for at least two and one half years nor have any goods of this type been stored there.

The application should be granted. It happens that applicant has warehouse rights in several California communities which arise under Sections 1051 and 1052 (as amended in 1959) of the Public Utilities Code. These are stated in an appendix to the orders in Case No. 6942. Therefore Appendix A to those orders should be further revised to show only 5,000 square feet at Pasadena.

The Commission finds that:

1. Public convenience and necessity no longer require the operation by applicant of 13,000 square feet of public utility warehouse space in Pasadena.

2. Public convenience and necessity will continue to require the operation by applicant of 5,000 square feet of public utility warehouse space in Pasadena.

The Commission concludes that the application should be granted.

O R D E R

IT IS ORDERED that:

1. Bekins Warehousing Corp., a corporation, is authorized to abandon public utility warehouse service for 8,000 square feet of its space in Pasadena.

2. Order Instituting Investigation and Determining Warehouse Operative Rights, dated September 1, 1960 as amended by Supplemental Order dated January 4, 1961, both in Case No. 6942, are hereby further amended by incorporating therein Second Revised Appendix A, attached hereto, in revision of First Revised Appendix A.

The effective date of this order shall be twenty days after the date hereof.

Dated at San Francisco, California, this 20th day of JANUARY, 1964.
