Application No. 45446
(Filed May 20, 1963)
(Amended June 14, 1963)

SUPPLEMENTAL OPINION AND ORDER

Rosa Water Company, a corporation, has authority from this Commission to furnish domestic water service in Simi Valley and vicinity, in Ventura County, pursuant to certificates of public convenience and necessity granted by various decisions. Rosa is now prohibited from extending service outside of the territory certificated to it.

By Decision No. 66256, dated November 5, 1963, Rosa was granted a certificate of public convenience and necessity to construct and operate public utility water systems in additional areas.

Ordering paragraph 4 of that decision provides:

"Rosa Water Company shall notify this Commission, in writing, within thirty days after installation and placing in operation of facilities to make a supplemental water supply available to its water system from Calleguas. After such notification, the Commission will issue an appropriate supplemental order in this proceeding lifting the restriction against Rosa Water Company extending service outside of the territory certificated to it."

By letter dated March 23, 1964, Rosa has advised that facilities necessary to make supplemental water available from Calleguas have been installed and are now in operation and that water is now being delivered by these facilities and used within the utility's system for service to customers.

The Commission finds that the supplemental supply is now available, and concludes that the restrictions against Rosa Water Company extending service outside of the territory certificated to it should be lifted; therefore,

IT IS ORDERED that the restrictions requiring that Rosa Water Company not extend service outside of the territory certificated to it are hereby removed.

The effective date of this order shall be the date hereof.

Dated at San Francisco, California, this

28th day of APRIL, 1964.
