OPINION AND ORDER

By Decision No. 65038, dated March 6, 1963, Pozas Bros. Trucking Co., a corporation, was authorized to assess specified hourly rates in lieu of the established minimum rates otherwise applicable for special expedited service of shipments having origin or destination within 10 miles of Sunnyvale. On commodities and between points which it serves as a highway common carrier, the hourly rates are published in petitioner's tariff. For other commodities and between other points, the authority was granted to applicant as a highway permit carrier to apply on shipments transported for Westinghouse Electric Corporation. These authorities automatically expired with March 27, 1964.

By this petition and application, applicant seeks reinstatement of the said authorities for a period of one year. Applicant states that, due to inadvertence, the necessity for seeking renewal of

the authorities prior to their scheduled expiration date was overlooked. Applicant asks the Commission to expedite its consideration of these matters by ex parte action.

The application states that the justification for the relief set forth in the prior petition and application exists at present in every respect and that the rates authorized and in effect until the aforesaid expiration date have proved to be fully compensatory and profitable. According to applicant, it anticipates that the present level of rates for the service involved will produce satisfactory profits for the ensuing period specified by the Commission and that the revenues from the involved service are important and are helpful in maintaining a financially successful overall service.

The certificate of service states that a copy of the petition and application were mailed to all parties of record on or about March 31, 1964. No objection to the granting of the petition and application has been received.

The proposed rates involved herein are hourly rates applicable to expedited service requiring special trips. Although differing in unit of measurement from the minimum rates otherwise applicable, which are stated in cents per 100 pounds of property transported, the hourly rates in general may be expected to produce charges greater than those which would result under the minimum rate tariff. The special rate authorities, heretofore granted to applicant and herein proposed to be reinstated and continued, were and will be conditioned by the provision that in no event shall the charges determined thereunder be less than the applicable minimum rates provided in the currently effective minimum rate orders of the Commission.

In the circumstances, it appears, and the Commission finds, that the proposed rates are reasonable and justified by transportation

conditions. A public hearing is not necessary. The sought authorities should be granted. The order which follows will be made effective on the date hereof, and the tariff filing will be permitted on five days' notice.

IT IS ORDERED that:

1. Pozas Bros. Trucking Co., a corporation, is hereby authorized to publish and file the rates and rules for Special Expedited Service set forth in Appendix A attached hereto and by this reference made a part hereof. The rates and charges authorized herein shall be published to expire with April 30, 1965.

2. Tariff publications authorized to be made as a result of the order herein may be made effective not earlier than five days after the effective date hereof on not less than five days' notice to the Commission and to the public.

3. Pozas Bros. Trucking Co., a corporation, is hereby authorized to depart from the long- and short-haul provisions of Section 460 of the Public Utilities Code to the extent necessary to exercise the authority granted herein.

4. Pozas Bros. Trucking Co., a corporation, is hereby authorized to transport property, as a highway permit carrier, for Westinghouse Electric Corporation in operations not covered by its highway common carrier certificate at the rates and subject to the rules set forth in Appendix B attached hereto and by this reference made a part hereof, in lieu of, but not less than, the minimum rates otherwise applicable.

5. The authority granted in Ordering Paragraph 4 above shall expire with April 30, 1965.

This order shall become effective on the date hereof.

Dated at San Francisco, California, this 5th day of May, 1964.
