Decision No. 66256.)

Application No. 46922
(Filed August 25, 1964)

OPINION AND ORDER

By Decision No. 66256, dated November 5, 1963, in Application No. 45238, Southern California Water Company (applicant) was authorized to provide service to approximately 1,710 acres of land in Simi Valley, Ventura County, California, with the proviso that it could not extend service to that portion of the certificated area east of Sycamore Road without further order of the Commission.

By Decision No. 66602, dated January 14, 1964, applicant was authorized to extend service to two parcels of land containing a total of approximately 284 acres and located east of Sycamore Road in its certificated area.

Applicant hereby requests authority to extend service east of the area authorized by Decision No. 66602, supra, but in its certificated area. The requested area contains approximately 113 acres. Applicant alleges that said area is presently being developed; that it has entered into preliminary contracts for extension of facilities for service thereto; that all extensions will be made in conformity with its filed rules and regulations; and that the rates for water service will be those specified in Decision No. 66256, supra.

By said Decision No. 66256, the Commission found that applicant has the public utility capability to provide, and that public convenience and necessity require that it extend, service to the certificated area but that the developer's plans for the eastern portion of the area were not firm. The area referred to in this application is in the area withheld from service by Decision No. 66256.

Upon the allegations of the application herein we find that public convenience and necessity require that applicant extend service to the area described in the order herein, and that a public hearing is not necessary.

IT IS HEREBY ORDERED that applicant be and it hereby is authorized to extend service to that area in Simi Valley, Ventura County, bounded and described as follows:

Commencing at the existing tariff area at Sequoia Avenue and Cochran Street; thence northerly along Sequoia Avenue to its intersection with the proposed Simi Freeway; thence easterly along the proposed Simi Freeway, 3,900 feet; thence southerly along a line parallel to Sequoia Avenue and 3,900 feet east to its intersection with Cochran Street; thence westerly along Cochran Street to the point of beginning.

The effective date of this order shall be twenty days after the date hereof.

Dated at San Francisco, California, this 13th day of October, 1964.

Frederick B. Halbachoff
