Application No. 47018
(Filed October 1, 1964)

OPINION AND ORDER

John T. Lane holds radial highway common carrier, highway contract carrier and city carrier permits. By Decision No. 66384, dated November 26, 1963, in Application No. 45825, he was authorized under Section 3666 of the Public Utilities Code to charge less than the established minimum rates for the transportation of flavoring syrup, nonalcoholic beverages and empty containers for the Coca-Cola Company between San Francisco and certain specified northern and central California points and to transport empty pallets without charge in connection with such transportation. The current authority is scheduled to expire with December 2, 1964.

By this application, Lane seeks to continue the present authority without change for an additional one-year period.

According to applicant, the operation has proved compensatory at the rates currently authorized, resulting in an operating ratio of 92 percent, as shown in the profit and loss statement for the twelve months ending August 31, 1964, set forth in Appendix "B" attached to the application.

The certificate of service attached to the application shows that a copy of the application was served by mail on the California Trucking Association on or about October 1, 1964. No objection to the granting of the application has been received.

In the circumstances, it appears, and the Commission finds, that the rates proposed by applicant and specified in Appendix A hereof are reasonable for the transportation involved. A public hearing is not necessary. The application will be granted.

IT IS ORDERED that:

1. John T. Lane is hereby authorized to transport flavoring syrup, nonalcoholic beverages and empty containers for the Coca-Cola Company from and to San Francisco to and from the points set forth in Appendix A, attached hereto and by this reference made a part hereof, at less than the established minimum rates but not less than those specified in Appendix A hereof.

2. John T. Lane is hereby further authorized to transport pallets without charge in connection with the transportation involved in this proceeding.

3. The authority herein granted shall, on and after December 2, 1964, supersede the authority granted by Decision No. 66384 and shall expire with December 2, 1965.

This order shall become effective twenty days after the date hereof.

Dated at San Francisco, California, this 27th day of October, 1964.
