Decision No. 68224

· A. 47074

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the matter of the application of PACIFIC GAS AND ELECTRIC COMPANY for an order authorizing it to issue and sell \$65,000,000 aggregate principal amount of its First and Refunding Mortgage Bonds, Series KK, due December 1, 1996, and to use the proceeds thereof for the purposes stated in this petition.

Application No. 47074 Filed October 29, 1964

<u>O P I N I O N</u>

In this application, Pacific Gas and Electric Company seeks authorization to issue and sell \$65,000,000 of First and Refunding Mortgage Bonds, Series KK, due December 1, 1996, for the purposes, generally, of repaying bank loans, of reimbursing its treasury, and of financing the cost of additions to, extensions of, and improvements to its plants, properties and facilities.

The company reports that its unreimbursed expenditures amounted to \$1,105,160,524 at August 31, 1964, and that the unexpended balance of general manager's authorizations for capital additions and improvements aggregated \$475,158,692. It estimates that during the year 1964, its capital expenditures will approximate \$243,000,000 and that approximately one-half of this amount will have to be provided from external sources. Applicant's capital ratios as of September 30, 1964, as adjusted to give effect to the proposed issue, are as follows:

- 1 -

Long-term debt	51%
Preferred stock	13
Common stock equity	36
Total	100%

Applicant intends to sell its new bonds at competitive bidding, the successful bid to determine the interest rate. The bonds will be dated as of December 1, 1964, will mature December 1, 1996, and will be subject to redemption, to and including November 30, 1965, at an initial redemption price equivalent to the public offering price plus 5% of the principal amount, or 105% of the principal amount, whichever is greater, plus accrued and unpaid interest, and thereafter at reducing premiums subject, however, to a five-year restricted redemption provision similar to that frequently employed in bond offerings at the present time.

The Commission has considered this matter and finds that: (1) the proposed bond issue is for a proper purpose; (2) applicant will have need for funds from external sources for the purposes set forth in this application; (3) the inclusion of the five-year restricted redemption provision in the terms of the bonds will enable applicant to obtain funds at a lower annual cost than it otherwise could; (4) the money, property or labor to be procured or paid for by the issue of the bonds herein authorized is reasonably required for the purposes specified herein; and (5) such purposes, except as otherwise authorized for accrued interest, are not, in whole or in part, reasonably chargeable to operating expenses or to income. A public hearing is not necessary.

A. 47074 R

On the basis of the foregoing findings, we conclude that the application should be granted. The authorization herein granted is for the issue and sale of bonds and is not to be construed as indicative of amounts to be included in proceedings for the purpose of determining just and reasonable rates.

5. Within thirty days after the issue and sale of the bonds herein authorized, Pacific Gas and Electric Company shall file with the Commission three copies of its prospectus.
