SUPPLEMENTAL ORDER

By Decision No. 61068, dated November 15, 1960, applicants were granted a certificate of public convenience and necessity to construct and operate a public utility water system in Butte County.

Ordering paragraph 1 of the decision requires that applicants shall, before commencing service to their thirtieth customer, or by May 1, 1963, whichever is earlier, provide for the reasonable continuation of an adequate supply of water in case of failure of their single well source.

By letter dated October 30, 1964, the utility has requested modification of the paragraph by deleting any reference to a date. It is stated that only two customers receive continuous service and that ten receive service on weekends for a portion of the year. It is alleged that if any equipment were to be installed, it would not be used and would thus deteriorate at an accelerated rate.

The Commission has considered this matter and finds that the request is reasonable. The Commission concludes that the decision should be modified as set forth below.

IT IS ORDERED that ordering paragraph 1 of Decision No. 61068 is modified by deleting therefrom the words "or by May 1, 1963, whichever is earlier,".

In all other respects Decision No. 61068 shall remain in full force and effect.

The effective date of this order shall be the date hereof.

Dated at San Francisco, California, this 30th day of NOVEMBER, 1964.
