

ORIGINALDecision No. 69460

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Investigation)
 for the purpose of considering and)
 determining revisions in or reis-)
 sues of Minimum Rate Tariff No. 14-A.)

Case No. 7857
 Petition for Modification
 No. 4
 (Filed February 15, 1965)

SUPPLEMENTAL OPINION AND ORDER

By Decision No. 69455 entered today in Case No. 5432, Petition for Modification No. 371, et al., the Commission found that revised rules should be established in Minimum Rate Tariff No. 2 and Minimum Rate Tariff No. 14-A governing the computation of constructive mileages for split pickup and split delivery shipments. That decision also found that, in order to avoid duplication of tariff distribution, Minimum Rate Tariff No. 14-A should be amended by separate order.

IT IS ORDERED that:

1. Minimum Rate Tariff No. 14-A (Appendix A to Decision No. 67397, as amended) is further amended by incorporating therein, to become effective September 4, 1965, Third Revised Page 2, Second Revised Page 10, Original Page 10-A, Second Revised Page 11, and Original Page 11-A, attached hereto and by this reference made a part hereof.
2. Tariff publications required to be made by common carriers as a result of the order herein may be made effective not earlier than the tenth day after the effective date of this order on not less than ten days' notice to the Commission and to the public and such tariff publications shall be made effective not later than September 4, 1965; and the tariff publications which are authorized but not required to be made by common carriers as a result of the order herein may be made effective not earlier than the tenth day

after the effective date of this order, and may be made effective on not less than ten days' notice to the Commission and to the public if filed not later than sixty days after the effective date of the minimum rate tariff pages incorporated in this order.

3. Common carriers, in establishing and maintaining the rates authorized hereinabove, are hereby authorized to depart from the provisions of Section 460 of the Public Utilities Code to the extent necessary to adjust long- and short-haul departures now maintained under outstanding authorizations; such outstanding authorizations are hereby modified only to the extent necessary to comply with this order; and schedules containing the rates published under this authority shall make reference to the prior orders authorizing long- and short-haul departures and to this order.

4. In all other respects said Decision No. 67397, as amended, shall remain in full force and effect.

The effective date of this order shall be twenty days after the date hereof.

Dated at San Francisco, California, this 27th day of JULY, 1965.

SECTION NO. 1 - RULES AND REGULATIONS OF GENERAL APPLICATION (Continued)	Item No.
<p>SPLIT PICKUP SHIPMENT (Items Nos. 150 and 151)</p>	
<p>1. (a) A split pickup shipment is a shipment consisting of two or more component parts, transported under one shipping document for one debtor, picked up at more than one point of origin, and delivered to one consignee at one point of destination.</p> <p>(b) All parts of a split pickup shipment shall be picked up within a period of two calendar days.</p> <p>2. (a) Subject to the alternative provided in subparagraph 2(b) of this item, the rate for the transportation of a split pickup shipment shall be determined by the distance to point of destination from that point of origin which produces the shortest distance via the other point or points of origin. *(See Exception.)</p> <p>*EXCEPTION.--In the event that a shipment has component parts both within and without a mileage territory, the shortest distance shall be computed subject to the following provisions:</p> <p>(a) Between a point within a metropolitan zone and a point not within the same metropolitan zone group but within the Related Mileage Territory, use for constructive mileage determination for the point within the metropolitan zone, the mileage basing point for the applicable metropolitan zone group.</p> <p>(b) Between two or more metropolitan zones within the same metropolitan zone group, use for constructive mileage determination the mileage basing points for the individual metropolitan zones.</p> <p>(b) In determining the charge for a split pickup shipment, component parts may be rated as separate shipments from point or points of origin of such component parts to any point on the split pickup route provided that the written instructions furnished to the carrier under paragraph 4 of this item show the following information:</p> <p>(1) The component parts to be treated as separate shipments; and</p> <p>(2) The points between which the separate shipment rates are to be applied.</p>	<p>(1) 150</p>

(c) Territorial rates shall be applied only when all points of origin are within the same territory.

3. In addition to the charge for transportation, the additional charges provided in Item No. 170 shall be assessed on each component part of the split pickup shipment.
4. At the time of or prior to the first pickup, the carrier shall be furnished with written shipping instructions showing the name of each consignor, the points of origin and the kind and quantity of property in each component part. Preparation by the debtor of the required single split pickup document referred to in paragraph 5 of this item, for execution by the debtor and carrier at the time of or prior to the first pickup, will constitute compliance with this paragraph.

<p style="text-align: center;">SPLIT PICKUP SHIPMENT (Concluded) (Items Nos. 150 and 151)</p> <p>5. At the time of or prior to the first pickup, the carrier shall issue to the debtor a single split pickup document for the entire shipment which shall show the following information:</p> <ul style="list-style-type: none"> (a) The name of each consignor and name of the consignee; (b) Points of origin and point of destination; (c) Date of pickup; (d) The kind and quantity of property in the entire shipment. <p>6. In addition to the single split pickup document, a shipping document shall be issued by the carrier for each component part of the split pickup shipment, including the first pickup, which shall give reference to the single split pickup document covering the entire shipment, by showing its date and number (if assigned a number), the name of the consignor, and such other information as may be necessary to clearly identify the single split pickup document.</p> <p>7. If split delivery is performed on a split pickup shipment or a component part thereof, or if written information does not conform with the requirements of paragraph 4 hereof, or if all of the component parts are not picked up by the carrier within a period of two calendar days, each component part of the split pickup shipment shall be rated as a separate shipment under other provisions of this tariff, except that those component parts which do conform with the requirements of this item shall constitute a separate split pickup shipment or shipments.</p>	<p>ø(1) 151</p>

SECTION NO. 1 - RULES AND REGULATIONS OF GENERAL APPLICATION (Continued)	Item No.
SPLIT DELIVERY SHIPMENT (Items Nos. 160 and 161)	
1. (a) A split delivery shipment is a shipment consisting of two or more parts, transported under one shipping document for one debtor, picked up from one consignor at one point of origin and delivered to one or more consignees at one or more points of destination. (b) Except as provided in Items Nos. 140 and 141, Shipments Transported in Multiple Lots, all parts of a split delivery shipment shall be picked up within a period of two calendar days. (c) Charges for a split delivery shipment shall be prepaid when there is more than one consignee.	
2. (a) Subject to the alternative provided in subparagraph 2(b) of this item, the rate for the transportation of a split delivery shipment shall be determined by the distance from point of origin to that point of destination which produces the shortest distance via the other point or points of destination. *(See Exception)	
*EXCEPTION.--In the event that a shipment has component parts both within and without a mileage territory, the shortest distance shall be computed subject to the following provisions:	(1) 160
(a) Between a point within a metropolitan zone and a point not within the same metropolitan zone group but within the Related Mileage Territory, use for constructive mileage determination for the point within the metropolitan zone, the mileage basing point for the applicable metropolitan zone group.	
(b) Between two or more metropolitan zones within the same metropolitan zone group, use for constructive mileage determination the mileage basing points for the individual metropolitan zones.	
(b) In determining the charge for a split delivery shipment, component parts may be rated as separate shipments from any point or points on the split delivery route to point or points of destination of such component parts providing that the written instructions furnished to the carrier under paragraph 4 of this item show the following information.	
(1) The component parts to be treated as separate shipments; and	
(2) The points between which the separate shipment rates are to be applied.	

Territorial rates shall be applied only when all points of destination are within the same territory.
