SUPPLEMENTAL OPINION AND ORDER

By Decision No. 69651 entered today in Case No. 5432, Petition for Modification, No. 371, et al., the Commission found that revised rules should be established in Minimum Rate Tariff No. 2 and Minimum Rate Tariff No. 8 governing the computation of constructive mileages for split pickup and split delivery shipments. That decision also found that, in order to avoid duplication of tariff distribution, Minimum Rate Tariff No. 8 should be amended by separate order.

2. Tariff publications required to be made by common carriers as a result of the order herein may be made effective not earlier than the tenth day after the effective date of this order on not less than ten days' notice to the Commission and to the public and

such tariff publications shall be made effective not later than October 9, 1965; and the tariff publications which are authorized but not required to be made by common carriers as a result of the order herein may be made effective not earlier than the tenth day after the effective date of this order, and may be made effective on not less than ten days' notice to the Commission and to the public if filed not later than sixty days after the effective date of the minimum rate tariff pages incorporated in this order.

3. Common carriers, in establishing and maintaining the rates authorized hereinabove, are hereby authorized to depart from the provisions of Section 460 of the Public Utilities Code to the extent necessary to adjust long and short-haul departures now maintained under outstanding authorizations; such outstanding authorizations are hereby modified only to the extent necessary to comply with this order; and schedules containing the rates published under this authority shall make reference to the prior orders authorizing long- and short-haul departures and to this order.

4. In all other respects Decision No. 33977, as amended, shall remain in full force and effect.

The effective date of this order shall be the date hereof.
