increase rates for water service. )	

ORDER MODIFYING DECISION NO. 64575

By Decision No. 64575 dated November 27, 1962, in the above matter, applicant was granted increased water rates and was ordered to make certain improvements. Ordering paragraph No. 6 provided that:

"6. Before July 15, 1963, applicant shall have replaced with not less than 4-inch pipe the existing 2-inch main between Trout Street and Silver Street at the rear of lots 276 through 284 and on Silver Street west of the 2-inch main on Sacramento Avenue and shall have notified the Commission, in writing, of the completion of the installation."

By letter dated June 15, 1965, applicant states that after investigating several locations for this pipeline she found it impossible to obtain the necessary easements.

A staff engineer investigated the alternative improvements which applicant has made to eliminate the need for this 4-inch pipeline. He determined that the removal of several restrictions in valves and pipelines has resulted in improved service and that the replacement of the 2-inch main is not now necessary.

The Commission finds that applicant should be relieved of the requirements of said ordering paragraph; therefore,

IT IS ORDERED that Decision No. 64575, dated November 27, 1962, in Application No. 44346, is modified by deleting ordering

paragraph 6 on page 7 thereof, and that in all other respects the provisions of said Decision No. 64575 shall remain in full force and effect.

The effective date of this decision is the date hereof.

Dated at San Francisco, California, this 13<sup>th</sup>  
OCTOBER  
day of \_\_\_\_\_, 1965.
