# Decision No. 70212

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Investigation into) the rates, rules, regulations, charges,) allowances and practices of all common ) carriers, highway carriers and city ) carriers relating to the transportation) of uncrated new furniture (commodities ) for which rates are provided in Minimum) Rate Tariff No. 11-A).

Case No. 5603 Petition for Modification No. 24 (Filed September 20, 1965)

- Arlo D. Poe, J. C. Kaspar and H. F. Kollmyer, for California Trucking Association; petitioner.
- E. L. Cunningham, for North American Van Lines, Inc.; John V. Driskell, for Driskell Trucking, Inc.; and Sam O. Sciortino, for Lads Furniture Freight, Inc.; respondents.
- <u>R. C. Fels</u>, for Furniture Manufacturers Association of California; <u>Robert R. Schenig</u> and <u>A. Stanley</u> <u>Hayes</u>, for Sears Roebuck & Co.; and <u>Don B. Shield</u>, for Highway Carriers Association; interested parties.

Geo. L. Hunt and J. M. Jenkins, for the Commission staff.

## <u>O P I N I O N</u>

This matter was heard and submitted October 25, 1965 before Examiner Thompson at Los Angeles. Copies of the petition and notice of hearing were served in accordance with the Commission's procedural rules. There are no protests.

California Trucking Association seeks an order of the Commission increasing the minimum rates prescribed in Minimum Rate Tariff No. 11-A for the transportation of uncrated new furniture. The proposed increases are 11 percent for shipments having origin in San Francisco Bay Counties Territory (Column B Rates) and 3-1/2 percent for shipments having origin elsewhere in California (Column A Rates).

-1-

C: 5603, Pet. 24,

EP

The rates and charges contained in Minimum Rate Tariff No. 11-A were last revised and adjusted generally on November 1, 1964, by Decision No. 67938, dated September 30, 1964. According to that decision, at that time California Trucking Association was in the process of developing data for new cost and rate studies of the transportation of uncrated new furniture. It was stated therein that the transportation conditions reflected in the cost study prepared by the Commission staff in 1949, which was the basis for the structure of rates in Minimum Rate Tariff No. 11-A, had so changed that use of said study to measure the impact of increases in operating costs would be meaningless. Petitioner therein, which was California Trucking Association, presented financial data of four carriers whose operations consisted of 85 percent or more of transportation of property subject to the Columm A rates in Minimum Rate Tariff No. 11-A. In said Decision No. 67938 the Commission found

> "Based upon the carriers' present revenue needs and the fact that they will be faced with further increases in wage costs on November 1, 1964, it appears, and we so find, that the present level of the Column A rates in Minimum Rate Tariff No. 11-A is insufficient."

The Commission by said decision increased the Column A rates in Items Nos. 60 and 400 by amounts ranging from 4.8 to 8.0 percent, averaging 7.8 percent; and increased the charges in Items Nos. 90 and 100 by 10 percent. Column B rates were not increased as the Commission found that no showing was made with respect to the results of carrier operations under the Column B rates.

The assistant director of petitioner's division of research testified that California Trucking Association has suspended the preparation of cost and rates studies of the transportation of uncrated new furniture because of the possibility in the immediate future of there being substantial changes in descriptions and ratings of furniture articles in the National Motor Freight Classification. The

-2-

National Classification Board has before it in its Docket No. 120 a proposal which, if adopted, will result in a radical change in ratings on new furniture. The assistant director stated that because Minimum Rate Tariff No. 11-A is governed by the National Motor Freight Classification, the substantial changes proposed in said Docket No. 120 would have an effect upon the minimum rates. The tabulation and analysis of data to conform with the present minimum rate structure would be wasted if the proposal in Docket No. 120 is adopted by the National Classification Board and approved by the Commission. He said that petitioner does not support the Docket No. 120 proposal but if it is adopted and approved the cost and rate studies would have to be governed thereby.

C. 5603, Pet. 24

EP

The assistant director stated that the carriers have incurred increases in operating expenses since November 1, 1964, which have had an adverse effect upon their earnings. The principal increase in expense has been the cost of labor. Exhibit 2 has a comparison of the November 1, 1965 labor cost for carriers employing members of Local 196, Brotherhood of Teamsters (Los Angeles) with the November 1, 1964 labor cost. It shows increases ranging from 5.38 percent to 5.99 percent. The exhibit also compares the November 1, 1965 labor cost of carriers employing union labor in the San Francisco Bay area with the cost on November 1, 1963. The increase in cost is 23.73 percent.

Petitioner estimated that labor costs comprise 64.36 percent of the total expenses of carriers operating in southern California, and 64.79 percent of the total expenses of carriers operating in the San Francisco Bay area. Those ratios were used in petitioner's estimates presented in the proceedings culminating in Decision No. 67938. It has developed the increases in rates proposed herein by applying those ratios to the increases in labor costs referred to above.

-3-

C. 5603, Pet. 24

EP

Exhibit 3 contains profit and loss statements for the periods of the year ended December 31, 1964 and the six months ended July 30, 1965 of three carriers in southern California and two carriers in the San Francisco Bay area. The three southern carriers were included in the four whose profit and loss statements were introduced in the prior proceeding which led to Decision No. 67938. The following is a comparison of the operating ratios of the three southern carriers for the year 1964 with those for the first half of 1965:

		Southern	<u>Carriers</u>	105
	1	2	3	Total
Year 1964	96.1%	105.0%	92.0%	96.6%
lst Half 1965	96.8%	105.2%	91.6%	97.0%

On November 1, 1964 there became effective increases in labor costs and increases in the Column A rates. In the prior proceeding petitioner used the same method as used here to determine the impact of the increases in labor costs upon total cost. The foregoing comparison of operating ratios for the two periods shows that the rate increases which became effective November 1, 1964 balanced the increases in labor costs that became effective that date. That fact supports the contention of petitioner that increases of 3-1/2 percent in the Column A rates are necessary to offset the increases in labor costs incurred by the southern carriers' service November 1, 1964.

In prior proceedings in Case No. 5603, the Commission has found that Safe Transportation Company is the predominant carrier engaged in transporting shipments under Column B rates. It has held that the operating results of this carrier provide a reliable test of the reasonableness of the Column B rates. Exhibit 2, herein, contains the profit and loss statements of Safe Transportation

-4-

EP

Company as well as those of another carrier located in the San Francisco Eay area. The assistant director testified that he had included the statements of that other carrier because he was informed that it has transported shipments subject to Minimum Rate Tariff No. 11-A. He did not know the nature of this carrier's operations. He said that he was informed that the operations of this carrier are of a special type but that he did not know anything further concerning that carrier. He said that it is his information and belief that Safe Transportation Company is still the predominant carrier engaged in transporting uncrated new furniture from origins in the San Francisco Bay area. He said that he included the statements of the other carrier because it is the policy of petitioner to include all data that is available and not to be selective. Under the circumstances the operating statements of this other carrier are of doubtful probative value on the issues in this proceeding.

The operating statements of Safe Transportation Company show that for the year 1964 it had an operating ratio of 101.7 percent and for the first half of 1965 its operating ratio was 107.5 percent. The Column B rates were not increased on November 1, 1964 as were the Column A rates. The above comparison supports the method used by petitioner to determine the impact of the increases in labor costs and supports its contention that an increase of 11 percent in the Column B rates is necessary to offset the increases in labor costs incurred by the carriers since those rates were last adjusted.

We find that:

1. The increases in rates and charges proposed by petitioner, and provided for in the order which follows, have been shown to be justified and that the resulting increased rates and charges, are, and

-5-

C. 5603, Pet. 24

EP

for the future will be, the just, reasonable and nondiscriminatory minimum rates and charges for the transportation services to which they apply.

2. To the extent that the provisions of Minimum Rate Tariff No. 11-A heretofore have been found to constitute minimum rates, rules and regulations for common carriers as defined in the Public Utilities Act, said provisions, as hereinafter adjusted, are, and for the future will be, the minimum rates, rules and regulations to be charged and applied by said common carriers.

3. To the extent that the existing rates and charges of said common carriers for the transportation of uncrated new furniture are less than the rates and charges found herein to be reasonable minimum rates and charges, said existing rates and charges are, and for the future will be, unreasonable, insufficient and not justified by transportation conditions.

4. We conclude that Minimum Rate Tariff No. 11-A should be amended to provide for the increased rates found herein to be the lawful minimum rates and that common carriers subject to the provisions of Decision No. 50114, as amended, should be required to adjust their rates accordingly.

## <u>O R D E R</u>

#### IT IS ORDERED that:

1. Minimum Rate Tariff No. 11-A (Appendix A of Decision No. 50114, as amended) is further amended by incorporating therein, to become effective February 19, 1966, the revised pages attached hereto and listed in Appendix A also attached hereto, which revised pages and appendix by this reference are made a part hereof. C, 5603, Pet. 24

2. Common carriers as defined in the Public Utilities Act, to the extent that they are subject to the requirements of Decision No. 50114, as amended, are directed to establish in their tariffs the increases necessary to conform with the further adjustments herein of that decision.

3. Tariff publications required to be made by common carriers as a result of the order herein may be made effective not earlier than the tenth day after the effective date of this order on not less than ten days' notice to the Commission and to the public and shall be made effective not later than February 19, 1966.

4. Common carriers, in establishing and maintaining the rates authorized hereinabove, are hereby authorized to depart from the provisions of Section 460 of the Public Utilities Code to the extent necessary to adjust long- and short-haul departures now maintained under outstanding authorizations; such outstanding authorizations are hereby modified only to the extent necessary to comply with this order; and schedules containing the rates published under this authority shall make reference to the prior orders authorizing longand short-haul departures and to this order.

5. In all other respects said Decision No. 50114, as amended, shall remain in full force and effect.

The effective date of this order shall be twenty days after the date hereof.

\_, California, this 1/th San Francisco Dated at JANUHIN .. , 1966. day of

esident

SECTION NO. 1 - RULES AND REGULATIONS (Continued)	Item No.
APPLICATION OF RATES	
Rates provided in this tariff are for the transportation of shipments from point of origin to point of destination, and include loading into and unloading from carrier's unit of equipment, subject to Notes 1 and 2.	
NOTE 1. When the point of origin is other than a depot, an additional rate as provided below shall be added to the rates set forth in Section 3. The sum of such rates shall be the rate applicable for a single shipment from point of origin to point of destination. <u>Rates in Cents Per 100 Pounds</u>	
Minimum Weight         OColumn A(1)         OColumn B(2)           Any Quantity         117         117           500 Pounds         100         104           2,000 Pounds         95         101           4,000 Pounds         71         68           6,000 Pounds         (3)         (3)	
(1) Column A rates apply to shipments not subject to Column B rates.	\$60 \$
(2) Column B rates apply only to shipments having point of origin in one of the following counties: San Francisco, San Mateo, Santa Cruz, Santa Clara, San Benito, Monterey, Alameda, Contra Costa, Marin, Sonoma, Solano and Napa.	
(3) No additional rate.	
NOTE 2. The rates provided in Note 1 shall be added to the rates set forth in Section 3 in connection with shipments transported for persons, companies or corporations upon whose premises depots from which the transportation is performed are located. The sum of such rates shall be the rate applicable for a single shipment from point of origin to point of destination.	
ACCESSORIAL SERVICES	
When carrier performs any accessorial or incidental service which is not authorized to be performed under rates named in this tariff, and for which a charge is not otherwise provided, additional charges shall be assessed as provided in Item No. 90. The charge therein pro- vided for unit of equipment shall apply whenever the accessorial or incidental service requires its use, or whenever the unit of equipment is inactivated by reason of its driver or helper being engaged in such service.	70
DELAYS TO EQUIPMENT	
When consignor or consignee is responsible for delay to carrier's equipment at or in vicinity of either point of loading or point of un- loading in excess of 30 minutes (exclusive of time actually involved in loading or unloading) additional charges for delay time in excess of 30 minutes shall be assessed as provided in Item No. 90.	80

## CHARGES FOR ACCESSORIAL SERVICES OR DELAYS

For accessorial services or delays under the conditions specified in Items Nos. 70 and 80, charges shall be assessed for each period or fraction thereof, as follows:

	<u>Charges</u>	in Cents		\$90
	For First 30 Minutes	For Each Additional 15 Minutes

SECTION NO. 1 - RULES AND REGULATIONS (Continued)	Itom No.
MINIMUM CHARGE	
The minimum charge per shipment shall be the charge for 100 pounds at the applicable rates but not less than:	<b>.</b> .
1. \$335 cents per shipment when the constructive dis- tance from point of origin to destination does not exceed 150 miles.	ø100
2. \$390 cents per shipment when the constructive dis- tance from point of origin to destination exceeds 150 miles.	
	\$
SHIPMENTS TRANSPORTED BY TWO OR MORE CARRIERS	
When shipments in continuous through movement are transported by two or more carriers, the rates (including minimum charges) provided herein from point of origin to point of destination shall be the minimum rates for the com- bined transportation.	110
SHIPMENTS TO BE RATED SEPARATELY	
Each shipment shall be rated separately. Shipments shall not be consolidated or combined by the carrier.	120
ALTERNATIVE APPLICATION OF COMMON CARRIER RATES	
Common carrier rates may be applied in lieu of the rates provided in this tariff, when such common carrier rates produce a lower aggregate charge for the same transportation and for the same accessorial services, than results from the application of the rates herein provided. (See Note) NOTEIn applying the provisions of this item, a rate no lower than the common carrier rate and a weight no lower than the actual weight or published minimum weight (whichever is the higher) applicable in connection with the common carrier rate shall be used.	130
	_ جوری کے

#### ACCESSORIAL CHARGES NOT TO BE OFFSET BY TRANSPORTATION CHARGES

Accessorial charges set forth in this tariff for accessorial services not included in the rate for actual transportation shall be assessed and collected when such services are performed, regardless of the level of the transportation rate assessed. Such accessorial charges may not be waived on the basis that a higher-than-minimum transportation rate serves as an offset.
