Application No. 48143
(Filed December 22, 1965)

OPINION AND ORDER

Southern California Truck Leasing, Inc., a corporation, holds highway contract carrier and city carrier permits. By Decision No. 68694, dated March 2, 1965, in Application No. 47178, it was authorized to transport certain property for Eastman Kodak Company at rates and charges lower than the minimum rates and charges named in Minimum Rate Tariffs Nos. 2 and 15. The current authority is scheduled to expire with March 5, 1966. By this application, authority is sought to continue to deviate from the established minimum rates and charges set forth in these tariffs for a further one-year period.

Applicant alleges that, while there have been some increases in cost of operations, such increases have been offset by an increased efficiency in its operations and, in part, by increased volume of business. Applicant further alleges that it does not anticipate any increases in the cost of operations during

the next twelve-month period which would necessitate any increase in the rates and charges currently being assessed. Applicant avers that it has continued to operate at a satisfactory operating ratio and with adequate profit and that the efficiency of its operations has been made possible by the cooperation of Eastman Kodak Company.

Revenue and expense data furnished by applicant indicate that the transportation involved has been profitable and reasonably may be expected to be profitable in the ensuing year.

The certificate of service shows that a copy of the application was mailed to California Trucking Association on December 22, 1965. The application was listed on the Commission's Daily Calendar of December 24, 1965. No objection to the granting of this application has been received.

In the circumstances, it appears, and the Commission finds, that applicant's proposal is reasonable and consistent with the public interest. A public hearing is not necessary. The Commission concludes that the application should be granted.

In view of the impending expiration date of the current authority, the order which follows will be made effective March 5, 1966.

IT IS ORDERED that:

1. Southern California Truck Leasing, Inc. is hereby authorized to transport property for Eastman Kodak Company at rates and charges less than the minimum rates and charges named in Minimum Rate Tariffs Nos. 2 and 15, but not less than those set forth in, and subject to the provisions shown in, Appendix A attached hereto and by this reference made a part hereof.

2. The authority herein granted shall, on and after March 5, 1966, supersede the authority granted by Decision No. 68694 and shall expire with March 5, 1967.

This order shall become effective March 5, 1966.

Dated at San Francisco, California, this 15th day of February, 1966.
