

ORIGINALDecision No. 70759

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the matter of the Investigation into the rates, rules, regulations, charges, allowances and practices of all common carriers, highway carriers and city carriers relating to the transportation of sand, rock, gravel and related items (commodities for which rates are provided in Minimum Rate Tariff Nos. 7 and 17).

Case No. 5437

Petition No. 115

O P I N I O N

Petitioner Associated Independent Owner-Operator, Inc. seeks increases of about 5 percent in the rates in Minimum Rate Tariff No. 17 for the transportation of rock, sand and

gravel from designated production areas to defined delivery zones in southern California. Petitioner alleges that rate increases as sought are necessary to compensate for increases in operating costs which for-hire dump truck carriers have experienced since the rates in Minimum Rate Tariff No. 17 were prescribed.

Public hearings on the petition were held before Examiner Abernathy at Los Angeles on January 31, February 10 and February 11, 1966.

Petitioner presented evidence to the effect that under prevailing wage contracts the wages of dump truck drivers are 20 cents an hour more than the wages which are reflected in the rates in Minimum Rate Tariff No. 17. Also, there have been increases in costs related to the wage costs - costs of so-called fringe benefits, in payroll costs and in indirect expenses.

An engineer and a rate expert of the Commission staff submitted and explained an exhibit to show (a) the carriers' present costs of service under the increased wage rates and related cost increases, and (b) the resultant rates if the rates in Minimum Rate Tariff No. 17 were adjusted to include compensation for the increased wages and other cost increases.¹

The California Dump Truck Owners Association, the California Trucking Association and the Southern California Rock Products Association supported the petition and urged that action be taken as promptly as possible. However, the Southern California Rock Products Association also urged that the rate

¹ Through apparent inadvertence the staff exhibit omitted a showing of the rates which would apply from Orange County production areas to San Diego County delivery zones.

increases to be established be limited to those for which specific justification had been shown.

Upon consideration of the record, we find that:

1. Since the development of the data upon which the rates in Minimum Rate Tariff No. 17 were calculated, the costs of providing the transportation subject to said tariff have increased;
2. In relation to said increased costs the rates in said tariff are unduly low and insufficient;
3. An allowance for indirect expenses in the Commission engineer's cost development is not consistent with the basis of costs heretofore approved for development of rates in Minimum Rate Tariff No. 17. However, the differences resulting from the staff's treatment of indirect expenses in this proceeding are insignificant. The showing of costs which was presented by the staff in Exhibit No. 115-6 will be adopted as reasonable for rate adjustments in Minimum Rate Tariff No. 17.
4. The rates which were proposed by the Commission rate witness (and set forth in Exhibit No. 115-6) are and will be reasonable minimum rates for the transportation services to which they would apply.
5. The rates in Minimum Rate Tariff No. 17 which apply from Orange County production areas to San Diego County delivery zones should be increased as follows:
 - (a) Subtract from said rates which apply at present the current rates from corresponding production areas to Orange County delivery zone No. 30118.
 - (b) Increase the resulting differences in rates by 5 per cent.
 - (c) Increase the rates which are used as subtrahends in paragraph (a), above, to correspond to the rates in Exhibit No. 115-6 which apply from the same production areas to Orange County delivery zone No. 30118.

- (d) Add to the increased rate differentials developed in paragraph (b) the corresponding rates developed in paragraph (c). The resulting totals are rates which are and will be reasonable minimum rates from the Orange County production areas to the San Diego County delivery zones involved.

We conclude that Minimum Rate Tariff No. 17 should be amended to establish therein the rates found reasonable in numbered paragraphs 4 and 5, above.
