Case No. 5432  
Petition for Modification  
No. 422  
(Filed May 16, 1966)

OPINION AND ORDER

Yreka Western Railroad Company, a corporation, operates as a highway common carrier of general commodities between Montague, Yreka and Etna and intermediate points and between Yreka and Orleans and intermediate points.<sup>1</sup> By Decision No. 69337 dated June 29, 1965, in Case No. 5432 (Petition for Modification No. 381), it was authorized to publish less-than-minimum rates on lumber and timbers of 12 cents per 100 pounds from Indian Creek to Yreka and 11½ cents per 100 pounds from Happy Camp to Yreka and Montague. These rates are subject to a minimum weight of 50,000 pounds for each unit of equipment and are published to expire with July 13, 1966. By this petition, it seeks an extension of the current authority for a further one-year period.

As indicated in the original decision which initially granted applicant such authority,<sup>2</sup> the shippers involved are aware of the cost of handling this traffic and of its desirable characteristics and have advised petitioner that, unless the proposed rates

<sup>1</sup> It also operates as a common carrier by railroad between Yreka and Montague.

are established, they will acquire their own equipment and haul their own lumber. Petitioner alleges that the circumstances which justified granting of the current authority continue to exist and require that the current rates be continued in effect for another year.

Revenue and expense data submitted by petitioner indicate that the transportation involved has been profitable and reasonably may be expected to be profitable in the ensuing year.

The certificate of service shows that a copy of the petition was mailed to California Trucking Association on May 13, 1966. The petition was listed on the Commission's Daily Calendar of May 17, 1966. No objection to the granting of the petition has been received.

In the circumstances, it appears, and the Commission finds, that the proposed rates are reasonable and justified by transportation conditions. A public hearing is not necessary. The Commission concludes that the petition should be granted. In view of the impending expiration date of the current authority, the order which follows will be made effective on July 8, 1966.

IT IS ORDERED that:

1. Yreka Western Railroad Company, a corporation, is hereby authorized to publish and file, to expire with July 13, 1967, rates and other provisions for the transportation of lumber and timbers as set forth in Appendix A attached hereto and by this reference made a part hereof.
