Case No. 5437
(Petition for Modification
No. 133)
(Filed June 17, 1966)

OPINION AND ORDER

By this petition, Southern California Rock Products Association seeks modification of Minimum Rate Tariff 17 by the establishment of additional zone rates for the transportation of rock, sand and aggregates from Production Area 30-G in Orange County to various Los Angeles, Riverside, San Bernardino and San Diego County delivery zones.

According to the petition the Star Rock plant of Rodeffer Industries, Inc., (Rodeffer) is located at 24000 Santa Ana Canyon Road, Anaheim, in Orange County Production Area 30-G and zone rates are published in the above tariff from said production area to zones in Orange County and to zones in a limited portion of Los Angeles County. Petitioner avers that Rodeffer mines, markets and distributes widely a unique colored aggregate from its facility in Production Area 30-G and that this aggregate has been specified by architects and specification writers in the construction of exposed walls, patios and other surfaces in the various aforementioned counties.

Petitioner alleges that the material is transported by for-hire dump truck carriers, which utilize truck and transfer trailers and bottom dump hoppers. It is further alleged that the product involved requires no special handling and that the haul is the same as for other shipments of rock, sand and gravel. Petitioner states that its proposal is noncontroversial and asserts that much of the basic data necessary for providing the requested additional zone rates is already contained in the Minimum Rate Tariff 17 computer program.

Copies of the verified petition were mailed to Associated Owner-Operators, Inc., California Asphalt Plant Association, California Dump Truck Association and California Trucking Association on or about June 17, 1966. The petition was listed on the Commission's Daily Calendar of June 22, 1966. No objection to the granting of the petition has been received.

It is clear from the facts recited in this petition that the establishment of additional zone rates as proposed would do no more than provide rates of the same kind and character as those already available from established competing points of production in the same general area.

Information necessary to develop rates to certain zones in Riverside and San Bernardino Counties is not readily available and would require some time to develop. It does not appear appropriate to withhold the zone rates for which the necessary information is available pending these further developments.

In the circumstances, it appears, and the Commission finds, that the revisions established by the order herein are reasonable, and that the resulting minimum rates will be just, reasonable and nondiscriminatory minimum rates for the transportation of rock, sand

and gravel in dump trucks from Orange County Production Area 30-G to various Los Angeles, Riverside, San Bernardino and San Diego County delivery zones. A public hearing is not necessary. The Commission concludes that the petition should be granted to the extent indicated in the following order. This matter will be kept open for the purpose of establishing rates to the remaining zones until the necessary data are available.

IT IS ORDERED that:

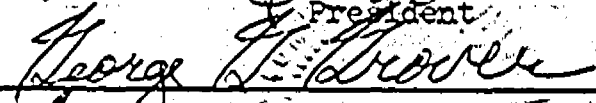

1. Minimum Rate Tariff 17 (Appendix "B" of Decision No. 69469, as amended) is hereby further amended by incorporating therein, to become effective September 24, 1966, the revised pages attached hereto and listed in Appendix A, also attached hereto and by this reference made a part hereof.

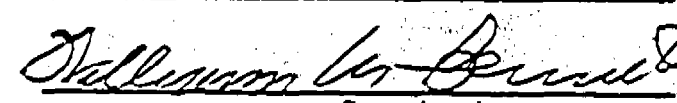

2. In all other respects Decision No. 69469, as amended, shall remain in full force and effect.

This order shall become effective twenty days after the date hereof.

Dated at San Francisco, California, this 16th day of August, 1966.
