

**ORIGINAL**Decision No. 71874

## BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Investigation  
 into the rates, rules, regulations,  
 charges, allowances and practices  
 of all common carriers, highway  
 carriers and city carriers relating  
 to the transportation of sand, rock,  
 gravel and related items (commodi-  
 ties for which rates are provided in  
 Minimum Rate Tariff No. 7).

Case No. 5437  
 (Order Setting Hearing  
 dated March 24, 1959,  
 and Petitions  
 Nos. 48, 65, 80 and 90)

H. F. Kollmyer, A. D. Poe and J. C. Kaspar,  
 for California Trucking Association;  
Harry C. Phelan and Knapp, Gill, Hibbert  
and Stevens, by Karl K. Roos, for  
 California Asphalt Pavement Association;  
 petitioners for rehearing of Decision  
 No. 70569 and interested parties.

Leonard F. Schempp, Gary Sorenson, William W.  
Harper, Harry Handley, Bruno F. Serrao,  
Keith L. Allen, Eddie R. Virgil, John  
Ilejay, F. M. Kidd, John G. Shipley,  
Dominic Sherman, George Ernest Sack,  
Robert E. Ilejay, George Sack, Jr.,  
Raymond B. Virgil, Trinidad Aranda, J. Luis  
Padilla, Gail Lee Davis, and Owen F. Kearns,  
 respondents.

E. O. Blackman and C. A. Freisen, for  
 California Dump Truck Owners Association;  
G. Ralph Grago, for Associated Independent  
 Owner-Operators, Inc.; D. E. Branch, for  
 Sully-Miller Contracting Company; James J.  
Raysor, for Industrial Asphalt, Inc.; and  
W. F. Webster, for Rodeffer Industries,  
 Inc., interested parties.

Norman Haley and R. A. Lubich, for the  
 Commission staff.

INTERIM OPINION FOLLOWING REHEARING

Pursuant to the captioned petitions and order setting  
 hearing, the Commission established Minimum Rate Tariff No. 17  
 (MRT 17), Decision No. 68543 (64 Cal. P.U.C. 30). Said tariff

contains production area-delivery zone rates for dump truck transportation of rock, sand and gravel in the heavily populated portions of the Los Angeles Basin Area.<sup>1</sup>

Subsequently, following extensive hearings and the filing of an examiner's proposed report, the Commission issued Decision No. 70569, dated April 12, 1966, which contained findings and conclusions which would form the basis for establishing, in MRT 17 production area-delivery zone, rates on asphaltic concrete and cold road oil mixture<sup>2</sup> and decomposed granite. Upon the publication of such rates, similar rates in Minimum Rate Tariff No. 7 (MRT 7) would be canceled. Petitions for rehearing of Decision No. 70569 were filed by California Trucking Association (CTA) and California Asphalt Pavement Association (CAPA). Rehearing was granted by order dated August 16, 1966.

Rehearing was held before Examiner Mallory on November 21 and 22, 1966, in Los Angeles and the matter was continued for receipt of additional evidence.

CTA and CAPA, in their petitions for rehearing, allege that the Commission erred in establishing rates based on labor costs and other factors not of record in the proceeding leading to Decision No. 70569. At the rehearing, the Commission staff introduced Exhibits A-87 and A-88 showing the cost factors and rate levels adopted in Decision No. 70569 and the data necessary to support said

---

1 Los Angeles, Orange, San Bernardino and Riverside Counties (sometimes referred to hereinafter as the "Core Area") and Ventura and Santa Barbara Counties.

2 Asphaltic concrete and cold road oil mixture are hereinafter sometimes referred to collectively as "asphalt".

costs and rate levels. Cross-examination involving these exhibits was completed by all interested parties. None of the parties disagreed with the results of these exhibits.

CAPA, in its petition for rehearing, also alleged that the Commission erred in the following respects:

1. The minimum rates for the Core Area which would be established pursuant to Decision No. 70569 are predicated upon costs for 3-axle dump truck equipment. There is a significant use of 5-axle equipment within said area. Costs per ton for 5-axle equipment are less than for 3-axle equipment. CAPA requests, alternatively, that zone rates in MRT 17 alternate with the hourly rates in MRT 7, or that the zone rates in MRT 17 apply to 3-axle equipment and that hourly rates in MRT 7 apply to 5-axle equipment.

2. Terminal end times established by Decision No. 70569 are arbitrary and unreasonable. CAPA urges that the lesser times set forth in exhibits presented by it be adopted.

3. There is no evidence in support of the establishment of charge for pulling or towing of paving machines. CAPA asks that no charge be established until costs for such service are made a part of the record.

4. Adoption of restrictive rules relating to written orders for carriers' services has no evidentiary support. CAPA requests that these rules be canceled.

The Commission staff, at the rehearing, introduced in evidence several additional exhibits. Exhibit A-89 contains a development of costs which are based on operations of a 3-axle end-dump truck for distances up to 14 miles, a blend of costs for

3- and 5-axle equipment for distances over 14 miles and less than 35 miles, and costs for a truck-and-transfer trailer (5-axle) equipment unit over 35 miles.

Said exhibit also contains the results of a study by the staff as to the use of 5-axle dump truck equipment in the Core Area. Exhibit A-90 contains pictures of 5-axle equipment in use at asphalt plants and at jobsites. It also contains an explanation of the conditions under which said vehicles were operated. Exhibit A-91 contains a runout of rates based on the cost data contained in Exhibit A-89. Cross-examination of the staff witnesses on Exhibits A-89, A-90 and A-91 has not been completed.

On December 2, 1966, California Dump Truck Owners Association (CDTOA) filed a pleading entitled "Petition to Define and Limit the Issues and to Exclude Irrelevant Matters." CDTOA asks that the Commission exclude Exhibits A-89, A-90 and A-91 and the testimony relating thereto from the record; that the Commission define and limit the issues to be considered in the rehearing to those on which rehearing was requested; and that petitioners for rehearing be directed to proceed with their case.

Also related to the matter at hand are the following proceedings:

1. Petition No. 140, filed on October 10, 1966, by CAPA, and joined in by Associated Independent Owner-Operators, Inc. (A1001), seeking an interim increase of 10 percent in the asphalt zone and distance rates in MRT 7 pending conclusion of the instant proceeding.
2. Petition No. 141, filed on November 10, 1966, by CDTOA, seeking an interim increase of 25 percent in said MRT 7 rates,

pending conclusion of the instant proceeding. These petitions allege that there is an urgent need for an immediate adjustment in the minimum rates for the movement of asphalt in the geographic area embraced by MRT 17.

An interim order in the instant proceeding is necessary for the following reasons:

1. To act upon the "Petition to Define and Limit the Issues and to Exclude Irrelevant Matters" filed by CDTOA.

2. To determine, in face of the petitions for interim rate relief for the movement of asphalt, whether there is an urgent need to establish an interim increase in the existing MRT 7 zone rates or whether to establish new zone rates in MRT 17 based on the evidence in this proceeding.

The order granting rehearing of Decision No. 70569 is not limited in scope. Its purpose is to provide the parties an opportunity to adduce such additional evidence as the Commission deems necessary to determine the issues raised in the requests for rehearing. We find that the evidence introduced by the Commission staff, as set forth in Exhibits A-89, A-90 and A-91, is in the nature of additional evidence covering the issues raised by the parties seeking rehearing; that the order granting rehearing of Decision No. 70569 does not limit the nature or extent of the relevant, pertinent evidence which may be presented and that it is not limitative as to the parties who may adduce such evidence. The petition filed by CDTOA on December 2, 1966 will be denied.

We turn now to the question whether there is an urgent need for an immediate adjustment of rates for the movement of asphalt, as requested in Petitions Nos. 140 and 141 and, if so,

whether it would be preferable to adjust the existing zone rates in MRT 7 or establish asphalt zone rates in MRT 17. The principal shipper and carrier groups urge an immediate revision of the existing rate structure because it does not provide adequate revenues to carriers engaged in asphalt transportation.

Existing asphalt zone rates were last adjusted pursuant to Decision No. 59591, dated March 1, 1960, in Case No. 5437 (unreported). Since that date corresponding hourly rates applicable to the same transportation have been adjusted several times. The cost data initially introduced in this proceeding (Exhibit A-22) reflected labor costs as of January 1, 1962. Exhibit A-89 contains labor costs as of May 1, 1966. The increase in labor costs in that period is 37.0 percent. Testimony in the instant proceeding shows that the types and payload capacities of vehicles used in the transportation of asphalt have changed materially since 1960. Also the basic highway routes and related time traverses used in connection with the existing zone rates are outdated, while such data of record in this proceeding is current. It is preferable to adjust rates on the most current data available; therefore, the record in this proceeding should be used for any rate adjustment in preference to adjusting, on a temporary basis, the outmoded rates in MRT 7.

Can the record in this proceeding, although the rehearing has not been completed, serve as a basis for an interim rate adjustment without prejudicing the rights of the parties represented in the rehearing proceeding? We believe that it can. The contention that in Decision No. 70569 the Commission considered facts outside the record has been disposed of by the presentation of Exhibits A-87

and A-88. An interim order may be promulgated without making a final determination herein of the remaining issues raised on rehearing.

Of such issues, that having the greatest importance is the contention of CAPA that rates based on costs for 3-axle vehicles are too high for 5-axle equipment. CAPA suggests, in the alternative, that zone rates alternate fully with hourly rates, or that hourly rates be made applicable to movements of asphalt in 5-axle equipment. The later alternative has merit as an interim basis for assessment of rates pending completion of the record on rehearing. The Commission staff proposes, in Exhibit A-91, that rates be based on a blend of costs for 3- and 5-axle equipment. The sole criterion in this proposal is length of haul. However, testimony also introduced by the staff in Exhibits A-89 and A-90 indicates that length of haul is but one factor which dictates the use of 5-axle versus 3-axle equipment. Other important considerations are space conditions at production and delivery points, availability of adequate scales, type of pavement being laid, types of unloading and spreading equipment available at destination, and other things. An additional important consideration is the increasing use of hopper-bottom equipment on larger street paving projects, for which there are no costs in this record.

The Commission finds as follows:

1. Existing dump truck minimum zone rates for the transportation of asphaltic concrete, cold road oil mixture and decomposed granite within the geographic area embraced by MRT 17 are below a reasonable level and should be adjusted.

2. It is preferable to adjust such rates, to the extent feasible, based on the more current cost data and other evidence in this record, rather than to adjust existing outmoded zone rates in MRT 7.

3. The cost evidence contained in the staff's Exhibit A-87 will be reasonable and adequate to serve as a basis for the establishment and adjustment in MRT 17 of production area-delivery zone rates on asphaltic concrete and cold road oil mixture in 2- and 3-axle dump truck equipment and for decomposed granite.

4. Said cost evidence should be supplemented with cost data for transportation of asphaltic concrete and cold road oil mixture in hopper-bottom tractor and trailer equipment, for use in connection with establishment of production area-delivery zone rates for equipment other than described in Finding 3 hereof.

5. The rates, rules and regulations set forth in Exhibit A-88, except as indicated below, will be the just, reasonable and non-discriminatory minimum rates for the transportation of asphaltic concrete, and cold road oil mixture in 2- and 3-axle dump truck equipment and for decomposed granite. The following provisions of Exhibit A-88 should not be established in this interim order.

- a. Item No. 190, Accessorial Services - Pulling and Towing Paving Machines;
- b. Item No. 500, Specific Rules and Regulations Governing the Transportation of Asphaltic Concrete, Including Incidental Services.

The rates set forth in Section 20 from production areas in Ventura County to delivery zones in Ventura and Santa Barbara Counties should be based upon operating costs in Exhibit A-87 for 3-axle dump truck equipment.

6. The minimum rates for the movement of asphaltic concrete and cold road oil mixture in 4- and 5-axle dump truck equipment (end-dump equipment consisting of truck and transfer trailer units, truck and pup-trailer units and tractor and semitrailer units; and hopper-bottom equipment consisting of tractor, semitrailer and full trailer units) within the geographical area embraced by MRT 17, pending receipt of additional evidence in this proceeding, should be the hourly rates set forth in MRT 7.

7. Further hearing in this proceeding should be held to receive evidence on the levels and types of rates which should be applicable to the movement of asphaltic concrete and cold road oil mixture in equipment larger than 3-axle dump trucks, and for receipt of evidence on other matters raised in the petitions for rehearing not covered by the findings herein.

The Commission concludes that Minimum Rate Tariff No. 17 should be amended by the order which follows; that for convenience in the distribution of tariff pages, Minimum Rate Tariff No. 7 should be amended by separate order; that separate orders should be issued disposing of Petitions Nos. 140 and 141, and that the petition filed by CDTOA on December 2, 1966 should be denied.

O R D E R

IT IS ORDERED that:

1. Minimum Rate Tariff No. 17 (Appendix B to Decision No. 69469) is hereby amended by incorporating therein to become effective February 25, 1967, the revised pages attached hereto and listed in Appendix A, also attached hereto, which pages and appendix are made a part hereof.

2. In all other respects said Decision No. 69469 shall remain in full force and effect.

3. The petition filed by California Dump Truck Owners Association on December 2, 1966 is denied.

The effective date of this order shall be twenty days after the date hereof.

Dated at San Francisco, California, this 17<sup>th</sup> day of JANUARY, 1967.

SECTION 1--RULES AND REGULATIONS (CONTINUED)	ITEM
<p>(1) DEFINITION OF TECHNICAL TERMS (Continued)            (Items 20, 21 and 22)</p> <p>DEBTOR means the person assuming responsibility for payment of transportation charges. It also includes an overlying carrier when he utilizes the services of an underlying carrier.</p> <p>*DECOMPOSED GRANITE is disintegrated granite which crumbles readily when removed from its normal geographic location.</p> <p>DRY MIXTURE OF SAND AND/OR GRAVEL AND/OR CRUSHED STONE (WITH OR WITHOUT CEMENT) IN BATCHES means a shipment of said mixture transported in dump truck equipment provided with one or more batch gates permitting the loading and unloading of a portion or portions of the shipment separately from the other portion or portions of the shipment.</p> <p>DUMP TRUCK EQUIPMENT means any motor vehicle (including component trailing equipment) as defined in the Highway Carriers' Act and City Carriers' Act, which discharges its load by gravity either (a) in conjunction with mechanical means that are an integral part of the vehicle, or (b) by opening all or a portion of the bottom, sides or end, or (c) by combination of (a) and (b). It does not include a motor vehicle engaged in the transportation of concrete mechanically mixed in transit.</p> <p>OVERLYING CARRIER (principal carrier) means a carrier which contracts with a shipper to provide transportation service for the latter, but which carrier in turn employs another carrier, known as the underlying carrier (independent-contractor subhauler), to perform that service. (See Note)</p> <p>NOTE.--The term "Overlying Carrier" also includes an underlying carrier which employs another carrier to perform transportation service.</p> <p>POINT OF DESTINATION means the precise location at which a shipment is tendered for physical delivery into the custody of the consignee or his agent. It includes all locations within 300 feet of the point at which physical delivery of said shipment is initiated.</p> <p>POINT OF ORIGIN means the precise location at which a shipment is physically delivered by the consignor or his agent into the custody of the carrier for transportation. All points within a single commercial producing plant shall be considered as one point of origin. A single commercial producing plant shall include only contiguous property which shall not be deemed separate if intersected by a public street or streets.</p> <p>(Continued in Item 22)</p>	<p></p> <p>§21</p>

SECTION 1 - RULES AND REGULATIONS (CONTINUED)	ITEM
<p style="text-align: center;">APPLICATION OF TARIFF - CARRIERS</p> <p>Rates provided in this tariff are minimum rates, established pursuant to the Highway Carriers' Act, and the City Carriers' Act. They apply for transportation of property by radial highway common carriers and highway contract carriers, as defined in said Highway Carriers' Act, and by carriers as defined in said City Carriers' Act, in bulk in dump truck equipment.</p>	40
<p style="text-align: center;">APPLICATION OF TARIFF - COMMODITIES</p> <p>Rates in this tariff *making specific reference to this item apply for the transportation of the following commodities:</p> <p>Rock, natural, crushed, chips, waste or dust (Subject to Notes 1 and 2),  Sand,  Gravel,  Cement, in dry mixtures with the above commodities, in batches (Subject to Note 3).</p> <p>NOTE 1.--The term "rock", as used herein, includes stone.  NOTE 2.--The term "rock", as used herein, does not include any rock or rocks, having a combined length and girth in excess of 65 inches per single rock.  NOTE 3.--Rates in this tariff apply for the transportation of cement only when the volume of the cement does not exceed one-third of the volume of the shipment.</p>	#60
<p style="text-align: center;">APPLICATION OF TARIFF - COMMODITIES</p> <p>Rates in this tariff making specific reference to this item apply for the transportation of the following commodities when transported in trucks without trailing equipment. (See Exception)</p> <p>Asphaltic concrete,  Cold road oil mixture,  Cold liquid asphalt in containers not exceeding 5 gallons capacity per container (Subject to Note 1).</p> <p>NOTE 1.--Cold liquid asphalt will be transported under the provisions of this tariff, at rates which apply for the transportation of asphaltic concrete, when tendered for transportation with, and as part of, a shipment of asphaltic concrete, and when the quantity so tendered does not exceed 15 gallons per shipment.</p> <p>EXCEPTION: For rates applicable to the transportation of these commodities when transported in trucks with trailing equipment or in tractor-and-trailer equipment, see Section No. 4 of Minimum Rate Tariff No. 7.</p>	*65

SECTION 1 - RULES AND REGULATIONS (CONTINUED)	ITEM
<p style="text-align: center;">APPLICATION OF TARIFF - COMMODITIES</p> <p>Rates in this tariff making specific reference to this item apply for the transportation of the following commodities:</p> <p>Decomposed Granite</p>	*70
<p style="text-align: center;">APPLICATION OF TARIFF - GENERAL</p> <p>Rates in this tariff do not apply to the transportation of:</p> <p>(a) Property of the United States or property transported under an agreement whereby the United States contracted for the carrier's service.</p> <p>(b) Disaster Supplies, i.e., those commodities which are allocated to provide relief during a state of extreme emergency or state of disaster; and those commodities which are transported for a civil defense or disaster organization established and functioning in accordance with the California Disaster Act to ultimate point of storage or use prior to or during a state of disaster or state of extreme emergency.</p>	80
<p style="text-align: center;">APPLICATION OF TARIFF - RATES</p> <p>Except as otherwise provided, the rates in this tariff are zone rates and area-to-point rates. The rates apply from all points of origin within the designated production areas to all points of destination within the designated delivery zones, and to specifically named delivery points.</p> <p>If any portion of a shipment is physically delivered into or beyond more than one delivery zone, the minimum rate for the entire shipment shall be that rate from point of origin to the highest rated point where physical delivery is made. (See Exception)</p> <p>EXCEPTION: When any portion of a shipment is delivered into more than one zone, and when no portion of such shipment is physically delivered beyond the boundaries of streets which are the boundaries between the zones involved, the minimum rate for the entire shipment shall be the lower or the lowest of the applicable rates between point of origin and the zones into which delivery is made.</p>	100
<p style="text-align: center;">APPLICATION OF TARIFF - RATES IN SECTION 2</p> <p>Rates to Delivery Points listed in Section 2 of this tariff shall be three (3¢) cents per ton less than the otherwise applicable rates to the zones provided within this tariff. Unless otherwise specifically provided within Section 2, there is no applicable Area-to-Point Rate to a Delivery Point if no Zone Rate is provided within this tariff.</p>	120

SECTION 1 - RULES AND REGULATIONS (Continued)	Item
<p style="text-align: center;">COMPUTATION OF CHARGES - RETURNED OR DIVERTED SHIPMENTS</p> <p>ØIf a shipment which has been transported to the point of destination shown on the Shipping Document specified on Original Pages 22.1 and 22.2 may not be delivered at said point of destination, and if, pursuant to instructions from the consignor, the carrier either returns the shipment to point of origin or transports the shipment to another point of destination, the following charges shall apply for the total transportation performed:</p> <p>(a) When the shipment is returned to point of origin, the charge shall be computed at the outbound rate plus 20 cents per ton.</p> <p>Ø(b) Applies when a shipment of commodity or commodities named in Item 60 is diverted to point of destination within same system of zones as that in which the original point of destination is located. The applicable charge shall be computed at the rate from point of origin to the original point of destination shown on the Shipping Document plus 5 cents per ton for each mile (or fraction thereof) traversed from original point of destination to the point of destination where physical delivery of the shipment is accomplished.</p> <p>Ø(c) Applies when a shipment of commodity or commodities named in Item 60 is diverted to point of destination outside of the system of zones in which the original point of destination is located. The applicable charge shall be computed at the rate from point of origin to the original point of destination shown on the shipping document, plus 5 cents per ton for each mile (or fraction thereof) from original point of destination via the shortest legal route to the point of departure from the system of zones, plus 10 cents per ton for each mile (or fraction thereof) via the shortest legal route from said point of departure to final point of destination.</p>	Ø240

\*(d) Applies when a shipment of commodity or commodities named in Items 65 and 70 is diverted to point of destination within same system of zones as that in which original point of destination is located. The applicable charge shall be computed at the rate from point of origin to the original point of destination shown on the Shipping Document plus 8 cents per ton for each mile (or fraction thereof) traversed from original point of destination to the point of destination where physical delivery of the shipment is accomplished.

\*(e) Applies when a shipment of commodity or commodities named in Items 65 and 70 is diverted to point of destination outside of the system of zones in which the original point of destination is located. The applicable charge shall be computed at the rate from point of origin to the original point of destination shown on the Shipping Document, plus 8 cents per ton for each mile (or fraction thereof) traversed from original point of destination to the point of departure from the system of zones, plus 13 cents per ton for each mile (or fraction thereof) traversed from said point of departure to final point of destination (subject to Note 1).

NOTE 1.--If a lower charge results from assessing, for the total distance traversed from point of origin via point of diversion to final point of destination, the Southern Territory distance rate in Minimum Rate Tariff No. 7 for said distance, said lower charge may be assessed in lieu of that accruing under the provisions of paragraph (c).

Correction 119

SECTION 1 - RULES AND REGULATIONS (Continued)	Item
<p style="text-align: center;"><b>COMPUTATION OF CHARGES FOR SHIPMENTS TO DELIVERY ZONES FOR WHICH SPECIFIC ZONE RATES ARE NOT PROVIDED</b></p> <p>When a shipment is transported from a production area to a delivery zone, both of which are located within a same system of delivery zones, and when a specific zone rate is not provided for the transportation performed, the applicable rate shall be calculated as follows:</p> <ol style="list-style-type: none"> <li>a. Determine the delivery zone (along route of movement) which is nearest to point of destination and to which a zone rate from the same production area is provided in the tariff.</li> <li>b. Add to the rate to said delivery zone from said production area an additional 5 cents per ton for each mile or fraction thereof traversed from point of departure from said delivery zone to point of destination. *(Subject to Note 1).</li> <li>*c. Add to the rate to said delivery zone from said production area a rate of 8 cents per ton for each mile or fraction thereof traversed from point of departure from said delivery zone to point of destination. (Subject to Note 2).</li> </ol> <p>*NOTE 1.--Applies in computation of rate for commodities named in Item 60.</p> <p>*NOTE 2.--Applies in computation of rate for commodities named in Items 65 and 70.</p>	<p>260</p>
<p style="text-align: center;"><b>COMPUTATION OF CHARGES FOR SHIPMENTS TO DESTINATIONS OUTSIDE OF A SYSTEM OF DELIVERY ZONES</b></p> <p style="text-align: center;">(For limitation on applicability of this item, see Note 1.)</p> <p>When a shipment is transported from a production area to a point of destination outside of a system of zones, the zone rates shall be used as a basis for computing charges as follows:</p> <p>Add to the zone rate from the same production area to the last delivery zone passed through on the route of movement a rate of 9 cents per ton for each mile or fraction thereof traversed from point of departure from the last delivery zone to point of destination.</p> <p>NOTE 1.--The provisions of this item do not apply:</p> <ol style="list-style-type: none"> <li>a. to shipments delivered to destinations 10 or more miles, by route of movement, from point of departure from system of delivery zones, or</li> </ol>	<p>270</p>

b. to shipments to destinations in unzoned areas in Riverside or San Bernardino Counties. Charges for the transportation of shipments specified in this Note shall be computed in accordance with the provisions of Minimum Rate Tariff No. 7.

#### COMPUTATION OF DISTANCES

Except as is otherwise provided, distances to be used in connection with distance rates in this tariff shall be the actual mileages traversed, including any detour to and from scales to obtain weight of shipment.

ø280

#### DEBRIS CLEANUP

When debris cleanup is performed by a carrier at the hourly rates in Minimum Rate Tariff No. 7, and when said service is performed at a job site as an incidental service to the carrier's transporting asphaltic concrete to said job site under the zone rates elsewhere provided herein, the minimum charge shall be that for one-half hour at the applicable hourly rate.

\*290

#### DEFINITION OF SYSTEM OF DELIVERY ZONES

The following delivery zones, in total, shall be deemed as comprising a single system of delivery zones:

All zones in Los Angeles County except zones numbered 19-800 to 19-948 inclusive; all zones in Orange County; all zones in Riverside County; all zones in San Bernardino County except zones numbered 36-500 to 36-510, inclusive; San Diego County Zones numbered 29 to 89, inclusive; all zones in Santa Barbara County, and all zones in Ventura County.
