Decision No. 72118

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application of
MALCO TRANSPORTATION COMPANY, a
corporation, for the abandonment of
presently held certificates of con-
venience and necessity to operate
as a highway common carrier and as
a petroleum irregular route carrier.)

Application No. 48762
Filed September 6, 1966

O P I N I O N

By authority of Decision No. 51100, dated February 15, 1955, in Application No. 36627, Malco acquired certificates as a highway common carrier and petroleum irregular route carrier. They were originally granted to L. P. Eeles by Decision No. 44557, in Application No. 29506, and Decision No. 44597, in Application No. 31255. It also possessed a city carrier permit. All of its authority was suspended in 1965. The permit has been revoked. The certificates are technically revived by termination of the suspensions.

By the instant application Malco seeks permission to abandon its certificated services. It alleges that it has rendered no service since prior to July 13, 1965 and it presently has neither the organization nor the equipment to render the authorized service. It has no evidence of insurance on file. Western Motor Tariff Bureau canceled Malco's participation in its tariffs on December 20, 1965.

The application has been on file since September 6, 1966 and no protests have been received.

The Commission finds and concludes that the application should be granted.

There are no evidences of insurance or tariff filings to be canceled.

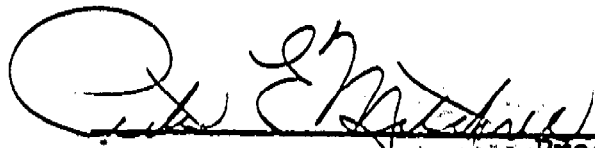

A public hearing is not necessary.
