Decision No. 72164

ORIGINAL

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Investigation into the constructive mileages, and related rules and provisions of all common carriers, highway carriers and city carriers relating to the transportation of any and all commodities between all points in California (including, but not limited to, constructive mileages provided in the Distance Table).

74-A

Case No. 7024
Order Setting Hearing of
July 19, 1966

SUPPLEMENTAL ORDER

By Decision No. 72081 dated February 28, 1967, in this proceeding, the Commission found that Distance Table 6, as set forth in Exhibit 1, as amended by Exhibits 4 and 5, and the separate Book of Maps, as set forth in Exhibit 2, modified to the extent set forth in that decision, contain the reasonable constructive miles and governing rules to be used in connection with the Commission's minimum rate tariffs in place of Distance Table No. 5 and that the resulting changes provide just and reasonable minimum rates, rules and regulations. The Commission concluded that Distance Table 6 and its separate Book of Maps should be adopted to supersede Distance Table No. 5 effective July 1, 1967, that all minimum rate tariffs now referring to Distance Table No. 5 should be amended accordingly and that distribution of Distance Table 6 and amendments of the various tariffs involved should be made by subsequent orders.

Preparation of Distance Table 6 and its Book of Maps and the cancellation supplement to Distance Table No. 5 have been completed. They are ready for distribution. Such distribution will be accomplished by the order herein. The necessary amendments to the minimum rate tariffs will be made by separate orders.

IT IS ORDERED that:

1. Distance Table No. 5 (Decision No. 66578, as amended) is further amended by incorporating therein, to become effective July 1, 1967, Cancellation Supplement No. 13 attached hereto and by this reference made a part hereof.

2. Distance Table 6 and its separate Book of Maps which accompany this order are, by this reference, made a part hereof.

3. The Secretary is hereby directed to cause a copy of this order to be served forthwith upon the respondents to this proceeding and upon all other parties of record.

This order shall become effective on the date hereof.

Dated at San Francisco, California, this 16th day of March, 1967.

FOREWORD

This Distance Table sets forth CONSTRUCTIVE MILEAGES to be used in determining distance rates for the transportation of property between points in the State of California. The distance between points may or may not be actual highway mileage, depending upon certain variable factors. Distances different from actual miles have been developed by making adjustments for variations in motor vehicle operating conditions caused by the following:

(1) Elements of highway design, such as grades and alignment.

(2) Elements of highway traffic, such as congestion and controls.

The index of points and references to metropolitan area, zone and extended area maps in this Distance Table are provided for the convenience of the user. In the event of any conflict between such index and map references and the basic provisions of the Distance Table as set forth in Sections 1 through 4, the basic provisions shall govern.

EXPLANATION OF SYMBOLS AND REFERENCES

This index lists all Red Points and Black Points shown on the Constructive Mileage Maps, and certain other locations within Metropolitan Zones or within incorporated cities or their Extended Areas.

Explanation of certain symbols and references used in the columns captioned "Point" or "Community"

All cities, communities, and points are listed alphabetically.
All Metropolitan Zones and numbered junctions are listed numerically.

✱ Indicates a Red Point; absence of symbol indicates a Black Point.
+ Indicates the Point, community or other named area is subject to the provisions contained in Notes 1 or 2 below.
* Indicates an incorporated city, not within a Metropolitan Zone. Also see Note and Rule 1(j-4).
Note.-All incorporated cities, not within a Metropolitan Zone, are not prefixed with an asterisk nor designated by name in the Index of Points.

Explanation of symbols and references used in the columns captioned "Reference"

References to Described Extended Area Maps 2-U, 2-V, 2-W, 3-X and 3-Y and maps numbered 5 and higher are for information purpose only and are not necessary for computation of distances.

Map references indicate the map number and the coordinates at or near which the Point appears on the map. For example, the reference "Map 1, P-17", indicates that the Point is located on Map 1 within the box designated by coordinates P and 17.

MZ followed by a number (as "MZ 201") refers to the Metropolitan Zone of that number. Where reference is thus made to a single Metropolitan Zone, the Point, community or other named area lies wholly within such Metropolitan Zone, and the Constructive Mileage shall be that applicable from and to such Metropolitan Zone. (Subject to Note 1)

MZ followed by more than one number (as "MZ 204, 205, 215") refers to the Metropolitan Zones of those numbers. Where reference is thus made to more than one Metropolitan Zone, the community or other named area lies partly within each of such Metropolitan Zones. The Constructive Mileage shall be that applicable from and to whichever of such Metropolitan Zones encompasses the Point in question. (Subject to Note 1)

"SEE" followed by the name of an incorporated city (as "SEE ✱ * LIVERMORE", or "SEE * FARMERSVILLE") indicates that the Point or community lies wholly within the exterior limits of that incorporated city, or within the Extended Area of that incorporated city. The Constructive Mileage shall be that applicable from and to the Mileage Basing Point for such incorporated city in accordance with Rule 2. (Subject to Note 2)

"SEE" followed by a numbered junction, or the name of an unincorporated community or other named area (as "SEE 2548", or "SEE ✱ CROCKETT") indicates that the Point or community lies within the Extended Area of such numbered junction, unincorporated community, or other named area. The Constructive Mileage shall be that applicable from and to the Mileage Basing Point for such numbered junction, unincorporated community, or other named area in accordance with Rule 2. (Subject to Note 2)

(Continued)

EXPLANATION OF SYMBOLS AND REFERENCES (Concluded)

"SEE" followed by the name of more than one incorporated city, unincorporated community or other named area, numbered junction, or any combination thereof (as "SEE ≠ * LODI and 2548) indicates that the Point or community lies within the Extended Area of each of such incorporated cities, unincorporated communities or other named areas, or numbered junctions, as the case may be. The Constructive Mileage shall be that applicable from and to whichever of such Mileage Basing Point governs the Point in question in accordance with Rule 2. (Subject to Note 2)

"SEE" followed by the name of a Described Extended Area (as "SEE BAKERSFIELD EXTENDED AREA") indicates that the Point or community lies wholly within such Described Extended Area. The Constructive Mileage shall be that applicable from and to the Mileage Basing Point for such Described Extended Area. (Subject to Note 2)

"SEE" followed by the names of more than one Described Extended Area (as "SEE NORTH SACRAMENTO and SACRAMENTO EXTENDED AREAS") indicates that the Point or community lies partly within each of the Described Extended Areas. The Constructive Mileage shall be that applicable from and to whichever Mileage Basing Point governs the Point in question in accordance with Rule 2. (Subject to Note 2)

NOTE 1.--Where the Point, community or other named area is prefixed with the symbol "+", indicates that the Point, community or other named area lies partly within the Metropolitan Zone or Zones referred to and partly without, but other than within another Metropolitan Zone.

The Constructive Mileage shall be that applicable from and to whichever Mileage Basing Point governs the Point in question in accordance with Rules 2 and 4.

NOTE 2.--Where the Point, community or other named area is prefixed with the symbol "+", indicates that the Point, community or other named area lies partly within and partly without the Extended Area or Areas referred to. The Constructive Mileage shall be that applicable from and to whichever Mileage Basing Point governs the Point in question in accordance with Rules 2 and 4.

(g) EXTENDED AREA means a Described Extended Area, or the area in the vicinity of a Mileage Basing Point as established by Rule 2(f) and 2(g). (h) METROPOLITAN ZONE means a zone as described in Section 2-A. (i) METROPOLITAN ZONE GROUP means a single group of Metropolitan Zones as provided in Section 2-B. (j) MILEAGE BASING POINT means the precise location designated to represent the following: Metropolitan Zone; Described Extended Area; incorporated city, unincorporated community or other named point, Numbered Junction, or extended area thereof; or, Unnumbered Junction. (j-1) RED POINT means a Mileage Basing Point shown in red on the constructive mileage map. (See Rule 6). (j-2) BLACK POINT means a Mileage Basing Point shown in black on the constructive mileage map. The location of such Mileage Basing Point is the post office (the main post office if there be more than one post office), or, if there is no post office, then the center of the community. (Continued)

Rule	SECTION 1 - RULES OF GENERAL APPLICATION (Continued)
	DEFINITIONS OF TECHNICAL TERMS (Concluded)
1	(j-3) NUMBERED JUNCTION means a Mileage Basing Point located at a highway junction identified by number on the constructive mileage map. (j-4) INCORPORATED CITY (other than Red Point, Black Point or Numbered Junction) means a Mileage Basing Point located at the post office (the main post office if there be more than one post office) or if there is no post office, then the center of the city. (j-5) UNNUMBERED JUNCTION means a Mileage Basing Point located at a highway junction shown on the constructive mileage map but not identified by number. For the purpose of this distance table, an Unnumbered Junction shall not have an extended area. (See Rule 2 (g)). An Unnumbered Junction may not be used as a terminal point in determining constructive mileage from or to points located within a Described Extended Area nor within the exterior limits of an incorporated city nor within the extended area of an incorporated city, unincorporated community or other named point, or Numbered Junction. (k) MILEAGE TERRITORY means any single territory as provided in Section 2-C. (l) POINT means the precise location to or from which constructive mileage is to be determined. (m) RELATED MILEAGE TERRITORY means the particular Mileage Territory encompassing the Metropolitan Zone or Metropolitan Zone Group in question. (n) SEGMENT OF HIGHWAY means that portion of a highway between two consecutive Mileage Basing Points.

Rule	SECTION I – RULES OF GENERAL APPLICATION (Continued)	
2	For a Point located within a Metropolitan Zone, an incorporated city or an Extended Area, the Constructive Mileage from or to such Point shall be determined from or to the Mileage Basing Points indicated as follows: (See also Rule 5.)	
	IF THE POINT IS:	USE FOR CONSTRUCTIVE MILEAGE DETERMINATION THE MILEAGE BASING POINT:
	(a) Within a Metropolitan Zone,	for the Applicable Metropolitan Zone Group if the mileage is being determined between said Point and a Point outside of the Related Mileage Territory; otherwise, the Metropolitan Zone within which said first Point is located.
	(b) Within a Described Extended Area,	for the same Described Extended Area.
	(c) Within the exterior limits of an incorporated city, no part of which is within a Metropolitan Zone, nor within a Described Extended Area,	for the same incorporated city.
	(d) Within the exterior limits of an incorporated city, a portion of which is within a Metropolitan Zone or Zones,	for the same incorporated city, except (1) when the Point is located within a Metropolitan Zone the Mileage Basing Point applicable for the Metropolitan Zone shall apply, or (2) when the Point is located within a portion of the city which does not have a designated Mileage Basing Point apply the Mileage Basing Point which is closest to the precise point, subject to paragraph (i).
	(e) Within the exterior limits of an incorporated city, a portion of which is within a Described Extended Area,	for the same incorporated city, except (1) when the Point is located within a Described Extended Area the Mileage Basing Point applicable for the Described Extended Area shall apply, or (2) when the Point is located with a portion of the city which does not have a designated Mileage Basing Point apply the Mileage Basing Point which is closest to the precise point, subject to paragraph (i).

Rule

SECTION 1 - RULES OF GENERAL APPLICATION (Continued)

For a Point located within a Metropolitan Zone, an incorporated city or an Extended Area, the Constructive Mileage from or to such Point shall be determined from or to the Mileage Basing Points indicated as follows: (See also Rule 5.)

(Concluded)

IF THE POINT IS:	USE FOR CONSTRUCTIVE MILEAGE DETERMINATION THE MILEAGE BASING POINT:
(f) Within 3-Air Miles of the Mileage Basing Point of an incorporated city, but not within a Metropolitan Zone, nor within a Described Extended Area, nor within the exterior limits of an incorporated city,	for the same Mileage Basing Point, subject to paragraphs (h) and (i).
(g) Within 1-Air Mile of a Mileage Basing Point of other than that of an incorporated city, but not within a Metropolitan Zone, nor within a Described Extended Area, nor within the exterior limits of an incorporated city,	for the same Mileage Basing Point, subject to paragraphs (h) and (i).
(h) Within an overlap of two or more Extended Areas in accordance with paragraphs (f) or (g), but not within a Metropolitan Zone, nor within a Described Extended Area, nor within the exterior limits of an incorporated city,	whichever is closest to the precise point.

(i) Paragraphs making reference hereto shall not apply if
(1) the Point is separated from the Mileage Basing Point by a bay, river, strait or other body of water, and
(2) there is no toll free highway bridge across said body of water within the limits of the incorporated city or Extended Area provided in such paragraphs.

EFFECTIVE AS SHOWN ON ORIGINAL TITLE PAGE

ISSUED BY THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA, SAN FRANCISCO, CALIFORNIA.

Rule	SECTION 1 - RULES OF GENERAL APPLICATION (Continued)
3	Constructive Mileage between Mileage Basing Points shall be determined as follows:

BETWEEN	THE CONSTRUCTIVE MILEAGE SHALL BE:
(a) Two Red Points,	as shown in Section 3.
(b) Two Mileage Basing Points other than two Red Points, except as provided in paragraph (c),	the total of the mileage shown on the Constructive Mileage Map along the continuous route resulting in the least Constructive Mileage between said points; mileage between two Red Points along said continuous routes shall be determined in accordance with paragraph (a) above.
(c) An incorporated city (other than Red Point, Black Point or Numbered Junction) and the first Red Point, Black Point or Numbered Junction contacted via the shortest usable route between such Mileage Basing Points,	1.3 times the actual Highway Mileage between said points. When said incorporated city is intermediate to two Mileage Basing Points along a route shown on the Constructive Mileage Map, the constructive mileage so determined shall not exceed the constructive mileage determined between said two Mileage Basing Points. Under the provisions of this paragraph, fractions shall be retained in calculating distances.

Rule	SECTION 1 - RULES OF GENERAL APPLICATION (Continued)
4	Determination of Constructive Mileage between Points other than Two Mileage Basing Points:
	(a) Constructive Mileage between two points other than two Mileage Basing Points shall be 1.3 times the Actual Highway Mileage along the shortest continuous route, subject to paragraphs (b), (c), (d), (e) and (f).
	(b) If the shortest continuous route passes through two or more Mileage Basing Points, Constructive Mileage between such points shall be determined in accordance with Rule 3.
	(c) If the shortest continuous route: (1) intersects a segment of highway shown on the constructive mileage maps at two or more locations; or (2) intersects two or more segments of highway on the constructive mileage maps; the constructive mileage between points of intersection shall be determined via the segment or segments of highway or portions thereof shown on the constructive mileage maps which results in the least constructive mileage between said points of intersection, as provided by paragraphs (a), (b), (d) and (e). Constructive mileage shall be determined: (1) between point of origin and first point of intersection; or (2) between last point or intersection and point of destination in accordance with paragraph (a).
	(d) Constructive Mileage determined in accordance with paragraph (a) or (c) or a portion or portions of a segment of highway shall not exceed the Constructive Mileage for that segment of highway.
	(e) Constructive Mileage along a railroad which contacts non-highway point or points shall be the rail mileage between non-highway point and first highway contact, or shall be the rail mileage between non-highway points if no highway contact is made between the points.
	(f) In determining Constructive Mileage under the provisions of this rule, fractions shall be retained in calculating distances.

Rule	SECTION 1 - RULES OF GENERAL APPLICATION (Continued)	
5	Constructive Mileage between two points both of which are located within a single Metropolitan Zone, incorporated city, and/or Extended Area shall be as follows:	
	BETWEEN TWO POINTS:	THE CONSTRUCTIVE MILEAGE SHALL BE:
	(a) Within a single Metropolitan Zone,	3 miles (See paragraph (f)).
	(b) Within a single Described Extended Area as provided in Rule 2(b),	3 miles (See paragraph (f)).
	(c) Within the exterior limits of a single incorporated city, except portions within a Metropolitan Zone, or within a Described Extended Area,	3 miles (See paragraph (f)).
	(d) Within the Extended Area of a Mileage Basing Point of a single incorporated city as provided in Rule 2(f),	3 miles (See paragraph (f)).
	(e) Within the Extended Area of a Mileage Basing Point as provided in Rule 2(g),	1 mile (See paragraph (f)).
	(f) The Constructive Mileage provided in paragraphs (a), (b), (c), (d) and (e) shall not be used in combination with any other constructive mileage.
