Application No. 49112
(Filed January 26, 1967)

OPINION AND ORDER

Flour Transport, Inc., a corporation, is a highway contract carrier and city carrier engaged in the transportation of flour, in bulk, between points in Los Angeles and Orange Counties. By Decision No. 70545 dated April 5, 1966, in Application No. 48216, it was authorized to charge rates less than the minimum rates named in Minimum Rate Tariffs Nos. 2 and 5 for the transportation of various types of flour, in bulk, between points in the above counties for specified shippers. The authority is scheduled to expire with April 18, 1967.

By this application, applicant seeks to modify and extend, for an additional one-year period, the authority currently in effect. The modifications proposed to be made in the existing authority involve: (1) deleting one shipper from and adding another to the list of shippers served; (2) providing rates for distances over 35 but not over 70 constructive miles and including San Bernardino and Riverside Counties in the area served; (3) reducing the free loading time from 45 to 30 minutes; (4) revising the charges for excess time in loading by establishing

a charge of \$2.00 for each 15-minute period or fraction thereof in lieu of \$3.00 for each 45-minute period or fraction thereof; (5) increasing the additional charge for shipments loaded in rail cars at rail siding from $1\frac{1}{2}$ to $2\frac{1}{2}$ cents per 100 pounds; and (6) establishing an additional charge of \$35.00 per calendar day per unit for rail service from team tracks in San Bernardino and Riverside Counties.

Applicant alleges that one of the shippers specified in its current authority has not used its services in the past and another shipper not so specified has expressed a definite interest in its services. Applicant states that the shippers involved desire to make shipments to San Bernardino and Riverside Counties and that it proposes to provide such service either on a direct basis from the Los Angeles area mills or from rail cars at points in the two counties. Applicant declares that the additional mileage rates are projections of, and in line with, the rates heretofore authorized, that the proposed increases in accessorial charges are necessary to insure efficient operations and reflect current costs and that the additional charge of \$35.00 for rail service from rail team tracks in San Bernardino and Riverside Counties is to compensate for the cost of sending trucks to those points to perform short-haul service from such team tracks.

Applicant utilizes a "drop loading" process whereby 40,000 pounds of flour are dropped into its specialized equipment from overhead gravity bins within a period of three to five minutes. Unloading time averages about fifty minutes per load and transit times are held to a minimum due to the fact that freeways can be used to a great extent.

Applicant avers that the weight rates named in Minimum Rate Tariffs Nos. 2 and 5 and the hourly rates set forth in the latter tariff were not designed for the specialized service involved and that the shippers desire and require rates in cents per 100 pounds which will permit them to make firm bids to bakeries for periods of approximately six months.

Applicant asserts that the proposed rates are necessary to prevent substantial diversion of this traffic to proprietary transportation. Since commencing such operations in 1962, applicant alleges that it has lost the traffic of two shippers to proprietary hauling and that other shippers have indicated they would consider proprietary operations unless the rate relief sought herein is granted.

Revenue and expense data submitted by applicant indicate that the transportation involved has been profitable and reasonably may be expected to be profitable during the ensuing year.

The certificate of service shows that a copy of the verified application was mailed to California Trucking Association on January 24, 1967. The application was listed on the Commission's Daily Calendar of January 30, 1967. No objection to the granting of the application has been received.

In the circumstances, it appears, and the Commission finds, that the proposed rates are reasonable and consistent with the public interest. A public hearing is not necessary. The Commission concludes that the application should be granted.

In view of the impending expiration date of the current authority, the order which follows will be made effective April 18, 1967.

IT IS ORDERED that:

1. Flour Transport, Inc., is hereby authorized to transport:

Grain or Rice Flour, in bulk,
Grain or Rice Flour, in bulk, including
chemical or other ingredients not to
exceed four percent, and
Semolina or Semolina and Grain Flour,
in bulk,

between points in Los Angeles, Orange, Riverside and San Bernardino Counties for the milling companies named in Appendix A, attached hereto and by this reference made a part hereof, at rates less than the established minimum rates but not less than those set forth, and subject to the conditions specified, in said Appendix A.

2. The authority granted herein shall, on and after April 18, 1967, supersede the authority granted by Decision No. 70545 and shall expire with April 18, 1968.

The effective date of this order shall be April 18, 1967.

Dated at San Francisco, California, this 4th day of April, 1967.

- Note 1 - Loading Time: An additional charge of \$2.00 shall be assessed for each 15 minutes period or fraction thereof after the first 30 minutes of free time, except on rail car service. Free time is not to commence before scheduled arrival time at the loading hopper or actual arrival time, whichever is later.
- Note 2 - Rail Car Service: Add 2.5 cents per 100 pounds for rail car service. Add an additional .5 cents (total 3.0 cents) if Flour Transport, Inc. furnishes electrical power at designated team track. Add an additional \$35.00 per calendar day, per unit, for rail service from team tracks located in San Bernardino and Riverside Counties.
- Note 3 - Weighing Service: Add \$15.00 per car for weighing service provided in connection with unloading of rail cars.
- Note 4 - Rate Computation: When charges accruing on a shipment based on actual weight exceed the charges computed on a rate based on a greater minimum, the latter shall apply.
- Note 5 - Demurrage: If delivery cannot be accomplished and the trailer is put out of service without driver in attendance, a charge of \$1.50 per hour will be assessed after the first two hours. If a driver is in attendance, a charge of \$14.00 per hour will be assessed.
- Note 6 - Returns: If flour is delivered to consignee, refused, returned to mill or car for unloading, a charge of one and one-half times normal applicable rate will be made.
- Note 7 - Sunday Delivery: Add 3.0 cents per 100 pounds when Sunday delivery is specified.
- Note 8 - Special Setup: Add 3.0 cents per 100 pounds when delivery is made to a bakery not equipped for truck delivery (220 three-phase power and reasonable access).
- Note 9 - Shipping Notice: Add 2.0 cents per 100 pounds when shipment must be made with less than twelve hours notice if driver call back is required.
- Note 10- In all other respects, the provisions of Minimum Rate Tariff No. 5 are applicable.
- Note 11- In all other respects, the provisions of Minimum Rate Tariff No. 2 are applicable.
