

Decision No. 72822

ORIGINAL

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application
of California Interstate Telephone
Company, a corporation, for authority
to carry out the terms of an agreement
pertaining to the leasing of circuits
for transmission of telegraphic
messages.

Application No. 40251

Supplemental Order Relieving
Applicant of Reporting Requirement

California Interstate Telephone Company, by letter dated June 9, 1967, seeks relief from requirement to file reports in accordance with Ordering Paragraph No. 4 of Decision No. 57758, dated December 30, 1958, which states the following:

"4. If the authority herein granted is exercised, applicant shall within sixty days after June 30, 1959 and yearly thereafter, file the following statements with respect to facilities leased under said agreement relating to California intrastate operations:

- a. A detailed summary of the plant and equipment being leased to Western Union, showing applicant's regularly filed rate then in effect for such service and the rate being provided in the agreement.
- b. A summary showing the computation of the amount by which applicant's charges for its services provided under said agreement differ from the charges computed at applicant's filed tariff rates."

California Interstate Telephone Company alleges that it has been reporting this information since 1958, and that the reports for the past two years contained only minor changes or no changes at all, and that the amount of money involved is minimal.

The Commission finds that applicant's request is reasonable, and good cause appearing,

IT IS ORDERED that California Interstate Telephone Company is hereby relieved from the reporting requirement of paragraph No. 4 of Decision No. 57758 dated December 30, 1958.

The effective date of this order shall be twenty days after the date hereof.

Dated at San Francisco, California, this 15th day of AUGUST, 1967.
