ORDER SETTING HEARING

Application No. 49493 was filed June 23, 1967, by the Pacific Southcoast Freight Bureau on behalf of carriers participating in its tariffs. Authority is sought to increase local and joint all-rail and joint rail-highway freight rates and charges applicable to California intrastate transportation subject to the jurisdiction of this Commission.

Various minimum rate tariffs published by the Commission contain provisions for the alternative application of common carrier rates which may be applied in lieu of the minimum rates when such common carrier rates produce a lower aggregate charge for the same transportation than results from the application of the minimum rates. Accordingly, hearings in the several minimum rate investigation cases should be held with the hearings in Application No. 49493 for the purpose of determining whether common carriers maintaining, under outstanding authorizations permitting the alternative use of rail rates, rates below the specific minimum

rate levels otherwise applicable, should be authorized and directed to increase such rates to the level of the rail rates established pursuant to decision in said Application No. 49493, or to the level of the specific minimum rates, whichever is lower, and to cancel such rates in the event competitive rail rates are no longer published in rail tariffs.

Good cause appearing,

IT IS ORDERED that hearings in these proceedings be held concurrently with hearings in Application No. 49493 before Examiner Thompson on September 15 and 18, October 9, 10 and 11, 1967 at 10:00 a.m. in the Commission's Courtroom, San Francisco.

Dated at San Francisco, California, this 29th day of August, 1967.
