Application No. 49043
 (Filed December 20, 1966)
 (Amended January 25, 1967
 and July 26, 1967)

SUPPLEMENTAL OPINION AND ORDER

Southern California Truck Leasing, Inc., a corporation, holds highway contract carrier and city carrier permits. By Decision No. 72025 dated February 15, 1967, in Application No. 49043, it was authorized to transport certain property for Eastman Kodak Company at rates and charges lower than the minimum rates and charges named in Minimum Rate Tariff No. 15. The current authority is scheduled to expire with March 5, 1968.

By this application for amendment of Decision No. 72025, authority is sought to modify the current deviation so as to cover the transportation of used cameras and projectors for repair or service under warranty (or replacement with new items instead of repair) in packages weighing 35 pounds or less, when moving (1) between the processing laboratory of Eastman Kodak Company at 1017 North Las Palmas Avenue, Hollywood, and the places of business of dealers and representatives of Eastman Kodak Company within a radius of 150 airline miles of said address in Hollywood and (2) between the shipper's facility in Hollywood and its repair shop at Whittier. Applicant requests that the authority be made effective

for a period of one year from its effective date rather than preserve the March 5 expiration date of the current authority in order that it and the shipper may better facilitate planning for each successive year's operation.

Applicant states that the proposed modification would permit it: (1) to handle shipments of the commodities involved between all points where service is performed for Eastman Kodak Company; (2) to increase the weight limitation on packages to 35 pounds so that the largest projector produced by the shipper could move under the rates in question; and (3) to transport new cameras and new projectors under such rates when the shipper elects to replace these items under warranty rather than repair them.

Applicant alleges that, while there have been some increases in cost of operations, such increases have been offset by an increased efficiency in its operations and by an increased volume of business. According to applicant, the efficiency of its operations has been made possible by the cooperation of Eastman Kodak Company. Applicant asserts that the transportation involved has been profitable and that its proposal will generate additional traffic without additional cost.

The certificate of service shows that a copy of the application was mailed to California Trucking Association on July 26, 1967. The application was listed on the Commission's Daily Calendar of July 28, 1967. No objection to the granting of the application has been received.

In the circumstances, it appears, and the Commission finds, that applicant's proposal is reasonable and consistent with the public interest. A public hearing is not necessary. The Commission concludes that the application should be granted.

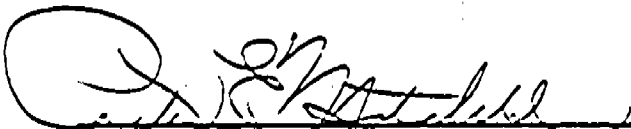

IT IS ORDERED that:

1. Southern California Truck Leasing, Inc., is hereby authorized to transport property for Eastman Kodak Company at rates and charges less than the minimum rates and charges named in Minimum Rate Tariff No. 15 but not less than those set forth, and subject to the provisions shown, in Appendix B attached hereto and by this reference made a part hereof.

2. The authority herein granted shall, on and after the effective date hereof, supersede the authority granted by Decision No. 72025 and shall expire one year after the effective date of this order unless sooner canceled, modified or extended by order of the Commission.

This order shall become effective on the date hereof.

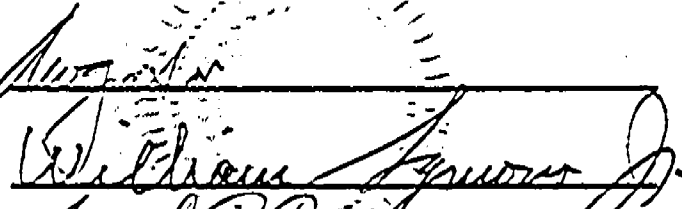

Dated at San Francisco, California, this 24th day of October, 1967.
