

**ORIGINAL**

Decision No. 73256

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Investigation )  
into the rates, rules, regulations, )  
charges, allowances and practices of )  
all common carriers, highway )  
carriers and city carriers relating )  
to the transportation of sand, rock, )  
gravel and related items (commodities )  
for which rates are provided in )  
Minimum Rate Tariffs Nos. 7 and 17).

Case No. 5437

Petition No. 119,  
filed October 25, 1965;  
amended July 14, 1966,  
and August 2, 1966.

Petition No. 137,  
filed August 22, 1966.

Petition No. 142,  
filed December 23, 1966.

Order Setting Hearing,  
dated December 20, 1966.

- H. Randall Stoke and Fred Imhoff, for Southern California Rock Products Association, petitioner in Petitions Nos. 119 and 142, and interested party otherwise.
- Richard W. Smith, H. F. Kollmyer and J. C. Kaspar, for California Trucking Association, petitioner in Petition No. 137, and interested party otherwise.
- E. O. Blackman, for California Dump Truck Owners Association, interested party.
- G. Ralph Grago, for Association of Independent Owner Operators, interested party.
- Harry C. Phelan, Jr., for California Asphalt Pavement Association, interested party.
- Robert L. Payan, for Payan Trucking, Inc., respondent.
- William Webster, for Rodeffer Industries, Inc., interested party.
- R. Herman Ohs, for Consolidated Rock Products Co., interested party.
- James E. McFaul, for Pacific Western Industries, Inc., interested party.
- Fred P. Hughes, Joseph Braman and Bill T. Farris, for the Commission staff.

O P I N I O N

These matters deal with proposed amendments of Minimum Rate Tariff No. 17. Said tariff sets forth rates and rules which apply as minimum for services performed by for-hire highway carriers in transporting rock, sand and gravel and certain other commodities in dump truck equipment from designated production areas to defined delivery zones in Orange County and portions of Los Angeles, Riverside and San Bernardino Counties (collectively referred to herein as the "Core Area") and in portions of Santa Barbara, Ventura and San Diego Counties.

Petition No. 119, filed by the Southern California Rock Products Association, seeks adjustment of the rates in Minimum Rate Tariff No. 17 to reflect changes in delivery times and distances resulting from the opening of new freeways and freeway segments within the Core Area since the development of time and distance data upon which the rates were calculated.

The purposes of the Commission's Order Setting Hearing of December 20, 1966, are similar to those of Petition No. 119 except that the new freeways and freeway segments which are involved are located within Santa Barbara and Ventura Counties.

Petition No. 137, filed by the California Trucking Association, seeks increases in the zone rates (except those for slag) to compensate for increases in operating costs which the carriers have experienced since the present level of the rates was established.

C. 5437, Pets. Nos. 119, 137,  
142; OSH, 12/20/66 - SW

Petition No. 142, filed by the Southern California Rock Products Association, seeks extension of the zone system of rates to apply from a Los Angeles County production area near Castaic Junction to various delivery zones in Ventura County.

Public hearings on the petitions and on the Order Setting Hearing have been held before Examiner C. S. Abernathy. A report on the proceedings was filed by the examiner on July 3, 1967. Exceptions to the report were filed by Southern California Rock Products Association and by the Transportation Division of the Commission's staff. No replies to the exceptions have been filed. The record was closed August 8, 1967. The several matters are ready for decision.

The examiner's report sets forth an extensive recitation and discussion of the record which was adduced in this matter. His recommended findings, which are also set forth in the report, are reproduced in Appendix A attached hereto. Further review or discussion of the record or of the recommended findings is not necessary except as to those matters pointed up by the exceptions.

The exceptions deal mainly with certain errors in the examiner's report. In his summation of the adjustments which the Southern California Rock Products Association by Petition No. 119 seeks in the rates in Minimum Rate Tariff No. 17 because of changes in highway conditions since the rates were established, the examiner reported that the changes have consisted of the addition of about 17 miles of new freeways, the division of about eight miles of existing highway segments, and the addition of 13 miles

C. 5437, Pets. Nos. 119, 137,  
142; OSH, 12/20/66 - SW

of freeway access streets. It appears that the exceptions correctly state that the involved distances are: new freeways, 174 miles; division of highway segments, 60 miles; freeway access streets, 18 miles. In connection with Petition No. 142 the examiner reported that Los Angeles County Production Area JJ lies about five miles west of Castaic Junction whereas the correct distance is .7 of one mile.

Regarding Petition No. 137, the examiner's report (page 6) makes reference to "increased costs per ton mile" shown by a witness for the California Trucking Association. The reference should be to increased costs per ton minute. In his analysis of the cost data which were presented in this same petition, the examiner developed, but did not explain, a figure of \$.274 per hour for health, welfare and pension costs for drivers of 5-axle dump truck equipment. This figure represents a change from a figure of \$.258 per hour which a Commission engineer had reported in Exhibit No. 137-3 as the applicable health, welfare and pension costs. It appears that the examiner's figure of \$.274 per hour was developed on a basis of 1,970 revenue hours per year whereas the lesser figure of \$.258 per hour was incorrectly calculated on a longer period.

Two errors of a typographical nature should also be mentioned. In Footnote No. 5 of the report reference is made to Decision No. 71973. The correct decision number is 71953. Also, the reference in the Recommended Order should be to Appendix B instead of to Appendix A.

C. 5437, Pets. Nos. 119, 137,  
142; OSH, 12/20/66 - ds \*

The Commission's Transportation Division, in its exceptions, also takes issue with the report in that it does not specify the procedures by which the recommended rates should be incorporated in Minimum Rate Tariff No. 17. However, the mechanics of effecting the tariff adjustments to be made were not in issue, and the designation as to how the adjustments should be accomplished was not necessary to the report.

The rates in Section 12 of Minimum Rate Tariff No. 17 are zone rates for the transportation of slag. Said rates are based on the same traverse data as other of the zone rates in the tariff. Inasmuch as the recommended findings state that the basic traverse network should be revised to incorporate the traverse data for the new freeways and access roads and that conforming adjustments should be made in the rates in Minimum Rate Tariff No. 17, the conforming adjustments include adjustments in the rates in Section 12 to the basis of the traverse network as amended. The revised rates that will apply for the transportation of slag will be those set forth in the order dated today in Case No. 5437, Petition No. 149.

None of the exceptions affect the examiner's recommended findings in these matters. Upon consideration of the record the Commission finds that said findings should be adopted as its own. It concludes that conforming amendments should be made in the provisions of Minimum Rate Tariff No. 17, and that except as is otherwise provided herein, Petition No. 137 should be denied.

O R D E R

IT IS ORDERED that:

1. Minimum Rate Tariff No. 17 (Appendix B to Decision No. 69469) is hereby amended by incorporating therein, to become effective December 9, 1967, the supplement and revised pages attached hereto and listed in Appendix B, also attached hereto, which supplement, pages and appendix are made a part hereof by this reference.

2. In all other respects said Decision No. 69469, as amended, shall remain in full force and effect.

3. Except as is otherwise provided herein, Petition No. 137 in Case No. 5437 is denied.

The effective date of this order shall be twenty days after the date hereof.

Dated at San Francisco, California,  
this 27<sup>th</sup> day of OCTOBER, 1967.

APPENDIX A  
Page 1 of 2

RECOMMENDED FINDINGS  
OF EXAMINER C. S. ABERNATHY

In Petition No. 119 and  
Order Setting Hearing dated December 20, 1966

1. Time and distance data which were submitted to show traverse times and distances over specified freeways, freeway segments and access roads are reasonable for incorporation into the basic traverse network upon which the rates in Minimum Rate Tariff No. 17 were developed.
2. Time and distance data which were submitted to show changes which should be made in the basic traverse network for
  - a. Correction of certain mileages in the portion of the network applicable to Santa Barbara and Ventura Counties;
  - b. Adjustment of zone entry times in Santa Barbara and Ventura Counties to conform to basis of zone entry times adopted for Core Area;
  - c. Minor adjustments incidental to reduction of the network data for Santa Barbara and Ventura Counties to computer terms; and
  - d. Provision for an additional route from Ventura County to Los Angeles Countyare reasonable for incorporation in said basic network.
3. Modification of the basic traverse network in the foregoing respects will result in a reasonable basis for conforming adjustments in the rates in Minimum Rate Tariff No. 17.
4. As so adjusted, the rates in Minimum Rate Tariff No. 17 will be reasonable and non-discriminatory.

APPENDIX A  
Page 2 of 2

Petition No. 137

1. An amount of \$.0048 per ton per minute is a reasonable and sufficient amount to compensate for the time costs (including the increases in wage and social security costs that are the subject of this petition) which apply to the transportation of rock products under Minimum Rate Tariff No. 17.
2. Subject to an exception in connection with rates into San Diego County, the costs upon which the present rates in Minimum Rate Tariff No. 17 have been developed should be adjusted to reflect said cost of \$.0048 per ton per minute. Recalculation of the rates upon such adjusted basis, to supersede the corresponding rates in Minimum Rate Tariff No. 17, will result in the establishment of just, reasonable and nondiscriminatory rates for the services to which the rates would apply.
3. Rates into San Diego County should be increased by the differential method described in Finding No. 5, Decision No. 70759, May 24, 1966, Case No. 5437. The increase factor which should be applied to the rate differentials for transportation within San Diego County is 1.8 percent. Increases in the rates to San Diego County Zones, to the extent specified, have been justified. As so increased the rates will be just, reasonable and nondiscriminatory minimum rates for the transportation of rock products, pursuant to the provisions of Minimum Rate Tariff No. 17, to said San Diego County delivery zones.

Petition No. 142

The zone system of rates which applies from Los Angeles County Production Area JJ should be extended to the Ventura County delivery zones designated in Petition No. 142. Time and distance factors to be used in the development of the rates are a round-trip time of 17 minutes and a one-way distance of 4.9 miles between Nodes Nos. 50191 and 37115. Said time and distance factors are reasonable for the purposes of developing zone rates for the transportation of rock products over the route between said nodes.
