Application No. 49975
(Filed January 29, 1968)

OPINION AND ORDER

Applicant operates as a radial highway common, highway contract and city carrier.¹ By Decision No. 72088, dated February 28, 1967, in Application No. 49122, it was authorized to charge vehicle unit rates which are less, in volume or effect, than the minimum rates otherwise applicable for the transportation of property for Sears, Roebuck and Co. The authorized rates generally are stated on hourly, daily or monthly bases. The current authority is scheduled to expire with March 31, 1968.

By this application, authority is sought to continue the current authorization for a further one-year period. It also requests that the authority be modified by increasing certain hourly rates and all of the daily and monthly vehicle unit rates except

¹ Applicant also operates as a certificated highway common carrier for the transportation of general commodities between Los Angeles and the steamship wharves and docks at Los Angeles Harbor; for the transportation of petroleum and petroleum products in tank truck equipment between various points; and for the transportation of motor vehicles between various points. None of the transportation involved in this application is encompassed within the limits of the certificated operations.

those for excess trailers and extra converter gears and dollies as specifically shown in Exhibit A attached to the application.²

Applicant states that the proposed increases in rates and charges are necessitated by certain increased costs in providing the service. Applicant alleges that based upon its experience in performing the transportation herein involved, it is satisfied it can continue to provide the service at the proposed rates. It is further alleged that such rates are fully compensatory and will allow applicant to realize a satisfactory profit.

Revenue and expense data furnished by applicant indicate that the transportation involved has been profitable and reasonably may be expected to be profitable in the future.

The certificate of service shows that a copy of the application was mailed to California Trucking Association on January 26, 1968. The application was listed on the Commission's Daily Calendar of January 30, 1968. No objection to the granting of the application has been received.

In the circumstances, it appears, and the Commission finds, that the proposed rates and rules are reasonable and consistent with the public interest. A public hearing is not necessary. The Commission concludes that the application should be granted. The authority will be made effective April 1, 1968, in order to provide a first-of-the-month date for those rates which are on a monthly basis.

2

No authority for the proposed increase in rates is required from this Commission inasmuch as applicant performs the service as a permitted carrier for which only minimum rates have been established.

IT IS ORDERED that:

1. Signal Trucking Service, Ltd., is hereby authorized to depart from the provisions of the minimum rate orders otherwise applicable to the services which it performs for Sears, Roebuck and Co. to the extent specifically provided in Appendix A attached hereto and by this reference made a part hereof, and to assess rates less than the minimum rates otherwise applicable for such services but not less than the rates set forth, and subject to the conditions shown, in said Appendix A.

2. The authority herein granted shall, on and after April 1, 1968, supersede the authority granted by Decision No. 72088 and shall expire with March 31, 1969.

This order shall become effective April 1, 1968.

Dated at San Francisco, California, this 12th day of March, 1968.

President

Commissioners
