LINES, for authority to depart from)	(Filed February 1, 1968)
minimum rates, rules and regulations)	(Amended February 15, 1968)
applicable in connection with)	
certain transportation.)	

OPINION AND ORDER

Applicant holds a radial highway common carrier permit. By Decision No. 72185 dated March 21, 1967, in Application No. 49119, he was authorized to assess less-than-minimum rates for the transportation of potatoes in sacks, boxes or bins for specified shippers from Macdoel and points within 15 airline miles thereof to Sacramento, Santa Rosa, Monterey, Stockton, Modesto and points within the San Francisco Bay area. The current authority is scheduled to expire with April 1, 1968.

By this application, as amended, applicant seeks modification and extension of the current rate authority for an additional one-year period. Applicant asks that the existing authority be modified by increasing the rates now authorized from Macdoel to Sacramento by 2 cents and all other rates by 3 cents per 100 pounds.¹

The rates involved herein were found to be reasonable and justified by transportation conditions upon the basis of evidence received at a public hearing on the original application for such authority.² The evidence of record showed that the interstate

¹ No authority for the proposed increases in rates is required from this Commission inasmuch as applicant performs the service as a permitted carrier for which only minimum rates have been established.

² See Decision No. 70426 dated March 8, 1966, in Application No. 47969.

movement of potatoes to points in California from competitive growing areas near Macdoel, but located in Oregon, is not subject to rate regulation and that the rates for such transportation are negotiated between shippers and carriers. The shippers involved indicated that they would discontinue purchasing potatoes in the Macdoel area for shipment to California points unless intrastate rates competitive with those applicable to the aforementioned interstate movements were made available to them from Macdoel.

Applicant alleges that, except for increases in operating costs, the transportation conditions which justified the granting of the current authority continue to exist. Applicant asserts that the proposed increases in rates properly reflect the increased costs of handling this traffic during the past year. Based on his operating experience during such period, applicant avers that he can continue to provide the same service at the proposed rates and realize a satisfactory profit.

Revenue and expense data submitted by applicant indicate that the transportation involved has been profitable in the past and reasonably may be expected to be profitable for the ensuing year.

The certificate of service shows that copies of the verified application and amendment were mailed to California Trucking Association on January 31 and February 14, 1968, respectively. The application and amendment were listed on the Commission's Daily Calendar of February 1 and 16, 1968, respectively. No objection to the granting of the application, as amended, has been received.

In the circumstances, it appears, and the Commission finds, that the proposed rates are reasonable and justified by transportation conditions. A public hearing is not necessary. The Commission

concludes that the application, as amended, should be granted. In view of the impending expiration date of the current authority, the order which follows will be made effective April 1, 1968.

IT IS ORDERED that:

1. Walter F. Peters is authorized to transport potatoes, in sacks, boxes or bins, from Macdoel and points within a radius of 15 airline miles of Macdoel for the companies named and to the points indicated in Appendix A, attached hereto and by this reference made a part hereof, at rates less than the established minimum rates but not less than those set forth, and subject to the conditions specified, in said Appendix A.

2. The authority herein granted shall, on and after April 1, 1968, supersede the authority granted by Decision No. 72185 and shall expire with April 1, 1969.

The effective date of this order shall be April 1, 1968.

Dated at San Francisco, California, this 12th day of March, 1968.

 President
