Application No. 42764

ORDER RESCINDING ORDER OF REVOCATION

Decision No. 71833 dated January 17, 1967, in this proceed-  
ing, provided for the revocation of the certificate of public con-  
venience and necessity of Mainline Transportation System, a corpo-  
ration (Mainline) for failure, on the part of the carrier, to have  
on file with the Commission the required tariffs and evidence of lia-  
bility insurance.<sup>1</sup> That decision also provided that the effective  
date of the order would be stayed in the event that Mainline filed  
with the Commission before such effective date a written request for  
public hearing.

On February 14, 1967, Mainline filed a written request for  
public hearing thereby staying the effective date of the order and  
subsequently filed evidence of liability insurance and the required  
tariffs but permitted its participation in National Motor Freight  
Classifications A-9 and A-9(CAL) to be canceled thereby postponing

<sup>1</sup>  
The certificate authorizes Mainline Transportation System to trans-  
port general commodities between points in the Los Angeles Basin  
Region, on the one hand, and points in the San Diego Territory, on  
the other hand.

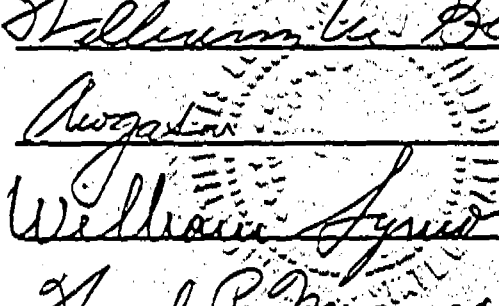

rescission of the aforementioned order of revocation. Mainline's certificate was suspended for this latter failure and reinstated when the required classifications were filed with the Commission.

In the circumstances, it appears, and the Commission finds, that the record in this proceeding concerning the status of the carrier's operative right should be clarified. A public hearing is not necessary. The Commission concludes that Decision No. 71833, supra, should be rescinded.

IT IS ORDERED that Decision No. 71833 dated January 17, 1967, in Application No. 42764 is hereby rescinded.

This order shall become effective on the date hereof.

Dated at San Francisco, California, this 2nd day of April, 1968.
