SUPPLEMENTAL OPINION AND ORDER

It has come to the Commission's attention that some of the commodity descriptions shown in various items of Minimum Rate Tariffs Nos. 1-B, 2 and 5 contain erroneous item number references to the Governing Classification.¹ These discrepancies arose when National Motor Freight Classification (NMFC) A-8 was reissued as NMFC A-9 and certain classification item numbers originally published in NMFC A-8 were changed to or incorporated under other item numbers appearing in NMFC A-9.

In the circumstances, it appears, and the Commission finds, that the necessary amendments to Minimum Rate Tariffs Nos. 1-B, 2 and 5 should be made. A public hearing is not necessary. The

1

Governing Classification means National Motor Freight Classification A-9(CAL) as governed by National Motor Freight Classification A-9.

Commission concludes that Minimum Rate Tariff No. 2 should be amended by the order herein. In order to avoid duplication of tariff distribution, the other tariffs involved should be amended by separate orders.

IT IS ORDERED that:

1. Minimum Rate Tariff No. 2 (Appendix "D" of Decision No. 31606, as amended) is hereby further amended by incorporating therein, to become effective June 1, 1968, Fifth Revised Page 37-AA, Sixteenth Revised Page 37-B and Seventh Revised Page 51-F attached hereto and by this reference made a part hereof.

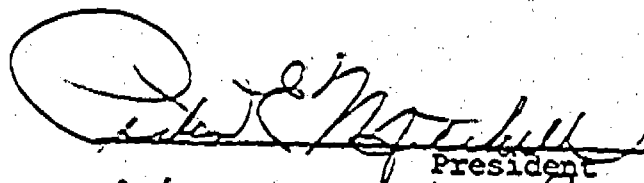

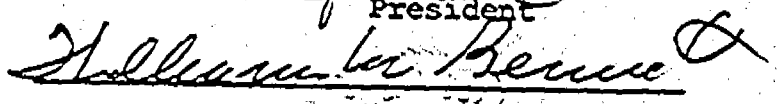

2. Tariff publications authorized to be made by common carriers as a result of the order herein may be made effective not earlier than the tenth day after the effective date of this order and may be made effective on not less than ten days' notice to the Commission and to the public if filed not later than sixty days after the effective date of the minimum rate tariff pages incorporated in this order. Tariff publications authorized herein shall be filed not earlier than the effective date of this order.

3. Common carriers, in establishing and maintaining the descriptions authorized hereinabove, are hereby authorized to depart from the provisions of Section 460 of the Public Utilities Code to the extent necessary to adjust long- and short-haul departures now maintained under outstanding authorizations; such outstanding authorizations are hereby modified only to the extent necessary to comply with this order; and schedules containing the descriptions published under this authority shall make reference to the prior orders authorizing long- and short-haul departures and to this order.

4. In all other respects, Decision No. 31606, as amended, shall remain in full force and effect.

This order shall become effective twenty-four days after the date hereof.

Dated at San Francisco, California, this 23rd day of April, 1968.
