OPINION AND ORDER

Various common carriers participate in National Motor Freight Classification A-9 (CAL) as governed by National Motor Freight Classification A-9, hereinafter referred to as the Governing Classification, for class ratings and other provisions. Also, various Commission minimum rate tariffs are subject to the class ratings and/or other provisions of such classification.

By Application No. 50188, National Motor Freight Traffic Association, Inc., Agent, seeks authority, on behalf of such common carriers, to reissue and supplement the current Governing Classification as National Motor Freight Classification A-10, and to reissue and supplement its California Supplement as National Motor Freight Classification A-10(CAL), both of which are to become effective¹ July 1, 1968.

By the above petitions, California Trucking Association proposes that National Motor Freight Classification A-9 and National Motor Freight Classification A-9(CAL) be discontinued as the Governing Classification for various Commission minimum rate tariffs and that National Motor Freight Classification A-10 and National Motor Freight Classification A-10(CAL) be adopted and prescribed as the² Governing Classification for the Commission's minimum rate tariffs. Petitioner further proposes that all references to Governing Classification be eliminated from Minimum Rate Tariff No. 10.³ Petitioner requests that all common carriers be directed to establish in their respective tariffs such modifications as may be prescribed by the Commission's order in these proceedings, including relief from the long- and short-haul provisions of Section 460 of the Public Utilities Code.

1

The proposed reissues of National Motor Freight Classification A-10 and National Motor Freight Classification A-10(CAL), and the changes provided therein, are set forth in Exhibits A, B and C attached to the application.

2

The tariffs are Minimum Rate Tariffs Nos. 1-B(East Bay Drayage), 2(General Commodities Statewide), 5(Los Angeles Drayage), 9-B(San Diego Drayage), 10(Cement Statewide), 11-A(Uncrated New Furniture Statewide), City Carriers' Tariff No. 1-A(San Francisco Drayage) and Exception Ratings Tariff No. 1. Proposed changes in the above tariffs are set forth in Exhibits D and E attached to the application.

3

References to Governing Classification in Minimum Rate Tariff No. 10 are presently contained in Item No. 10 (Definition of Technical Terms) and Item No. 180(Issuance of Shipping Documents).

Applicant and petitioner, hereinafter referred to as applicants, state that the Governing Classification is periodically revised to meet the changing needs of commerce and is also periodically reissued to minimize the difficulties which accompany excessive supplementation of tariff material, and accordingly the present classification is being reissued as National Motor Freight Classification A-10, with an effective date of July 1, 1968. Applicants assert that the procedures available to shippers and carriers to initiate such revisions, to participate in their disposition and to protect their interests are generally known to the parties involved. Applicants aver that reissue of the Governing Classification, if authorized by this Commission, would permit maintenance of uniformity of classification provisions between California and the other states.

A review of applicants' requested revisions indicates that they pertain principally to (1) format of classification; (2) correction of publishing errors and omissions; (3) clarification of existing descriptions of articles; (4) cancellation of obsolete provisions; and (5) establishment of specific ratings for newly designed or manufactured articles. Such changes are within the framework of the criteria⁴ heretofore outlined by this Commission.

Applicants declare that they are informed and believe that the current effective National Motor Freight Classification A-9 and its California Supplement will become obsolete, and its utilization impractical, upon the issuance of National Motor Freight Classification A-10 and its California Supplement, and that the currently effective classifications should be discontinued as the Governing Classifications for various Commission minimum rate tariffs.

⁴

See Decision No. 68324 in Case No. 5432, et al., 63 Cal.P.U.C. 728; Decision No. 68711 in Case No. 5432, et al., 64 Cal.P.U.C. 146; also Decisions Nos. 70287, 70335, 70656, 70828, 70960, 71183, 71200, 71405, 71531, 71730, 72027, 72289, 72438, 72589, 72740, 72885, 73099, 73234, 73407, 73604, 73731 and 73994, all issued in Case No. 5432, et al., unreported.

Applicants suggest, to protect the interests of all parties, that the effective date of any order issued herein should be thirty days after the date of the decision. This would provide ample opportunity for any interested party to advise applicants and the Commission concerning those items which might require separate and further consideration without unduly delaying the effectiveness of all the other classification changes which, applicants assert, are necessary and desirable and concerning which there is no question or dispute.

Petitioner states that shipments of cement transported under the provisions of Minimum Rate Tariff No. 10 are best described in terms set forth therein, that continued reference in the above tariff to the Governing Classification represents an unnecessary technical burden and that the cement shippers and carriers concur in the proposed elimination of such reference.

Copies of the application and petitions were mailed to various chambers of commerce, shipper organizations, carrier representatives and other interested parties on or about April 18, 1968. The application and petitions were listed on the Commission's Daily Calendar of April 25, 1968. No objection to the granting of the application and petitions has been received.

In the circumstances, it appears, and the Commission finds, that:

1. The ratings and rules named in National Motor Freight Classification A-10(CAL) as governed by National Motor Freight Classification A-10, as proposed by applicant and petitioner herein, should replace National Motor Freight Classification A-9(CAL) as governed by National Motor Freight Classification A-9.

2. The proposed classification revisions set forth in Application No. 50188 are reasonable and, to the extent that said ratings and rules will result in increases, such increases are justified.

3. Common carriers named in Application No. 50188 should be authorized to adopt National Motor Freight Classification A-10 and National Motor Freight Classification A-10(CAL) in lieu of National Motor Freight Classification A-9 and National Motor Freight Classification A-9(CAL).

4. The proposed ratings and rules which applicant will be authorized to establish, except to the extent that said ratings and rules are different from and are superseded by present exceptions contained in the respective minimum rate tariffs and the governing exception ratings tariff, are suitable to govern the minimum rates established by the Commission.

5. The rates and charges resulting from the application of the aforesaid ratings and rules are, and for the future will be, the just, reasonable, and nondiscriminatory minimum rates for the transportation of property by city carriers and highway carriers subject to the applicable minimum rate tariffs.

Based on the above findings, the Commission concludes that the proposed classification changes set forth in Application No. 50188 should be authorized and that such ratings and rules should be adopted and approved, to the extent indicated in the ensuing order, to govern the minimum rates established by the Commission. The Commission further concludes that participating common carriers in National Motor Freight Classification A-10 and A-10(CAL) should be authorized to depart from the provisions of Section 460 of the Public Utilities Code, to the extent necessary to adjust long- and short-haul departures now maintained under outstanding authorizations.

The necessary amendments to Minimum Rate Tariff No. 2 will be made in the order which follows. Amendments to the other minimum rate tariffs and to Exception Ratings Tariff No. 1 will be made by separate orders to avoid duplication of tariff distribution. The order which follows should be made effective thirty days after the date hereof and the earliest effective date of the tariff publications involved should be July 1, 1968.

To facilitate publication of authorized changes in Minimum Rate Tariff No. 2, other minimum rate tariffs and Exception Ratings Tariff No. 1, tariff changes not directly related to the instant proceeding will be included with the tariff pages revised by the order herein.

IT IS ORDERED that:

1. National Motor Freight Traffic Association, Inc., Agent, on behalf of participating common carriers in National Motor Freight Classification A-10(CAL) as governed by National Motor Freight Classification A-10, is authorized to establish and publish the classification ratings and rules set forth in Application No. 50188, to become effective not earlier than July 1, 1968, on not less than five days' notice to the Commission and to the public.

2. Except as otherwise provided in Ordering Paragraph 6 hereof, the classification ratings and rules authorized herein are approved and adopted as the just, reasonable and nondiscriminatory ratings and rules to govern the minimum rates and rules promulgated by the Commission in City Carriers' Tariff No. 1-A and Minimum Rate Tariffs Nos. 1-B, 2, 5, 9-B and 11-A.

3. Tariff publications required to be made by common carriers as a result of Ordering Paragraph 2 hereof may be made effective not earlier than July 1, 1968, on not less than five days' notice to the Commission and to the public and such tariff

publications shall be made effective not later than August 30, 1968; and tariff publications which are authorized but not required to be made by common carriers as a result of Ordering Paragraph 2 hereof may be made effective not earlier than July 1, 1968, and may be made effective on not less than five days' notice to the Commission and to the public if filed within sixty days of the effective date of the tariff publications authorized in Ordering Paragraph 1 hereof.

4. The classification ratings and rules authorized to be established by Ordering Paragraph 2 hereof are authorized to be made applicable also for the transportation of:

- (a) Commodities for which minimum rates have not been established, or
- (b) Commodities which are subject to higher rates than, or more restrictive provisions than, the minimum rates or provisions otherwise applicable.

5. Any provisions currently maintained in common carrier tariffs, which are more restrictive than, or which produce charges greater than, those contained in City Carriers' Tariff No. 1-A and Minimum Rate Tariffs Nos. 1-B, 2, 5, 9-B and 11-A, are authorized to be maintained in connection with the ratings and rules authorized and directed to be established herein.

6. Except as provided in Ordering Paragraph 5 hereof, common carriers are not authorized to publish ratings and rules which are different from, and are superseded by, present exceptions contained in Exception Ratings Tariff No. 1, City Carriers' Tariff No. 1-A and Minimum Rate Tariffs Nos. 1-B, 2, 5, 9-B and 11-A.

7. Minimum Rate Tariff No. 2 (Appendix D to Decision No. 31606, as amended) is hereby further amended by incorporating therein, to become effective July 1, 1968, Thirty-third Revised Page 11 and Eighth Revised Page 35-B, attached hereto and by this reference made a part hereof.

8. Common carriers, in establishing and maintaining the ratings and rules authorized hereinabove, are hereby authorized to depart from the provisions of Section 460 of the Public Utilities Code to the extent necessary to adjust long- and short-haul departures now maintained under outstanding authorizations; such outstanding authorizations are hereby modified only to the extent necessary to comply with this order; and schedules containing the ratings and rules published under this authority shall make reference to the prior orders authorizing long- and short-haul departures and to this order.

9. In all other respects, Decision No. 31606, as amended, shall remain in full force and effect.

The effective date of this order shall be thirty days after the date hereof.

Dated at San Francisco, California, this 21st day of May, 1968.
