OPINION AND ORDER

Various common carriers participate in National Motor Freight Classification A-10 (CAL) as governed by National Motor Freight Classification A-10, hereinafter referred to as the Governing Classification, for class ratings and other provisions. Also, certain Commission minimum rate tariffs are subject to the class ratings and/or other provisions of such classification.

By Application No. 50280, National Motor Freight Traffic Association, Inc., Agent, seeks authority, on behalf of such common carriers, to publish specific revisions in the Governing Classification

to become effective July 1 and August 2, 1968, concurrently with the national effective dates for such revisions.¹ By the above petitions, California Trucking Association seeks to have the ratings and other provisions in the Governing Classification similarly revised to govern the minimum rates and rules in certain Commission minimum rate tariffs.² Petitioner requests that all common carriers be directed to establish in their respective tariffs such modifications as may be prescribed by the Commission's order in these proceedings, including relief from the long- and short-haul provisions of Section 460 of the Public Utilities Code.

Applicant and petitioner, hereinafter referred to as applicants, state that the Governing Classification is periodically revised to meet the changing needs of commerce. Applicants aver that the procedures available to shippers and carriers to initiate such revisions, to participate in their disposition and to protect their interests are generally known to the carriers and shippers. Applicants allege that the sought revisions have been authorized by the National Classification Board, after due process, and are generally scheduled to become effective July 1 and August 2, 1968, for tariffs covering areas other than California and that such revisions,

1

The changes proposed for July 1, 1968, which are set forth in Exhibit D, are intended to correct errors in the classification proper and to prevent them from going into effect. The other changes, which are provided in Supplements 2 to the Governing Classification, are set forth in Exhibits A and B and the related justifications in Exhibit C. All of the above exhibits are attached to the application.

2

The tariffs are Minimum Rate Tariffs Nos. 1-B (East Bay Drayage), 2 (General Commodities Statewide), 5 (Los Angeles Drayage), 9-B (San Diego Drayage) and 11-A (Uncrated New Furniture Statewide) and City Carriers' Tariff No. 1-A (San Francisco Drayage) and Exception Ratings Tariff No. 1.

if authorized, would permit maintenance of uniformity of classification provisions between California and the rest of the nation.

A review of applicants' proposed revisions indicates that they pertain principally to (1) format of classification; (2) correction of publishing errors and omissions; (3) clarification of existing descriptions of articles; (4) cancellation of obsolete provisions; and (5) establishment of specific ratings for newly designed or manufactured articles. Such changes are within the framework of the criteria heretofore announced by this Commission for establishing revisions in the Governing Classification on California intrastate traffic.³

Copies of the application and petitions were mailed to various chambers of commerce, shipper organizations, carrier representatives and other interested parties on or about May 31, 1968. The application and petitions were listed on the Commission's Daily Calendar of June 3, 1968. No objection to the granting of the application and petitions has been received.

In the circumstances, it appears, and the Commission finds, that:

1. The proposed classification revisions set forth in Application No. 50280 are reasonable and, to the extent that said ratings and rules will result in increases, such increases are justified.

3

See Decision No. 68324 in Case No. 5432, et al., 63 Cal.P.U.C. 728; Decision No. 68711 in Case No. 5432, et al., 64 Cal.P.U.C. 146; also Decisions Nos. 70287, 70335, 70656, 70828, 70960, 71183, 71200, 71405, 71531, 71730, 72027, 72289, 72438, 72589, 72740, 72985, 73099, 73234, 73407, 73604, 73731, 73994, 74150 and 74214, all issued in Case No. 5432, et al., unreported.

2. The proposed ratings and rules which applicant will be authorized to establish, except to the extent that said ratings and rules are different from and are superseded by present exceptions contained in the respective minimum rate tariffs and the governing exception ratings tariff, are suitable to govern the minimum rates established by the Commission.

3. The rates and charges resulting from the application of the aforesaid ratings and rules are, and for the future will be, the just, reasonable and nondiscriminatory minimum rates and charges for the transportation of property by city carriers and highway carriers subject to the applicable minimum rate tariffs.

Based on the above findings, the Commission concludes that the proposed classification changes set forth in Application No. 50280 should be authorized and that such ratings and rules should be adopted and approved, to the extent indicated in the ensuing order, to govern the minimum rates established by the Commission. The Commission further concludes that participating common carriers in applicant's National Motor Freight Classifications A-10 and A-10 (CAL) should be authorized to depart from the provisions of Section 460 of the Public Utilities Code, to the extent necessary to adjust long- and short-haul departures now maintained under outstanding authorizations.

IT IS ORDERED that:

1. National Motor Freight Traffic Association, Inc., Agent, on behalf of participating common carriers in National Motor Freight Classification A-10 (CAL) as governed by National Motor Freight Classification A-10, is authorized to establish and publish

(1) the classification ratings and rules set forth in Exhibit D, attached to Application No. 50280, to become effective not earlier than July 1, 1968, and (2) the classification ratings and rules set forth in Exhibits A and B, attached to said Application No. 50280, to become effective August 2, 1968, on not less than one day's notice to the Commission and to the public.

2. Except as otherwise provided in Ordering Paragraph 6 hereof, the classification ratings and rules authorized herein are approved and adopted as the just, reasonable and nondiscriminatory ratings and rules to govern the minimum rates and rules promulgated by the Commission in City Carriers' Tariff No. 1-A and Minimum Rate Tariffs Nos. 1-B, 2, 5, 9-B and 11-A.

3. Tariff publications required to be made by common carriers as a result of Ordering Paragraph 2 hereof may be made effective not earlier than July 1 or August 2, 1968, as provided in Ordering Paragraph 1 hereof, on not less than one day's notice to the Commission and to the public and such tariff publications shall be made effective not later than October 1, 1968; and tariff publications which are authorized but not required to be made by common carriers as a result of Ordering Paragraph 2 hereof may be made effective not earlier than July 1 or August 2, 1968, as provided in Ordering Paragraph 1 hereof, and may be made effective on not less than one day's notice to the Commission and to the public if filed not later than September 30, 1968.

4. The classification ratings and rules authorized to be established by Ordering Paragraph 2 hereof are authorized to be made applicable also for the transportation of:

- (a) Commodities for which minimum rates have not been established, or
- (b) Commodities which are subject to higher rates than, or more restrictive provisions than, the minimum rates or provisions otherwise applicable.

5. Any provisions currently maintained in common carrier tariffs which are more restrictive than, or which produce charges greater than, those contained in Exception Ratings Tariff No. 1, City Carriers' Tariff No. 1-A and Minimum Rate Tariffs Nos. 1-B, 2, 5, 9-B and 11-A, are authorized to be maintained in connection with the ratings and rules authorized and directed to be established herein.

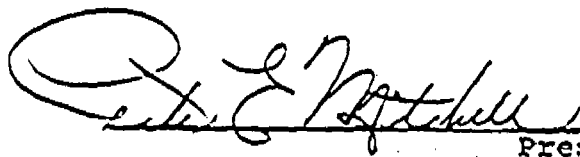

6. Except as provided in Ordering Paragraph 5 hereof, common carriers are not authorized to publish ratings and rules which are different from, and are superseded by, present exceptions contained in Exception Ratings Tariff No. 1, City Carriers' Tariff No. 1-A and Minimum Rate Tariffs Nos. 1-B, 2, 5, 9-B and 11-A.

7. Common carriers, in establishing and maintaining the ratings and rules authorized hereinabove, are hereby authorized to depart from the provisions of Section 460 of the Public Utilities Code to the extent necessary to adjust long- and short-haul departures now maintained under outstanding authorizations; such outstanding authorizations are hereby modified only to the extent necessary to comply with this order; and schedules containing the

ratings and rules published under this authority shall make reference to the prior orders authorizing long- and short-haul departures and to this order.

The effective date of this order shall be June 28, 1968.

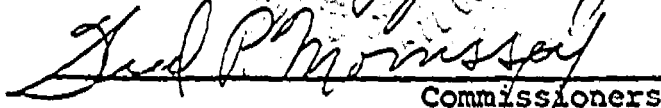

Dated at San Francisco, California, this 10th day of June, 1968.

President

Commissioners

Commissioner William M. Bennett, being necessarily absent, did not participate in the disposition of this proceeding.
