Case No. 5435
(Petition for Modification
No. 107)
(Filed June 26, 1968)

SUPPLEMENTAL INTERIM OPINION AND ORDER

By Decision No. 74449, entered today in Case No. 7858 (Petition for Modification No. 40), et al., the Commission found that the class rates, exception ratings and rules in its four drayage tariffs should be redesignated, effective September 1, 1968, to conform with the truck-oriented ratings and rules in National Motor Freight Classification A-10 and that such classification should supersede National Motor Freight Classification A-10(CAL), which sets forth therein rail-oriented ratings and rules.

The above decision also provided that the necessary amendments in Minimum Rate Tariff No. 5 should be made by separate order to avoid duplication of tariff distribution.

IT IS ORDERED that:

1. Minimum Rate Tariff No. 5 (Appendix A of Decision No. 32504, as amended) is hereby further amended by incorporating

therein, to become effective September 1, 1968, the revised pages attached hereto and listed in Appendix A, also attached hereto, which pages and appendix by this reference are made a part hereof.

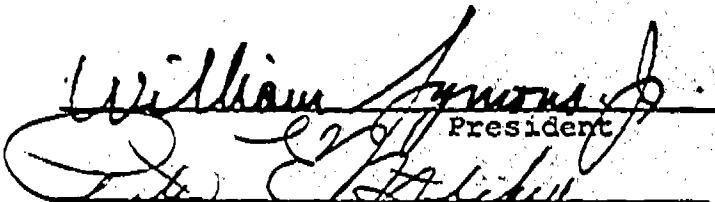

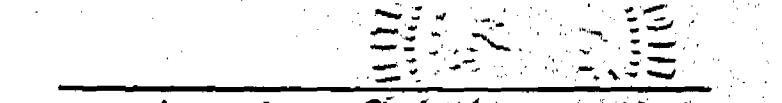

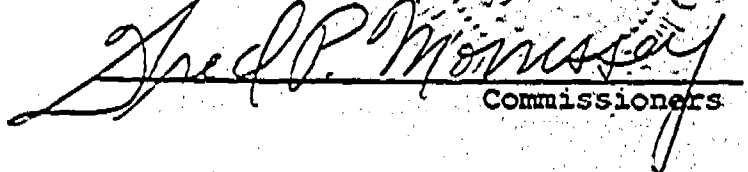

2. Tariff publications resulting in increases required or authorized to be made by common carriers as a result of the order herein shall be filed not earlier than the effective date of this order and may be made effective not earlier than September 1, 1968, on not less than ten days' notice to the Commission and to the public; such tariff publications as are required shall be made effective not later than September 1, 1968; as to increases which are authorized but not required, the authority herein granted shall expire unless exercised within sixty days after the effective date of this order; and tariff publications resulting in reductions may be made effective not earlier than September 1, 1968, on not less than ten days' notice to the Commission and to the public if filed not later than sixty days after the effective date of the minimum rate tariff pages incorporated in this order.

3. Common carriers, in establishing and maintaining the rates authorized hereinabove, are hereby authorized to depart from the provisions of Section 460 of the Public Utilities Code to the extent necessary to adjust long- and short-haul departures now maintained under outstanding authorizations; such outstanding authorizations are hereby modified only to the extent necessary to comply with this order; and schedules containing the rates published under this authority shall make reference to the prior orders authorizing long- and short-haul departures and to this order.

4. In all other respects Decision No. 32504, as amended, shall remain in full force and effect.

The effective date of this order shall be August 9, 1968.

Dated at San Francisco, California, this 23rd day of July, 1968.

President

Commissioners

Commissioner A. W. Gatov, being necessarily absent, did not participate in the disposition of this proceeding.
