SUPPLEMENTAL INTERIM OPINION AND ORDER

By Decisions Nos. 74449 and 74450, dated July 23, 1968, in this proceeding, the Commission found that the class rates, exception ratings and rules in Minimum Rate Tariff No. 1-B should be redesignated effective September 1, 1968, to conform with the truck-oriented ratings and rules in National Motor Freight Classification A-10 and that such classification should supersede National Motor Freight Classification A-10 (CAL), which sets forth therein rail-oriented ratings and rules.

It has come to the Commission's attention that the tariff pages attached to Decision No. 74450 do not fully reflect¹ the authority granted by Decisions Nos. 74449 and 74450.

In the circumstances, it appears, and the Commission finds, that the necessary corrections should be made by the order herein. A public hearing is not necessary. The Commission concludes that Minimum Rate Tariff No. 1-B should be amended accordingly.

¹

Through inadvertence, the progression of the classes above Class 100 and the exception ratings on paper bags as set forth in Items Nos. 290 and 380, respectively, of Minimum Rate Tariff No. 1-B were not canceled.

IT IS ORDERED that:

1. Minimum Rate Tariff No. 1-B (Appendix B of Decision No. 65834, as amended) is hereby further amended by incorporating therein, to become effective September 1, 1968, First Revised Page 27-A and Tenth Revised Page 30 attached hereto and by this reference made a part hereof.

2. Tariff publications required to be made by common carriers as a result of the order herein shall be filed not earlier than the effective date of this order and shall be made effective not earlier than the second day after the effective date of this order on not less than two days' notice to the Commission and to the public and such tariff publications shall be made effective not later than September 1, 1968; and tariff publications which are authorized but not required to be made by common carriers as a result of the order herein shall be filed not earlier than the effective date of this order and may be made effective not earlier than the second day after the effective date of this order on not less than two days' notice to the Commission and to the public if filed not later than sixty days after the effective date of the minimum rate tariff pages incorporated in this order.

3. Common carriers, in establishing and maintaining the provisions authorized hereinabove, are hereby authorized to depart from the provisions of Section 460 of the Public Utilities Code to the extent necessary to adjust long- and short-haul departures now maintained under outstanding authorizations; such outstanding authorizations are hereby modified only to the extent necessary to comply with this order; and schedules containing the provisions published under this authority shall make reference to the prior orders authorizing long- and short-haul departures and to this order.

4. In all other respects, Decisions Nos. 65834, as amended, and 74450 shall remain in full force and effect.

This order shall become effective on the date hereof.

Dated at San Francisco, California, this 28th day of August, 1968.
