Case No. 5432
 Petition for Modification
 No. 518
 (Filed November 1, 1968)

OPINION AND ORDER

A & B Garment Delivery of San Francisco, a corporation,
 operates as a highway common carrier for the transportation of wearing
 apparel and related articles (hereinafter referred to as wearing apparel),
 as well as general commodities when accompanying shipments of wearing
 apparel, between points in an area generally encompassed by Santa Rosa,
 Sacramento, Modesto, San Jose and San Francisco.¹

By Decision No. 73405, dated November 28, 1967, in Case No. 5432
 (Petition for Modification No. 479), petitioner was authorized to publish
 a vehicle unit rate of \$9.85 per hour for the transportation of general
 commodities between certain retail stores and warehouses of such stores,
 limited to shipments of 8,500 pounds or less and subject to other speci-
 fied conditions. The currently published rate is scheduled to expire with
 December 25, 1968.

¹

It also holds permits to operate as a radial highway common carrier and
 highway contract carrier which are not involved in this proceeding.

By this petition, authority is sought to continue to maintain the vehicle unit rate for a further period of one year, but to increase the currently authorized rate from \$9.85 to \$10.50 per hour. Petitioner requests permission to publish and file the proposed rate on less than statutory notice and to depart from the long- and short-haul provisions of Section 460 of the Public Utilities Code to the extent necessary to place the proposed rate in effect.

According to the petition, the operation involved was initiated because of demands of one of petitioner's largest customers for a specialized transportation service particularly suited to its needs. Revenues received from this shipper represent a substantial portion of petitioner's gross income. Allegedly, if petitioner is not able to furnish the required service, the traffic will be diverted to a competitive carrier whose operation is exempt from the rates in Minimum Rate Tariff No. 2. Petitioner has been assured of the continuance of service for this shipper if the authority requested herein is granted. The petition shows that several other department and clothing stores have since availed themselves of petitioner's service for their interbranch store transfers after having formerly transported such shipments in their own equipment.

Petitioner alleges that, except for increases in labor costs and fixed expenses and a decrease in running costs per mile, the conditions upon which its prior request for such authority were predicated continue to exist and that, under the increased hourly rate proposed herein, it will receive a satisfactory return from the operation during the forthcoming year.

Revenue and expense data submitted by petitioner indicate that the transportation involved has been profitable and reasonably may be

expected to be profitable during the ensuing year.

Copies of the petition were mailed to California Trucking Association and Draymen's Association of San Francisco, Inc., on or about November 1, 1968. The petition was listed on the Commission's Daily Calendar of November 6, 1968. No objection to the granting of the petition has been received.

In the circumstances, it appears, and the Commission finds, that, for the services involved herein, the proposed vehicle unit rate of \$10.50 per hour and the maximum weight limit of 8,500 pounds are reasonable and justified by transportation conditions. A public hearing is not necessary. The Commission concludes that the petition should be granted.

In view of the impending expiration date of the current authority, the order which follows will be made effective December 20, 1968.

IT IS ORDERED that:

1. A & B Garment Delivery of San Francisco is hereby authorized to establish and publish, to expire with December 25, 1969, the vehicle unit rate specified, and subject to the limitations and conditions set forth, in Appendix A attached hereto and by this reference made a part hereof.

2. Tariff filings authorized to be made as a result of the order herein shall be filed not earlier than the effective date of this order and may be made effective not earlier than five days after the effective date of this order on not less than five days' notice to the Commission and to the public.

3. A & B Garment Delivery of San Francisco is hereby authorized to depart from the long- and short-haul provisions of Section 460 of the Public Utilities Code to the extent necessary to exercise the authority granted herein. Schedules containing the rate published under this authority shall make reference to this order.

This order shall become effective December 20, 1968.

Dated at San Francisco, California, this 10th day of December, 1968.

Commissioners

Commissioner William M. Bennett, being necessarily absent, did not participate in the disposition of this proceeding.
