Decision No. 75101

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application of  
COAST DRAYAGE, a corporation,  
for an order amending its certificate  
of public convenience and necessity  
authorizing highway common carrier  
service to except therefrom trans-  
portation of sodium (soda) hypochlorite  
solution.

Application No. 50476  
(Filed August 13, 1968)

O P I N I O N

Applicant is a highway common carrier authorized to transport general commodities, with limited exceptions, between all points on and adjacent to specified routes extending from Santa Rosa and Sacramento, on the north, to Salinas and Merced, on the south, including substantially all points intermediate thereto. Coast Drayage also holds radial highway common carrier, highway contract carrier and city carrier permits.

Applicant now requests that its certificates be amended by excluding therefrom the transportation of sodium hypochlorite solution originating at the plant of The Clorox Company, Oakland, California, except when transported in mixed shipments with authorized commodities, or when tendered to a water, rail or motor carrier for further transportation, and empty pallets, when returning to said plant which was the origin of the outbound palletized shipment.

It is alleged that the excluded commodity will still be carried by applicant as a permitted carrier; the volume of freight hauled for the shipper is sufficient to reduce the applicant's cost

in providing the service and the charge will be less than the rate provided in the tariff used by the applicant as a certificated carrier; applicant will apply in the future for authority to charge less than the rate provided in Minimum Rate Tariff No. 2 under Section 3666 of the Public Utilities Code as soon as sufficient data is obtained to show the cost of hauling the commodity.

The application was listed on the Commission's Daily Calendar of August 14, 1968. No protests have been received.

After consideration the Commission finds that the proposed exclusion would not be adverse to the public interest. A public hearing is not necessary.
