Act on transportation for the)

OPINION AND ORDER

Dart Transportation Service holds radial highway common carrier and highway contract carrier permits. By Decision No. 73427 dated December 5, 1967, in Application No. 49780, it was authorized to charge rates less than the minimum rates otherwise applicable for the transportation of property for Sears, Roebuck and Co. The transportation applies from shipper's consolidation station located in Los Angeles, to its retail stores and retail store warehouses located in various specified cities throughout the State. The current authority is scheduled to expire with January 1, 1969.

By this application, applicant seeks an extension of the current rate authority for a further one-year period. It also proposes to increase the currently authorized rates, as specifically indicated in Appendix A of the application, to offset increases in¹ the cost of labor which became effective April 1, 1968.

¹

No authority for the proposed increase in rates is required from this Commission inasmuch as applicant performs the service as a permitted carrier for which only minimum rates have been established.

Applicant alleges that, except for increased costs, the conditions surrounding the transportation in question, which justified the granting of the current minimum rate deviation, still exist and that the proposed rates give recognition to cost increases.

Applicant avers that the operations performed under this authority are entirely satisfactory to itself and the shipper, Sears, Roebuck and Co. Applicant is desirous of retaining this business, which represents a substantial portion of its overall revenue, and considers the rates proposed herein to be reasonable for the transportation service involved.

Revenue and expense data submitted by applicant indicate that the transportation involved has been profitable and reasonably may be expected to be profitable for the ensuing year.

The verified application shows that copies thereof were mailed to Sears, Roebuck and Co. and California Trucking Association on November 15, 1968. The application was listed on the Commission's Daily Calendar of November 27, 1968. No objection to the granting of the application has been received.

In the circumstances, it appears, and the Commission finds, that the proposed rates are reasonable. A public hearing is not necessary. The Commission concludes that the application should be granted. In view of the impending expiration date of the current authority, the order which follows will be made effective January 1, 1969.

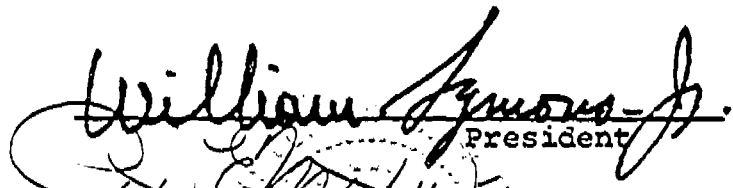

IT IS ORDERED that:

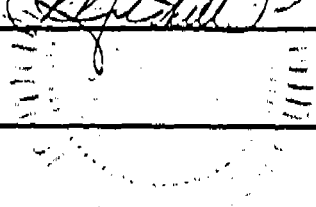

1. Dart Transportation Service, a corporation, is hereby authorized to transport property for Sears, Roebuck and Co. at rates less than the established minimum rates but not less than those set forth, and subject to the provisions shown, in Appendix A attached hereto and by this reference made a part hereof.

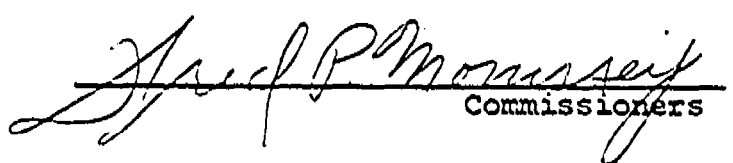

2. The authority herein granted shall, on and after January 1, 1969, supersede the authority granted by Decision No. 73427 and shall expire with January 1, 1970.

The effective date of this order shall be January 1, 1969.

Dated at San Francisco, California, this 20th day of December, 1968.
