OPINION AND ORDER

Minimum Rate Tariff 17 sets forth zone rates for the transportation of rock, sand, gravel and other specified commodities in dump truck equipment by for-hire carriers from defined production areas to designated delivery zones within certain areas of southern California and area-to-point rates from such production areas to designated points within the delivery zones. By this petition, Southern California Rock Products Association seeks to have Minimum Rate Tariff 17 amended by correcting and deleting numerous designated delivery points.<sup>1</sup> Petitioner further proposes that the Commission staff may find it appropriate to review, for corrections or deletions, the remaining points which are not listed in its petition but which are included within the list of delivery points to which the area-to-point rates are applicable.

According to petitioner, the proposed tariff amendments are necessary (1) to correct errors; (2) to reflect changes in street numbering and/or naming systems and names of consignees; and (3) to meet the need for more precise delivery point designations.

<sup>1</sup> The proposed corrections and deletions are listed in Appendix A attached to the application.

Petitioner avers that the proposed corrections do not result in physical or geographical changes to the delivery points in question and that the proposed deletions involve delivery points where the consignees' facilities are no longer in operation.

On December 30, 1968, there was sent to interested parties for study and comment a report prepared by the Commission's Transportation Division Freight Economics Branch containing proposed revisions in the list of delivery-point locations in Minimum Rate Tariff 17 to which area-to-point rates are applicable. The parties were informed that, in the absence of substantial objection, but subject to possible modifications suggested by the parties, consideration would be given to the issuance of an ex parte order revising the tariff in accordance with the staff report recommendations.

By letter dated January 2, 1969, Vernon Asphalt Materials Co. requests a change in the street address of its plant in Vernon and the addition of its facilities in Inglewood and Gardena to the list of delivery points to which area-to-point rates are applicable. The street address will be corrected as requested. Inasmuch as the petition in question does not involve additional delivery points but is limited in scope to updating delivery points currently designated in Minimum Rate Tariff 17, such request will not be considered in this proceeding.

By letter dated January 3, 1969, Consolidated Rock Products Co. (Consolidated) objects to the staff's proposal that its facility at 22432 South Vermont Avenue, Torrance (P.O.), be deleted as a delivery point on the grounds that such facility,

though not currently in operation due to business conditions, has not been abandoned. Consolidated anticipates that conditions will be favorable for renewed operations in the near future and states that its facility is capable of operational status within 24 hours. In view of these circumstances, the street address of the aforementioned facility will not be deleted and the staff proposal will be modified accordingly.

The staff report and above letters with staff replies thereto, are received in evidence in this proceeding as Ex Parte Exhibit Nos. 1 and 2, respectively.

Copies of the petition were mailed to interested parties on November 14, 1968. The petition was listed on the Commission's Daily Calendar of November 19, 1968. California Dump Truck Owners Association has informed the Commission by letter that it supports petitioner's proposal. No objection to the granting of the petition has been received.

In the circumstances, it appears, and the Commission finds, that the tariff changes proposed by petitioner and those recommended in the staff exhibit, as herein modified, are reasonable and justified. A public hearing is not necessary. The Commission concludes that Minimum Rate Tariff 17 should be amended as provided in the order which follows.

IT IS ORDERED that:

1. Minimum Rate Tariff 17 (Appendix B of Decision No. 69469, as amended) is hereby further amended by incorporating

therein, to become effective March 22, 1969, the revised pages attached hereto and listed in Appendix A also attached hereto and by this reference made a part hereof.

2. In all other respects Decision No. 69469, as amended, shall remain in full force and effect.

The effective date of this order shall be twenty-four days after the date hereof.

Dated at San Francisco, California, this 11<sup>th</sup> day of February, 1969.

William S. Brown  
President
