Decision No.

75520

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Investigation into the rates, rules, regulations, charges, allowances, and practices of all common carriers, highway carriers and city carriers relating to the transportation of any and all commodities between and within all points and places in the State of California (including, but not limited to, transportation for which rates are provided in Minimum Rate Tariff No. 2),

Case No. 5432)Petition for Modification No. 523 (Filed December 10, 1968)

In the Matter of Application for authority to make effective increases in certain railroad rates and charges.

Application No. 50757 (Filed December 18, 1968)

A. D. Poe, J. C. Kaspar and H. F. Kollmyer, for Cali-fornia Trucking Association, petitioner. Larry W. Telford, for Pacific Southcoast Freight Bureau,

Larry W. Tellord, for recurse Southeeuter applicant. Eric K. Anderson, C. J. Boddington, Charles Carbonaro, Harold F. Culy, R. D. Davis, T. R. Dwyer, K. C. Ellis, M. L. Frost, W. N. Greenham, Armand Karp, Norman Kirman, A. J. Konicki, Daniel A. Marshall, J. McSweeney, John Odoxta, Lee Pfister, James L. Roney, George E. Sloat, Richard D. Stokes, Peter Vinick, Jack W. Vogt, for various highway carriers, respondents. Joseph Barker Philip C. Blackmore, Asa Button, Charles Joseph Barker, Philip G. Blackmore, Asa Button, Charles <u>H. Caterino, K. C. Fels, Gordon G. Zeller, for various organizations, associa-tions and shippers, interested parties. R. J. Carberry and John R. Laurie, for the Commission statt.

INTERIM CPINION

Ey Petition for Modification No. 523, the California Trucking Association (CTA) seeks an increase of approximately four percent in the rates and charges named in Minimum Rate Tariff No. 2,

đs

Zoverning the statewide transportation of general commodities by highway carriers. By Application No. 50757, the Pacific Southcoast Freight Bureau (PSFB), on behalf of the California railroads, requests authority to increase certain rates and charges published in PSFB Tariffs Nos. 1016, 294-E and 300-A commensurate with the increase sought by the CTA in Petition No. 523. These matters were consolidated for hearing on a common record.

Public hearings were held before Examiner Gagnon at San Francisco on January 6, 1969 and at Los Angeles on January 20 and 21, 1969. Evidence was presented by petitioner and applicant only. The Commission staff submitted a motion that either the sought relief be consolidated with the staff's full-scale cost and rate proposals currently pending before the Commission or, alternatively, that Petition No. 523 be denied. The motion was vigorously opposed by petitioner and received no affirmative support from other interested parties. The matter now stands submitted for decision. Petition No. 523

Minimum Rate Tariff No. 2 (MRT 2) established rates and charges reflecting carrier labor costs and allied payroll expenses in effect as of April 1, 1968. Since the last revision in rates, the CTA states that the cost of transporting property by motor vehicle under the provisions of MRT 2 has increased substantially, especially as of April 1, 1969 when wage rates and related so-called fringe benefits were increased pursuant to annual wage provisions

-2-

^{1/} Order Setting Hearing of 8-31-65, in Case No. 5432. Order Setting Hearing of 10-5-65, in Case No. 7858.

^{2/} The last general rate adjustment in MRT 2 was effective on April 27, 1968, pursuant to Decision No. 73816 of March 5, 1968.

contained in labor contracts negotiated for the period 1967 to 1970. Such agreements affect substantially all categories of employees of highway carriers. Basic hourly wage rates were increased 15 cents per hour. Petitioner also made reference to a 3-cent per hour increase for cost of living allowance, not previously reflected in prior MRT 2 supporting cost studies, plus an additional 4-cent per hour cost of living adjustment, effective April 1, 1969 under provisions of existing labor agreements. Recent increases in highway carrier contributions to the Federal Social Security program and other related payroll taxes were also explained, as was the reduction in California Workmen's Compensation rates.

The director for the CTA's Division of Transportation Economics submitted evidence showing the various increases in direct labor and allied payroll expenses which the carriers have experienced since the MRT 2 rates were last generally adjusted. The director explained that he took cost information previously accepted by the Commission (Decision No. 73816) and substituted the April 1, 1969 labor and related payroll cost factors for those used in the April 1, 1968 computations. From the revised cost calculations the percentage increases in 1969 operating costs over the 1968 operating experience of record were determined. The resulting percentage increases in costs were then utilized as the datum plane for increasing the MRT 2 rates and charges.

The CTA presented a financial study of the operating results of some 83 highway carriers known to be predominantly engaged in transportation subject to MRT 2. The study developed consolidated operating ratios for the selected carriers, before provisions for income taxes, as follows:

-3-

TABLE I

Year	Operating	Operating	Operating
	Revenues	Expenses	<u>Ratio</u>
1964	\$190,345,415	\$183,\$70,791	96.7%
1965	201,755,004	195,308,414	96.8
1966	215,613,996	209,305,233	97.1
1967	208,298,485	206,587,716	99.2
1962*	107,163,484	105,375,459	98.3

* Computations are for the first half of 1968 and omit 5 selected carriers for whom financial statements were not available.

Table I above indicates that the April 1, 1968 cost offset increase authorized by this Commission produced additional revenues sufficient to defray only the added labor and allied payroll costs actually being experienced by the carriers at that time.

The CTA also presented its estimate of the impact of the 1969 wage adjustment upon the operating revenues of the MRT 2 selected highway carriers. From an analysis of the payroll and related accounting records of the carriers, the CTA developed that the 1969 wage adjustment would increase operating expenses by 3.49 percent. To further demonstrate the dollar impact of the 1969 wage increase, the CTA also submitted a profit and loss summary of the selected highway carriers for the last six months of 1967, modified to reflect the effects of the 1969 wage increase. The results of the CTA's analysis are set forth in Table II.

-4-

TABLE II

Estimate of the Impact of the April 1, 1969 Wage Increase Upon the Operating Results of Minimum Rate Tariff No. 2 Selected Highway Carriers, Based Upon Operating Revenues And Expenses for the Last Six Months of 1967, Modified to Reflect the 1969 Wage Increase

<u>Actual</u>

1. 2. 3.	Operating Revenues Operating Expenses Operating Ratio	\$109,007,832 106,553,569	97,8%
Modifi	cation		
4.	Provision for Labor Increases (3.49%)	\$ 3,718,720	
As Mod	lified		
5. 6. 7.	Operating Revenues Operating Expenses Operating Ratio	\$109,007,832 110,272,289	101.2%

The above tabulation suggests that the revenues of highway carriers operating under MRT 2 would have been more than absorbed by the April 1, 1969 wage adjustment and that the operations of such carriers for the same period would have been conducted at something slightly less than the so-called "break-even" point should the relief sought herein be denied.

Wage (Cost) Offset Procedure

The CTA rate proposal was developed by the so-called "offset" or datum plane method whereby the present rates, previously found reasonable by the Commission, are increased by the same percentage increase in the corresponding cost factors. This method is intended to do no more than restore the rates to the same relationships to carrier operating costs as they bore when the rates were initially established.

The present rates in Minimum Rate Tariff No. 2 are predicated upon historical cost data developed by the California

-5-

Trucking Association. In Decision No. 66453, deted December 10, 1963 (62 Cal.P.U.C. 14), the Commission found, in part, that "(1) The study presented by petitioner as Exhibit No. 233-26 is the best evidence available and is lawfully sufficient to serve as a basis for adjustment of rates and charges named in Minimum Rate Teriff No. 2". The Commission also instructed its staff "to -diligently proceed to complete its studies relating to transportation subject to Minimum Rate Tariff No. 2.... " The Commission subsequently has increased the rates established by Decision No. 66453 on five occasions to give effect to increased wage costs and allied payroll expenses. In each instance the prior existing rates found reasonable by the Commission were increased by the so-called "offset" or datum plane method. Evidence developed under this procedure, in support of sought upward adjustments in minimum rates, is appropriate when full-scale cost and rate studies are not available or their presentation in evidence does not appear to be necessary. The Commission is in the process of receiving evidence relative to fullscale cost and rate studies." Extensive hearings have been held and further direct evidence is contemplated. Final consideration of such full-scale cost and rate studies by the Commission is not imminent and cannot reasonably be anticipated in the immediate

3/ Decision No. 67443, dated June 22, 1964 (unreported); Decision No. 69330, dated June 29, 1965 (64 Cal.P.U.C. 443); Decision No. 70963, dated July 15, 1966 (65 Cal.P.U.C. 794); Decision No. 72849, dated August 1, 1967, in Case No. 5432; and Decision No. 73816, dated March 5, 1968, in Case No. 5432.	;	
---	---	--

4/ Case No. 5432 (Order Setting Hearing, dated August 31, 1965) and Case No. 7858 (Order Setting Hearing, dated October 5, 1965).

-6-

future. In the light of these circumstances, utilization of the so-called "offset" method constitutes, in this particular instance, an acceptable procedure.

The Commission's Transportation Division staff is opposed to the CTA's rate proposal to the extent that petitioner's cost offset procedure reflects increases in indirect expenses. Such increases are brought about by the application of established indirect expense ratios to direct cost factors which have been adjusted to reflect the April 1, 1969 wage and payroll increases. Such action by the CTA is assertedly in consonance with the generally accepted theory that "indirects follow direct costs". The staff, on the other hand, in a wage offset proceeding would limit the use of indirect expenses to the same dollar amount used in the historical cost factors underlying the established minimum rates. The staff's position stems from a strict adherence to its understanding of the import of the Commission's letter of October 31, 1968, addressed "To Interested Parties", pertinent portions of which are set forth below:

"TO INTERESTED PARTIES:

'WAGE OFFSET RATE PROCEEDINGS

"In wage offset proceedings, only labor costs specifically changed by labor agreements (including changes responsive to statutory requirements) which are identifiable in the cost development should be measured for proposed rate adjustments.

"Elements of expense other than direct labor, as well as labor costs changed by agreement but not set forth specifically in the original cost presentation, are not deemed appropriate justification for rate adjustments in wage offset proceedings.

"The Commission has approved the foregoing statement." While the aforesaid letter was intended to be only advisory in nature and suggest guidelines for the presentation of

-7-

cost data in wage offset proceedings, its scope of application has been the subject of extensive correspondence. Petitioner's counsel argued that if the letter of October 31, 1968 is to be interpreted and applied in the manner proposed by the staff, and thus preclude presentation of formal evidence as submitted by the CTA in this proceeding, such informal action would not only represent an infringement upon petitioner's right of "due process" but would also be a form of administrative rule making prohibited by law. Councel for CTA submits that the staff's position in this matter is clearly not in harmony with the intent of the Commission.

The questions raised relative to the guidelines set forth in the Commission's informal advisory letter of October 31, 1968 cannot be resolved on the basis of the limited evidence of record to date. A determination as to what elements of expense, other than direct labor costs specifically changed by labor agreements (including changes responsive to statutory agreements) which are identifiable in the underlying basic cost development, are to be considered not appropriate justification for rate adjustments in wage (cost) offset proceedings should be made the subject of further adjourned hearing. In the interim, only that part of CTA's proposed increase relating to the direct cost factors of the original cost presentation underlying the rates in Minimum Rate Tariff No. 2 should be reflected at this time in the statewide minimum rate structure set forth in said tariff. The witness for CIA testified that, should the staff position prevail, reductions in the rate proposal would range from about 1 percent in the any-quantity and small shipment rates to .5 of 1 percent in the truckload rates (.9 of 1 percent overall). Pending the receipt of additional evidence at further adjourned hearings in this matter, the increase in MRT 2 rates and

-8-

charges proposed by petitioner, subject to the reductions noted above, has been shown to be appropriate and justified. <u>Application No. 49927</u>

An official for a California rail line offered testimony and exhibits in support of the PSFB application. Only the rail less-carload class rates are governed by the provisions of Minimum Rate Tariff No. 2. By Decision No. 70771, dated May 24, 1966, (65 Cal.P.U.C. 601) the California rail lines were authorized to cancel their class rates formerly named in Pacific Southcoast Freight Bureau Tariff No. 255-G and to establish in their place the class rates named in Pacific Southcoast Freight Bureau Tariff No. 1016. Said decision ordered that the application of the minimum less-carload charges in Tariff 1016 on California intrastate traffic be not less than those provided in Item 150 of Minimum Rate Tariff No. 2. The rail carriers seek the same increase in minimum charges as sought or ultimately authorized pursuant to Petition No. 523.

Except for these minimum charge provisions, the Californic rail lines' interest in the proceeding is limited to certain rail-truck competitive rates named in Pacific Southcoast Freight Bureau Tariff No. 294-E (Trailer-On-Flat-Car Service) and Tariff No. 300-A (carload commodity rates). The rail witness explained that the trailer-on-flat-car rates (Tariff 294-E) between points in California are generally the same as corresponding Minimum Rate Tariff No. 2 rates except for Classes 35.1 to 35.4, inclusive, where the Class 35 rates are observed as minimum. The rail witness further stated that trailer-on-flat-car service also includes pickup, delivery and substitute over-the-highway services by the railroads' motor carrier affiliates, which experience the same

-9-

increases in costs of performing such services as other motor carriers. Such motor carrier affiliates are members of the CTA and are bound by the new labor agreement negotiated by the trucking association on their behalf.

The rail-truck competitive carload commodity rates named in Tariff No. 300-A were originally published on the basis prescribed by the Commission as minimum for highway carriers for the purpose of meeting highway competition. They have subsequently been increased, under authority of this Commission, on various occasions to the same extent as corresponding increases were made in the competitive motor carrier minimum commodity rates.

In view of the minimum rate provisions governing the alternative use of rail rates by highway carriers and the economic desirability for maintaining an equality of competitive opportunity as between the rail-truck carriers, the Commission has consistently held that the preservation of adequate service requires that the class and commodity rates of the rail carriers be maintained at competitive levels. The record, in this particular instance, supports a similar finding.

Findings and Conclusions

The Commission finds that:

1. The for-hire carriers engaged in transportation subject to Minimum Rate Tariff No. 2 have incurred increases in their direct labor costs and allied payroll expenses generally effective as of April 1, 1969, to the extent set forth in petitioner's exhibits.

2. At present Minimum Rate Tariff No. 2 does not contain provisions for compensating for-hire carriers for such increases in their labor costs and allied payroll expenses.

3. The sought increases in rates and charges, as amended herein, fairly reflect the increases in direct labor and allied payroll cost factors.

4. The proposed increase in the minimum rates and charges, as amended herein, has been shown to be justified, and the reculting increased rates and charges established in the order which follows are the just, reasonable and nondiscriminatory minimum rates for the transportation governed thereby.

5. To the extent that the provisions of Minimum Rate Tariff No. 2 have been found heretofore to constitute reasonable minimum rates and rules for common carriers as defined in the Public Utilities Act, said provisions, as hereinafter adjusted, are, and will be, reasonable minimum rate provisions for said common carriers. To the extent that the existing rates and charges of said common carriers for the transportation involved are less in volume or effect than the minimum rates and charges herein designated as reasonable for said carriers, to the same extent the rates and charges of said carriers are hereby found to be, now and for the future, unreasonable, insufficient, and not justified by the actual competitive rates of competing carriers or by the costs of other means of transportation.

6. In addition to increases in rates and charges in Minimum Rate Tariff No. 2, petitioner requests that common carriers be authorized to make corresponding increases in their rates for the transportation of exempt commodities, commodities which are not subject to the rates in Minimum Rate Tariff No. 2. Such requests have heretofore been found to be justified in those instances in which the exempt commodities are transported at the level of the minimum class rates and under the same transportation conditions as those found applicable to transportation subject to such minimum

-11-

class rates. Inasmuch as the increased costs and transportation conditions demonstrated herein have been shown to also apply to transportation of exempt commodities, we find that the proposed increase in the rates for exempt commodities, as amended herein, is likewise justified.

7. The increases in rail rates and charges, as proposed in Application No. 50757, and further amended herein, are justified.

8. Where common carriers have been heretofore authorized to depart from the so-called long- and short-haul prohibitions of Article XII, Section 21, of the Constitution of the State of California and of Section 460 of the Public Utilities Code, such outstanding authorities should be modified, as requested by petitioner, to the extent necessary to carry out the effect of the order herein.

The Commission concludes that, pending further adjourned hearing, Petition for Modification No. 523 in Case No. 5432, and Application No. 50757 should be granted to the extent authorized by the order herein and that Minimum Rate Tariff No. 2 should be amended accordingly.

It is expected that the Commission's staff and petitioner will be prepared to present additional direct evidence at the further adjourned hearing to be scheduled in this matter concerning the cost factors deemed appropriate to measure contemplated minimum rate adjustments in a wage (cost) offset proceeding. When the parties are ready to proceed in this matter they shall so notify the assigned Commissioner and examiner.

-12-

INTERIM ORDER

IT IS ORDERED that:

1. Minimum Rate Tariff No. 2 (Appendix D to Decision No. 31606, as amended) is further amended by incorporating therein, to become effective May 10, 1969, the revised pages attached hereto and listed in Appendix A, also attached hereto, which pages and appendix by this reference are made a part hereof.

2. Common carriers subject to the Public Utilities Act, to the extent that they are subject also to said Decision No. 31606, as amended, be and they are hereby directed to establish in their tariffs the increases necessary to conform with the further adjustments herein of that decision.

3. Any provisions currently maintained in common carrier tariffs which are more restrictive than, or which produce charges greater than, those contained in Minimum Rate Tariff No. 2, are authorized to be maintained in connection with the increased rates and charges directed to be established by ordering paragraph 2 hereof.

4. The increased class rates, minimum charges and accessorial service charges directed to be established by ordering paragraph 2 hereof be and they are authorized to be made applicable also for the transportation of traffic now subject to class rates in common carrier tariffs:

- (a) For which minimum commodity rates have been established; and
- (b) For which minimum rates have not been established.

5. In addition to the increases hereinbefore authorized or required, common carriers by railroad be and they are authorized to increase their rates and charges of record in this proceeding to

-13-

the levels of the comparable rates, charges and provisions of Minimum Rate Tariff No. 2 established pursuant to ordering paragraph 1 hereof.

5. Common carriers maintaining, under outstanding authorizations permitting the alternative use of rail rates, rates below the specific minimum rate levels otherwise applicable on the commodities and between the points for which increases are authorized in ordering paragraph 5 hereof, are hereby authorized and directed to increase such rates, on not less than five days' notice to the Commission and to the public, to the level of the rail rates established pursuant to ordering paragraph 5 hereof; or to the level of the specific minimum rates, whichever is lower. To the extent such common carriers have maintained such rates at differentials above previously existing rail rates, they are authorized to increase such rates by the amounts authorized in paragraph 5 hereof; provided, however, that such increased rates may not be lower than the rates established by the rail lines pursuant to the authority granted in paragraph 5 hereof, nor higher than the otherwise applicable minimum rates. Such adjustments shall be made effective not later than thirty days after effectiveness of the increased rail rates.

7. Except for tariff publications required to be made by ordering paragraph 6 hereof, tariff publications resulting in increases required or authorized to be made by common cerriers as a result of the order herein shall be filed not earlier than the effective date of this order and may be made effective not earlier than the fifth day after the effective date of this order, on not less than five days' notice to the Commission and to the public; such tariff publications as are required shall be made effective not later than May 10, 1969; as to increases which are authorized but not

-14-

required, the authority herein granted shall expire unless exercised within sixty days after the effective date of this order; and tariff publications resulting in reductions may be made effective not earlier than the fifth day after the effective date of this order, and may be made effective on not less than five days' notice to the Commission and to the public if filed not later than sixty days after the effective date of the minimum rate tariff pages incorporated in this order.

8. Common carriers, in establishing and maintaining the rates authorized hereinabove, are hereby authorized to depart from the provisions of Section 460 of the Public Utilities Code to the extent necessary to adjust long- and short-haul departures now maintained under outstanding authorizations; such outstanding authorizations are hereby modified only to the extent necessary to comply with this order; and schedules containing the rates published under this authority shall make reference to the prior orders authorizing longand short-haul departures and to this order.

9. The motion to consolidate this proceeding with related matters now pending before the Commission or, alternatively, not grant the relief sought herein is denied.

10. In all other respects said Decision No. 31606, as amended, shall remain in full force and effect.

The effective date of this order shall be twenty-four days after the date hereof.

San Francisco _, California, this Dated at APRIL ____, 1969. day of dent Commissioners

MINIMUM RATE TARIFF NO. 2

Item No.	SECTION NO. 1 - RULES AND REGULATIONS OF GENERAL - APPLICATION (Continued)
	APPLICATION OF RATES
	Rates in this tariff, and common carrier rates applied under the provisions of Items Nos. 200, 210, 220 and 230, subject to minimum weights of less than 10,000 pounds, include loading into and unloading from the carrier's equipment. When the carrier picks up or delivers a shipment subject to a minimum weight of less than 10,000 pounds and weighing more than 100 pounds, at a point not at street level, and no vehicular elevator service or vehicular ramp is provided and made available to the carrier, an additional charge of 012 cents per 100 pounds, minimum additional charge 089 cents per shipment, shall be assessed for the service of handling shipment beyond the carrier's equipment.
ø120	Rates in this tariff, subject to minimum weights of 10,000 pounds or more, include loading into and unloading from carrier's equipment at established depots. At points of origin or points of destination other than established depots, rates in this tariff (other than common carrier rates, applied under the provisions of Items Nos. 200, 210, 220 and 230), subject to minimum weights of 10,000 pounds or more, include the services of one man (driver or helper) for loading or un- loading of the carrier's equipment, subject to the provisions of Item No. 140.
	CHARGES FOR ESCORT SERVICE
	In addition to all other applicable rates and charges named in this tariff, the following charges shall be assessed on shipments requiring escort service:
	(a) A charge of 058.40 per hour, plus 82 cents per mile computed in accordance with the provisions of Item No. 100, shall be made for each escort vehicle and driver furnished, for the time and distance said vehicle and driver are engaged in such scrvice. (See Note).
	(b) A charge shall be made equal to the actual cost of any bridge or ferry tolls incurred for each escort car.
\$15H	(c) A charge of \$7.25 per twenty-four (24) hour poriod shall be assessed for subsistence for each escort driver if service requires over-night delay.
	NOTECharges for fractions of an hour shall be determined in accordance with the following table:

Item No.	SECTION NO. 1 - RULES AND REGULATIONS OF GENERAL APPLICATION (Continued)
	FAILURE TO ACCOMPLISH DELIVERY (Applies only in connection with Items Nos. 176, 177 and 179)
	If the carrier, through no fault of its own, is unable to effect delivery of any shipment within 48 hours (excluding Saturdays, Sundays and holidays) after the first 7:00 a.m. following initial attempt of delivery, the shipment will be placed in storage and notice will be placed in storage and notice will be sent or given to consignor or consignee. Thereafter the shipment will be stored at carrier's terminal subject to the rates and charges set forth below, or at carrier's option, may be placed in a public warehouse at public storage rates.
ø141	For each of the first five days, 5½ cents per 100 pounds. For the sixth and each succeeding day, ½ cents per 100 pounds.
	Minimum storage charge per shipment on freight held beyond 48 hours, 5 days or less - 73 cents; 6 days or more - 112 cents. In computing time, any fractional part of 24 hours will be counted as one day. In computing charges, any fractional part of 100 pounds will be computed as 100 pounds. Shipments unloaded from vehicle and reloaded on vehicle for subsequent delivery will be subject to a charge of \$2.30 per ton in addition to all other charges set forth herein. During period in which component part is held in storage carrier's liability for loss or damage will be that of a warehouseman. Subsequent delivery from point of storage will be charged for as a new shipment.
142	(1)DELAYS TO EQUIPMENT Except as hereinafter noted, whenever the elapsed time between commencement and completion of the loading or unloading of shipments subject to minimum weights of 10,000 pounds or more, exceeds 8 minutes per ton (based on the weight on which transportation charges are computed) additional charges for delay time in excess of 8 minutes per ton shall be assessed as provided in Item No. 145.

(b) Shipments transported under the provisions of Items Nos. 200, 210, 220 and 230.

75520

(1) Does not apply on shipments of Whole Grain, in bags, subject to minimum weights of 10,000 pounds or more.

Item No.	SECTION NO. 1 - RULES AND REGULATIONS OF GENERAL APPLICATION (Continued)
143	 DELAYS TO EQUIPMENT ON WHOLE GRAIN (See Note) 1. Definitions (a) Actual placement. By actual placement is meant the placing of carriers' equipment at place designated by consignee or consignor for loading or unloading. (b) Constructive placement. By constructive placement is meant the holding of a unit of carriers' equipment at a point other than the designated loading or unloading place, due to the inability of consignee or consignor to accept for actual placement the unit of carriers' equipment after its tender for actual placement by the carrier. Constructive placement of equipment for purpose of loading or unloading shall not commence prior to the time specified in consignee's or consignor's oral or written equipment order, or at any time other than normal business days between the hours of 8:00 A.M. and 3:00 P.M. (the lunch hour between 12:00 noon and 1.00 P.M. excepted) Monday through Friday. (c) Unit of equipment. By unit of equipment is meant a motor truck, trailer, or semi-trailer, exclusive of motor tractor. 2. Free Time (a) A period of four (4) hours will be allowed on each unit of equipment between constructive placement and time equipment has actually completed loading or unloading. (b) The provisions of this item shall not apply in connection with the actual placement of units of equipment. 3. Demurrage on Equipment Held After Free Time Has Elapsed A charge of 2½ per 100 pounds will be made by the carrier on all shipments on all equipment unloaded or loaded after the free time has elapsed. 4. Provisions of Item No. 145 of this tariff will not apply.
ید م میلین <i>در تب<mark>یرین م</mark>ر</i>	

CHARGES FOR ACCESSORIAL SERVICES OR DELAYS For accessorial services or delays under conditions specified in Items Nos. 140 and 142, charges shall be assessed for each period or fraction thereof, as follows: Charges in Cents For Each For First Additional 30 Minutes 15 Minutes Ø145 or Fraction or Fraction (a) For driver, helper or other carrier employce, per man. For unit of equipment (each 0415 \$210 (b) motor truck, trailer or semitrailer, exclusive of motor tractors) 65 33 ADVERTISING ON EQUIPMENT For placing or carrying any sign, or signs, or advertising, of alcoholic liquors on carrier's equipment engaged in transporting alcoholic liquors as described in Item 111450 of the Governing Classification, moving between San Francisco Territory and Los Angeles Territory, ø147 an additional charge of \$\$7.60 per unit per shipment shall be assessed by the carrier. ø Change) Decision No. 75520 ◊ Increase) EFFECTIVE MAY 10, 1969 Issued by the Public Utilities Commission of the State of California, San Francisco, California. Item No.	SECTION NO. 1 - RULES AND REGULATIONS OF GENERAL APPLICATION (Continued)
	SMALL SHIPMENT SERVICE (Not subject to the provisions of Item No. 150) Rates provided in this item shall apply only when the shipping document is annotated by shipper with the words: "Small Shipment Service Requested." By such request, the shipper agrees to the requirements set forth in this item as prerequisite to application of the charges provided herein. Rates in this item will apply only to prepaid shipments, released to a value of 50 cents per pound or less per article, weighing not over 500 pounds and moving for distances not in excess of 400 constructive miles or under the provisions of Item No. 510. Rates in this item will not apply to: 1. Shipments including any commodity rated above class 100; nor 2. Shipments weighing less than 100 pounds which contain more than five pieces, or any shipment which contains more than five pieces per 100 pounds, or fraction thereof, of total shipment weight; nor 3. Shipments which require temperature control service, COD or order notify service, or which have origin or destination on steamship docks or oilwell sites; nor 4. Shipments containing personal effects, baggage or used household goods; nor 5. Shipments moving on government bill of lading. Rates provided in this item do not alternate with other rates and charges in this tarff, and rates provided in this item may not be used in combination with any other rates. The charge per shipment for Small Shipment Service
•	shall be as follows: Weight of Shipment <u>(In Pounds)</u> <u>\$Charge In Cents</u>
	The charge per shipment for Small Shipment Service shall be as follows: Weight of Shipment (In Pounds) <u>OCharge In Cents</u>
	75 100 $$ 390 420 100 150 $$ 480 590 150 200 $$ 570 715 200 250 $$ 650 835 250 300 $$ 745 955 300 400 $$ 890 1165 400 500 $$ 1030 1325

(1) Apply only on shipments moving distances not exceeding 150 constructive miles.

(2) Apply only on shipments moving distances exceeding 150 constructive miles, but not more than 400 constructive miles, and shipments moving under the provisions of Item No. 510.

(E) This item expires with December 31, 1969.

EFFECTIVE MAY 10, 1969

	<pre>(2)Packing Cushions or Pads: Shipping, cotton or jute (149140), cloth covered, in bundles or packages, Pails, iron or steel (52755, 174840 or 174860),</pre>	

.

- · · ·	•
Pallets, metal or wooden, shipping (150370 or 150390, Subs 1, 2, 3 or 4) including inside spacers or supports for pal-	
letized loads, Pallets, Platforms or Skids, for lift trucks (150390), loose or in packages,	
Puncheons (21742 or 21760), loose, Quicksilver Flasks (70075), loose or in packages,	Ì
Racks, shipping, engine cooling radiator (164390), SU or KD, Reels (41290, 41330 or 41390), loose.	
Spools, NOI, metallic or wooden (177450, 177470, 177500, 177580 or 177600), in bags, barrels, boxes or crates, less	
truckload; loose or in packages named, truckload, Tierces (21742 or 21760), loose,	
Vans, (other than lift) (41045 or 41050), knocked down or folded, loose, including pads or wrapping for packing.	
Containers, aluminum bulk commodity shipping (41030), nested,	
subject to Notes 1 and 2.	(3)(4)
Less truckload	50% of
Truckload:	(3)(5)
Minimum Weight 30,000 pounds	35-4
(1) Freight charges on shipments of empty Cement or Plaster Bags must be prepaid.	
(2) Subject to less truckload rating orly.	
(3) Does not apply to Carriers (Used Packages), malt beverage	
or cereal beverage (See Item No. 331 of this tariff).	1
(4) Subject to minimum rate of \bigcirc 37 cents per hundred pounds	Ì
or actual Class 55 rate whichever is lower. On con-	1
tinuous through movements on which charges are obtained by use of combinations of separately established rates,	
the minimum rate stated above shall apply, not in con-	
nection with the separately established factors, but to	
the total of the combined rate applicable to the through	1
continuous novement.	
(5) Not to exceed less truckload rate.	
NOTE 1.—Applies only on Carriers (used packages), second-	
hand, empty, returning, or when shipped for return paying load. Applies only when return movement is over same line, or lines,	
as outbound movement, subject to Item No. 291 of this tariff,	
except as provided in Note 2; and subject also to estimated	
weights, if any, which are published in the Coverning Classi-	
fication.	
NOTE 2If the charge accruing under the rating in the	
Governing Classification is lower than the charge accruing	
under the exception rating contained herein, the lower charge resulting from the Governing Classification rating will apply.	
O Increase) Decision No.	
EFFECTIVE MAY 10, 1969

Item No.	SECTION NO. 3 COMMODITY RATES (Continued								
	HOURLY RATES FOR OIL, WATER OR GAS WELL OUTFITS AND SUPPLIES (Continued)								
	1. Charges shall be computed on the following basis: (See Exception.)								
	The number of hours of service will be computed from the time the carrier's driver commences either operating the motor vehicle or performing other related service, whichever is earlier, and ending at the time that carrier's driver either ceases operating the motor vehicle or performing other related service, whichever is later.								
	When the service performed extends over more than one day and the equipment is not returned to carrier's terminal, the period of time the driver is off duty shall not be included in the hours of service.								
ø720-1	EXCEPTION(a) Allowance shall be made for delays occasioned due to failure of carrier's equipment, or due to time taken out for meals.								
	(b) After the total time has been determined it shall be converted into hours and fractions thereof. Minimum charge, one hour. Frac- tions of an hour shall be determined in accordance with the following table:								
	<u>Minutes</u> But Not <u>Over</u> <u>Over</u>								
	0 8 Omit 8 38 Shall be $\frac{1}{2}$ hour 38 60 Shall be 1 hour								
	2. For transportation furnished under this item on Saturdays and Sundays, there shall be an additional charge of \$\$3.50 per hour in excess of those set forth in Item No. 720.								
	3. For transportation furnished under this item on holidays there shall be an additional charge, in excess of those set forth in Item No. 720, as follows:								
	<ul> <li>(a) On July 4th, Labor Day, Thanksgiving Day, Christmas Day and New Year's Day, ◊\$13.20 per hour.</li> </ul>								
i	(b) On Washington's Birthday, Memorial Day and December 24th, 0\$6.55 per hour.								
	(Continued in Item No. 720-2)

Item No.	SECTION NO. 3 - COMMODITY RATES (Continued)							
	HOURLY RATES FOR OIL, WATER OR GAS WELL OUTFITS AND SUPPLIES (Concluded)							
	4. Rates include the exclusive services of vehicle and driver and do not include any equipment other than a winch affixed to the vehicle to load and unload. When carrier furnishes help other than the driver or supervising foreman, such service shall be charged for at a rate of not less than \$\$8.45 per hour per extra man furnished.							
	(a) On Saturdays and Sundays, the applicable helper rate shall be \$\$9.95 per hour.							
	(b) On July 4th, Labor Day, Thanksgiving Day, Christmas Day and New Year's Day, the applicable helper rate shall be \$\$19.25 per hour.							
	(c) On Washington's Birthday, Memorial Day and December 24th, the applicable helper rate shall be \$13.00 per hour.							
¢720-2	(d) The helper's hours of service for each day shall be computed from the time helper is engaged to perform loading, unloading, and other related service or is required to ride carrier's vehicle, whichever is earlier, and ending at the time the loading, unloading or other related service is completed, or the helper is returned to the point at which he was engaged at start of day, whichever is later.							
	(e) Allowances shall be made for delays due to failure of carrier's equipment or time taken out for meals.							
	(f) When the service performed extends over more than one day, the time the helper is off-duty shall not be included in the hours of service.							
	(g) After the total time has been computed, it shall be converted into hours and fractions thereof as provided under the provisions of Item No. 720-1.							
	(h) There shall be a minimum charge of one hour service at the applicable rate.							

•

5. When rates are provided in this item on the shipment transported, the rates in this item will apply regardless of class or commodity rates in other items in this tariff.

6. Each shipping document issued in connection with transportation under this item shall, in addition to other requirements set forth in this tariff, identify the equipment used by its equipment number and description as provided in Item No. 720.

7. Each vehicle shall have stenciled or otherwise permanently displayed on it an equipment number.

8. Excess trailers means trailers or semi-trailers furnished by carrier in excess of the number of vehicles or combination of vehicles operated as a single unit.

9. Rates include converter gears (auxiliary dollies).

10. "Dollies" include pole or pipe dollies, stretch dollies, lowbed dollies, bolster type dollies, but not auxiliary dollies.

	<ul> <li>(1) Rates apply to shipments not subject to Column (2) rates.</li> <li>(2) Rates apply when trailer equipment furnished by the shipper is used for the transportation of sugar, granulated, in</li> </ul>
	bulk, and such equipment is furnished at no expense to the carrier (other than public liability, property damage, comprehensive and cargo insurance).
	(3) Add to the rate for 500 miles, o3 cents per 100 pounds for each 25 miles or fraction thereof in excess of 500 miles.
	(4) Add to the rate for 500 miles,o2 cents per 100 pounds for each 25 miles or fraction thereof in excess of 500 miles.
	RULES AND REGULATIONS COVERNING THE APPLICATION OF RATES IN ITEM NO. 745
	NUTE 1The rates do not alternate with the class rates named in Section No. 2 of this tariff.
	NOTE 2The rates are not subject to Item No. 85 - Shipments Trans- ported in Multiple Lots; Item No. 142 - Delays to Equipment; Item No. 160 - Split Pickup; or Paragraphs 1 or 2 of Item No. 240 - Accessorial Services Not Included in Common Carrier Rates.
755	NOTE 3The initial weighing of shipments at point of origin may be performed by the carrier at the carrier's expense. For reweighing of shipments the carrier shall assess a charge of not less than 066 cents.
	NOTE 4Rates do not include pumping service when rendered with car- rier's equipment. When pumping service is performed by the carrier's equipment, a charge of one cent per 100 pounds will be made. Pumping service means the discharge of sugar from the carrier's equipment by the means of blowers.
	NOTE 5The shipping document issued for each shipment transported shall show the trailer numbers and identification of the ownership of the trailers used to perform the transportation.
