SUPPLEMENTAL OPINION AND ORDER

By Decision No. 74157 dated May 28, 1968, the Commission exempted the transportation of certain liquids, compressed gases and related commodities in collapsible tanks or bags from the application of the minimum rates named in Minimum Rate Tariffs Nos. 1-B, 2, 5, 9-B, and 19.

The aforementioned exemptions were made subject to an expiration date of June 29, 1969, to ensure that they would be temporary pending further action in these matters. Studies involving disposition of these exemptions have not been completed.

In the circumstances, it appears, and the Commission finds, that extension of the expiration dates governing the involved exemptions to December 31, 1970, is justified. A public hearing is not necessary. The Commission concludes that Minimum Rate Tariff No. 2 should be amended accordingly by the order herein. In order to avoid duplication of tariff distribution, the other tariffs should be amended by separate orders.

In view of the impending expiration dates of the aforementioned tariff exemptions, the order herein and the separate orders involved will be made effective on the date hereof.

IT IS ORDERED that:

1. Minimum Rate Tariff No. 2 (Appendix "D" of Decision No. 31606, as amended) is hereby further amended by incorporating therein, to become effective June 29, 1969, Eleventh Revised Page 15-A, attached hereto and by this reference made a part hereof.

2. Tariff publications required to be made by common carriers as a result of the order herein may be made effective not earlier than the second day after the effective date of this order on not less than two days' notice to the Commission and to the public and such tariff publications shall be made effective not later than June 29, 1969; and tariff publications which are authorized but not required to be made by common carriers as a result of the order herein may be made effective not earlier than the second day after the effective date of this order and may be made effective on not less than two days' notice to the Commission and to the public if filed not later than sixty days after the effective date of the minimum rate tariff page incorporated in this order.

3. Common carriers, in establishing and maintaining the amendments authorized hereinabove, are hereby authorized to depart from the provisions of Section 460 of the Public Utilities Code to the extent necessary to adjust long- and short-haul departures now maintained under outstanding authorizations; such outstanding authorizations are hereby modified only to the extent necessary to comply with this order; and schedules containing the amendments published under this authority shall make reference to the prior orders authorizing long- and short-haul departures and to this order.

4. In all other respects Decision No. 31606, as amended, shall remain in full force and effect.

This order shall become effective on the date hereof.

Dated at San Francisco, California, this 24th day of June, 1969.
