Application No. 50363
(Filed July 1, 1968)

ORDER MODIFYING DECISION

Changes authorized in rates, charges and conditions under Appendix B of Decision No. 76106 were found, on further test, to produce \$840,000 less than the increased gross intrastate revenues in the amount of \$46,668,000 which, based upon the test year, were found to be justified. Further revision in rates is therefore appropriate in order to correct errors and omissions.

The Commission finds and concludes as follows:

1. The rates authorized by this Commission as set forth in Appendix A hereto are fair, just and reasonable.

2. The increases in rates and charges authorized herein are just and reasonable and present rates and charges, insofar as they differ therefrom, are for the future unjust and unreasonable.

IT IS ORDERED that on or after the effective date of this order, applicant Southern California Edison Company is authorized to file rates revised as set forth in Appendix A attached hereto. Such filing shall comply with General Order No. 96-A. The effective date of the revised rate schedules shall be the date of filing.

The revised rate schedules shall apply only to service rendered on and after the effective date thereof.

The effective date of this order shall be ten days after the date hereof.

Dated at San Francisco, California, this 23rd
day of SEPTEMBER, 1969.
