Case No. 7858
Order Setting Hearing
October 5, 1965

OPINION AND ORDER

By Decision No. 76408, entered today in Case No. 7858 (Order Setting Hearing of October 5, 1965) et al., further disposition was made of the existing exception ratings and rules contained in Exception Ratings Tariff No. 1, thereby reflecting the recent adoption of National Motor Freight Classification A-10 to otherwise govern the Commission's various minimum rate tariffs. The decision also provided that Exception Ratings Tariff No. 1 should be amended by separate order to avoid duplication of tariff distribution.

IT IS ORDERED that:

1. Exception Ratings Tariff No. 1 (Appendix A to Decision No. 66195, as amended) is further amended by incorporating therein, to become effective January 3, 1970, the revised pages attached hereto and listed in Appendix A, also attached hereto, which pages and appendix by this reference are made a part hereof.

2. Common carriers subject to the Public Utilities Act to the extent that they are subject also to Decision No. 66195, as amended, are hereby directed to establish in their tariffs the increases necessary to conform with the further adjustments ordered herein.

3. Common carriers maintaining class ratings at a level other than the minimum ratings for transportation for which ratings are prescribed in Exception Ratings Tariff No. 1 are authorized to increase such ratings by the same amounts authorized for Exception Ratings Tariff No. 1 ratings herein.

4. Common carriers maintaining class ratings at the same level as Exception Ratings Tariff No. 1 ratings for the transportation of commodities and/or for transportation not subject to Exception Ratings Tariff No. 1 are authorized to increase said ratings by the same amounts authorized for Exception Ratings Tariff No. 1 ratings herein.

5. Common carriers maintaining class ratings at levels other than the minimum ratings for the transportation of commodities and/or for transportation not subject to Exception Ratings Tariff No. 1 are authorized to increase said ratings by the same amounts authorized for Exception Ratings Tariff No. 1 ratings herein.

6. Tariff publications resulting in increases required or authorized to be made by common carriers as a result of the order herein shall be filed not earlier than the effective date of this order and may be made effective not earlier than the twentieth day after the effective date of this order, on not less than twenty days' notice to the Commission and to the public; such tariff publications as are required shall be made effective not later than January 3, 1970; as to increases which are authorized but not required, the authority herein granted shall expire unless exercised within sixty days after the effective date of this order; and tariff publications resulting in reductions may be made effective not earlier than the twentieth day after the effective date of this order, and may be made effective on not less than twenty days' notice to the Commission and to the public if filed not later than sixty days after the effective date of the minimum rate tariff pages incorporated in this order.

public if filed not later than sixty days after the effective date of the minimum rate tariff pages incorporated in this order.

7. Common carriers, in establishing and maintaining the ratings authorized hereinabove, are hereby authorized to depart from the provisions of Section 460 of the Public Utilities Code to the extent necessary to adjust long- and short-haul departures now maintained under outstanding authorizations; such outstanding authorizations are hereby modified only to the extent necessary to comply with this order; and schedules containing the rates published under this authority shall make reference to the prior orders authorizing long- and short-haul departures and to this order.

8. In all other respects said Decision No. 66195, as amended, shall remain in full force and effect.

The effective date of this order shall be twenty days after the date hereof.
