Decision No. 76975

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application of  
FLOUR TRANSPORT, INC., a California  
corporation, for authority to devi-  
ate from minimum rates pursuant to  
Section 3666 of the Public Utilities  
Code for the transportation of flour,  
in bulk, for specified shippers.

Application No. 51668  
(Filed January 29, 1970)

OPINION AND ORDER

Flour Transport, Inc., a highway contract carrier, is engaged in the transportation of flour, in bulk, between points in Los Angeles, Orange, Riverside and San Bernardino Counties. By Decision No. 75359, dated February 25, 1969, in Application No. 50848, it was authorized to charge less than the minimum rates named in Minimum Rate Tariffs 2 and 5 for said transportation for specified shippers. The authority so granted is scheduled to expire with April 18, 1970.

Applicant seeks the extension of the authority for an additional year's period. It asserts that the continuation of the authority is necessary to prevent a substantial diversion of the traffic involved to proprietary transportation.

Revenue and expense data submitted by applicant indicate that the transportation has been profitable and may be expected to be profitable during the ensuing year.

The certificate of service shows that a copy of the verified application was mailed to the California Trucking Association on January 29, 1970. The application was listed on the Commission's Daily Calendar of February 4, 1970. No objection to the granting of the application has been received.

In the circumstances, the Commission finds that:

1. Applicant's results of operations under its existing minimum rate authority have been profitable and the transportation service involved may reasonably be expected to continue to be profitable during the forthcoming year.

2. The proposed rates and charges are reasonable.

We conclude that the application should be granted.

A public hearing is not necessary.

IT IS ORDERED that:

1. Flour Transport, Inc., is hereby authorized to transport:

Grain or Rice Flour, in bulk,

Grain or Rice Flour, in bulk, including chemical or other ingredients not to exceed four percent, and

Semolina or Semolina and Grain Flour, in bulk,

between points in Los Angeles, Orange, Riverside and San Bernardino Counties for the shippers named in Appendix A, attached hereto and by this reference made a part hereof, at rates less than the established minimum rates but not less than those set forth, and subject to the conditions specified, in said Appendix A.

2. The authority granted herein shall, on and after April 19, 1970, supersede the authority granted by Decision No. 75359, and shall expire with April 18, 1971.

The effective date of this order shall be twenty days after the date hereof.

Dated at San Francisco, California,  
this 21<sup>st</sup> day of MARCH, 1970.
